GENERAL NEWS.

Personal.—Olin Beall is secretary and treasurer of the Roanoke iron company, Roanoke, Va. He enjoys a good salary and is worthy of it.

Brevities.—Let to-morrow take care of itself, and you will find that it will let you take care of yourself when it gets here.

The Baltimore *Sun* states "that the Shippensburg correspondent of the Carlisle *Sentinel* returns thirteen lines of thanks for six fried oysters." And then, in all probability, the caterer was out of at least five oysters.

It is hard for a woman to please. If she makes apple pie, her husband asks for lemon, if she makes pudding, the children cry for pie. If she bakes her potatoes to suit her childen, her husband will not eat them. A woman who has to cook to suit five or six appetites has a hard time of it.

The National Capital.—The city of Washington is an object of perennial interest to all patriotic Americans. Not alone because it is the great throbbing heart of the mightiest and grandest Republic the earth has ever known, but also on account of its material magnificence. All Americans take pride in its beautiful avenues, majestic architecture, stately homes, and well stored galleries and museums as things of grandeur and beauty in themselves, apart from the historic interest with which they are invested. It is a hope and aspiration of all "Young America," at least, to some time or other visit the Capital of his country.

The Baltimore and Ohio R. R. offers unequalled facilities in aid of this desire. All its through trains between New York, Philadelphia, and Baltimore on the east, and Pittsburg, Cincinnati, St. Louis and Chicago on the west, pass through Washington. Its fast express trains are vestibuled from end to end and heated with steam. Pullman's latest and best productions in the way of sumptuous Drawing Room Sleeping Cars are attached to all its through trains. The present management of the B. & O. have made vast improvements in the last two years, and the road is to-day one of the foremost passenger carrying lines in the country. Through tickets via B. & O. R. R. can be procured at all the principal ticket offices throughout the United States.

The Persimmons.—This unique heading belongs to the last sentence of this article, but the exigencies of good rhyming taste forbid.

The persistent advertiser always succeeds. His efforts may sometimes be misdirected, but his persistency will eventually lead him into right channels and help him overcome all obstacles. There is no week in the year when advertising may not be profitable. It is not like any other sowing. The more out of season an advertisement is the more noticeable it is and the deeper it burns itfself into one's memory. An advertisement to sell heavy overcoats and woolen blankets in July might be quite unseasonable, but you would never forget the fellow who did it. No more would you the man who would candidly advertise ice when the thermometer was 20 degrees below zero. When business is quiet and people have much leisure, they scan advertisements much more closely than when things are rushing. At such times mediums are not crowded with ads. and the persistent man has the double advantage of having his ad. more prominent and more closely studied. For those who overrule these arguments we will quote that oft recited verse from Pope as a truism from the persistent advertiser:

Vice is a monster of such horrid mien
That to be hated needs but to be seen;
Yet seen too oft, familiar with its face,
We first endure, then pity, then embrace,

At first your advertisement may be seen and hated;
A few times seen, it is more kindly rated;
Forever seen, it every purse unlocks.
Persistent advertising is "what knocks."

A Scrap of Paper Saves Her Life.—It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her; she bought a large bottle; it helped her more; bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial bottles of this wonderful Discovery free at R. G. Colborn's drug store.

ATTENTION, HORSEMEN

I HAVE secured the agency for the sale in **Allegany and Garrett counties, Md., and Mineral county, West Va.,** of the famous

Neverslip Horseshoe

with its removable steel-centred and

Self-Sharpening Calks.

If you have your horse shod with these Shoes you will save time, money and the horses' feet, as the Calks, being *self-sharpening*, remain sharp until entirely worn out, and, with the NEVERSLIP WRENCH, you can, in a few minutes, put in a new set of Calks while your horse is standing in the barn.

The principal advantages of this Shoe are—
1. It never slips in any direction.
2. It saves horses from sprains and bruises which they constantly receive from insecure footing.
3. It greatly lessens the danger from calking.
4. It saves the time of both horses and owners, as the unscrewing of old and replacing with new Calks is the work of only a few moments.
