
McCORMICK-DEERING
Tractor Power---for ALL Work!

Every year McCormick-Deering Tractors stand stronger with local farmers. The name McCormick-Deering has become the symbol of reliable power farming because it stands for carefully built practical, many sided, long-lived farm power—and the kind of service co-operation we are able to offer our customers.

Men who have used International Harvester tractor—for months or for years—are steafast friends of McCormick-Deering farm power. They will recommend McCormick-Deering when you come to buy. Other men who risked using cheaper, lighter tractors, found themselves under-powered. They fell short of reaching full production with the least possible labor and in the shortest possible time. After this experience they were ready for new and better power. There are many like these, too, who will recommend McCormick-Deering when you make your power investment.

We invite you to look them over at our store.
