as was at first proposed, it has been determined to enable you to carry the operations proposed by you into effect.

For this purpose Major General Pole, on whose zeal and abilities great reliance is placed, is directed to proceed to carry into operation the plan which you may agree upon with him; and in addition to the force now under his orders, and the Marines, the Troops named in the margin are preparing to proceed to join you.

These reinforcements will all be embarked in Troop Ships, and under the protection of the Valiant or Zoma other 74 Gun Ships, may be expected to sail from Corfu about the middle of September, or the first fair wind after the Equinox.
