DEMOCRATIC TICKET

For United States Senate:

WILLIAM CABELL BRUCE.

For Congressman:

T. ALLAN GOLDSBOROUGH.

THOSE who attended the meeting at Washington College Thursday evening and heard the lecture on "How to Fail" by F. D. VanAmburgh can speak for themselves. Those who did not attend missed an inspiring and instructive talk. Mr. VanAmburgh was unlike any other lecturer we have ever heard; his way of holding the attention of his hearers and driving home the points he wished to make were effective. Seldom if ever have the business men of this county listened to a more instructive business talk; if many of the things he told us are just put in practice, progress will follow. Let's take one suggestion, at least, that he made, apply it to our own business and watch results.

CAMPAIGN DRAWING TO A CLOSE

As the election draws near to the close, we find the Republicans are becoming more active. We see evidences of a hard-fought battle in the town and in the county. Every Democrat should put his or her shoulder to the Democratic wheel and give it a push. The Democratic candidates this year are entitled to your support. They are clean and intelligent members of exceptional ability and records in public life—men who will reflect credit upon you, the state and the nation. Men who are free from Soviet and Bolshevist tendencies; men of broad mind and keen vision who can see as far into the future welfare of our nation as can be found. They have been tried and found capable and efficient; what more can you ask or expect? Two years ago we supported the Hon. T. Allen Goldsborough for Congress; he was elected and has made good to his constituents and if elected again on Nov. 7, as we have no dodubt he will be if the Democratic voters come to the polls and do their duty, he will prove a more efficient representative than during the past two years, because he has attained a knowledge and experience that will be valuable to him this coming session. Senator W. Cabell Bruce is making a telling campaign throughout the state and no one will make a mistake by voting for him. We urge upon the voters to come to the polls on Nov. 7 and cast your votes for these two capable and efficient candidates—Bruce and Goldsborough. We have a vision, and through that vision we see a Democratic majority in the Lower House of Congress for 1923.

THE ROAD BOND ISSUE

The Bond issue of $100,000 for building permanent roads throughout this county is before the voters at the election on Nov. 7. If the people want good roads and are willing to pay a slight increase in taxes to get them they now have the opportunity. While there will be an increased rate of a few cents on the hundred dollars in taxes there should be taken in consideration a considerable amount for the saving of wear and tear to your teams and automobiles in the difference between riding and hauling in mud and on a good permanently improved road. If the Bond Issue carries these roads will be built like the road from Chesapeake City to Elkton. This road was built by our present road engineer, Mr. Gault Applgarth. Mr. Applegarth published a letter in this paper last week which can be found on the eighth page. Every voter should read that letter before casting their vote on the Bond Issue. It will be too late after you have voted. Don't be like a number of voters in Chestertown, who voted against the Bond Isue for the improved streets of this town and have since told us that they have changed their minds and would now vote for it. It is too late now; the question has been settled; and so it will be with the Kent County Road Bond Issue after Nov. 7. We stand for progress; we believe in going ahead. But for progress we would never have advanced in civilization and nor would we be enjoying the things in life that we now enjoy. The judicious spending of money brings increased business and increased business brings increased profits and advancement. We are in favor of the Road Amendment, as good roads mean progress.

Bond issues of reasonable amounts for necessary improvements are not so much to be dreaded as some people imagine. Borrowing money for county construction dates back many years. We find in the laws of Maryland in 1860, Chapter 23, a law designating John S. Constable, Edward Wilking, George W. Spencer, Caleb W. Spry, James B. Ricaud, Thomas W. Eliason and Joseph A. Wickes a commission to take down the old Court House and to build a new one and furnish it with necessary furniture, etc. Sec. 2 of the above chapter authorizes them to borrow money from time to time in such sums as may be found necessary for construction and furnishing said Court House and offices on the credit of Kent County, said sum not to exceed $12,000. The only difference between then and now is that the voters had no say in in the matter in those days.
