Easton, Md., June 30, 1921.
Chestertown Water Board of Chestertown, Md.

I do not believe the typhoid fever in Chestertown is due in any way to the water from the public water supply, but as a little pollution is indicated I will shortly take another set of samples to see if there is any effect from disinfecting the old electric light plant well. Very truly yours,

A. E. GOODRICH,
Resident Engineer.

Immediately after the samples of water above mentioned were sent away for analysis the well referred to was filled with lime and sand at the suggestion of Mr. Goodrich. adv.

LOCAL MATTERS

Poured Acid On Thresher—Besides the wrecking of the threshing outfit of R. N. Remley, of Cheswold, Del., with dynamite, on the Biggs farm, near Middletown, noted last week, another thresher owned by Arthur Lockerman, of Warwick, is reported to have been put out of service by the pouring of acid upon bearings and other parts of the machinery two nights after the Remley outfit was wrecked.

Threatened To Burn Crumpton—Edward Wise, an aged colored man of Crumpton, was taken to Centreville jail last week by Sheriff Yeates and Constable Williamson. Wise went violently insane several days ago and threatened to burn the town of Crumpton. He now promises to burn Centreville if ever liberated. He will very likely be sent to the State Asylum at Cambridge.

New Books For Public Library—The following new books have been added to the Chestertown Public Library: Alice Adams, by Booth Tarkington; The Fire Bringers, by Francis Lynde; A Flower of Monterey, by Katherine Hamill; ThePagan Madonna, by Harold MacGrath; The Annes, by Marion Tagraft; Vision House, by C. N. and A. M. Williamson; Galusha The Magnificent, by Joseph Lincoln; The Long Way Round, by Emerson.

Copious Showers Bring Big Relief—The copious showers of Tuesday evening brought great relief to the dusty fields and sweltering people of Kent county, although a few, comparatively, were inconvenienced by getting wet at the Chautauqua tent, which leaked to a considerable extent. Our farmers will now begin to get their fields in condition for the seeding of wheat and other fall crops, while late corn and potatoes will be greatly benefited.

Kent Postmistress Congratulated—Postmistress A. E. Bowers, of Millington, has received a letter commending her activity in the sale of Government Savings Securities recently from Howard T. Cree, director of the Savings Division of the Treasury Department in this district. "Your office is one where exceptionally good work has been done during the last six months in the sale of Government Savings Securities," the letter states, and goes on to say "by encouraging people to save money you have helped to create the new capital necessary for business expansion and commercial development." The postmistress is in line for a place on the honor roll of those who are rendering special service in the popularizing of Government Savings Securities, which is to be made up by Treasury officials in the Fifth Federal Reserve District the latter part of the year and sent to Washinton. She is anxious to win one of the bronze honor pins to be awarded at that time, and is calling on the patrons of her office to help her place enough Government Savings Securities in the next three months to gain this recognition.

Judge Adkins Scores The Bootleggers—Bootlegging is becoming a serious menace on the Eastern Shore of Maryland. One day recently it was reported that a bootlegger sold whiskey at Easton, it being stated that 24 cases of whiskey were disposed of in short order and a trail of drunkenness and disorderly conduct following in the wake. The facts soon reached the ears of Judge Adkins, and he at once asked for an explanation from the county officials. The judge has repeatedly stated that not only is the eighteenth amendment a part of the Constitution of the United States, but that the local option law is still in force. A sharp reprimand was administered to the officials for not learning of the matter in time to prevent it.

Our Melons Growing Famous—We doubt if any section on earth raises better watermelons than the Eastern Shore of Maryland. Speaking along this line the Maryland Farmer says: "With his great hearted hospitality Bro. James Anthony invited the Roslyx Grangers and their friends, when their boat, the B. S. Ford, arrived at Chestertown the other day, to come to his home to eat watermelons and canteloupes. Those who accepted this invitation found the best melons ever and ate to their heart's content. Not only did they eat at Bro. Anthony's home, but a huge watermelon was given to each guest to take back to the Western Shore."

DEATHS

Many Kent people will regret to learn of the sudden death of Mr. Edward Gillis, a well-known traveling man, at his home in Milford, Del., recently. Mr. Gillis was a member of the well-known Gillis family of Salisbury, where he was born and where he grew to manhood. When a young man he was a member of the baseball team of that town and was a great shortstop. He was married and leaves a widow and several children. He had been residing in Milford about twenty years.

John Noah Sparks, for a number of years one of the best known residents of Crumpton, Md., died at Emergency Hospital, Easton, recently, of Brights disease. Mr. Sparks had been ill about three weeks, having been stricken while on a visit to Centreville, and for several days after was ill at his home in Church Hill, when his physician advised his removal to Easton Hospital. He grew rapidly worse and died the following Sunday.

Mrs. Dora Baxter, wife of Samuel Baxter, of Sudlersville, died at her late home on Tuesday of last week, of a complication of diseases, aged 59 years. She leaves beside her husband one daughter, Mrs. Wm. McGinnes, of Sudlersville, two sons, Mason Baxter, of Sudlersville, and Rollison Baxter, of Chestertown; also 6 sisters and one brother. Funeral was held from her late home, interment in Sudlersville cemetery. Mrs. George W. Carter, Sr., and Mrs. Emma Cranor, of Chestertown, are sisters of the deceased.

—It is quite an infrequent occurrence when an error gets into our columns. Last week we stated that a meeting was held in the High School Building by the ladies to discuss important questions pertaining to the primaries. We understand that this was a mistake. The meeting was held for the purpose of hearing Dr. E. J. Clarke discuss the subject, "Government and Citizenship," and had nothing to do with the primaries.

Wm. L. Holton, of Centreville, Shoots Himself

William L. Holton, 61 years old, teller of the Centreville National Bank, shot himself in the head at the bank Thursday afternoon. He is now at the Easton Hospital, where it is said that he will die.

No reason has been assigned for Mr. Holton's act. He was not involved in any way at the bank nor, so far as is known, was he in poor health. He had lost no time at the bank recently.

Going into a corridor of the bank, Mr. Holton locked the door. A moment later other persons in the bank heard a shot and tried to get into the corridor. The locked door was broken and Mr. Holton found with a bullet wound in his head and a pistol at his side. He was attended by Drs. H. F. McPherson and J. M. Corkran, who had him rushed to the Easton Hospital.

Mr. Holton had been connected with the bank for 40 years.
