AGRICULTURIAL NOTES

MARYLAND SEED CORN TO BE DISPLAYED

Maryland grown seed corn will again be exhibited at the International Grain and Hay Show to be held at Chicago the last week in November.

While the growing season has not been particularly favorable for the production of the best quality corn, recent dry weather and the absence thus far of freezing temperature have been of material benefit to growers in properly curing the crop. Growers of seed corn, from whom exhibits are obtained, usually take necessary precautions against injury to the grain and it is probable that exhibits will be found to measure up to the average it, is said.

Freezes and molds are the chief obstacles to be overcome in the curing of the corn crop, says Mr. Oldenburg. Corn with a high percentage of moisture is easily damaged by freezing weather, the germ either being injured or entirely killed. For this reason, growers who desire to have good seed for the following spring, usually take the precaution to dry their corn quickly in a place where the germ will not be damaged by freezing weather.

Moisture likewise promotes the growth and development of molds which are also injurious. Once the corn becomes thoroughly dry there is little likelihood that the germ will be injured even by severe cold weather or that molds will prove troublesome.

The Maryland corn exhibits at the International Grain and Hay Show will be in charge of Mr. Oldenburg while J. E. Metzger, head of the department of agronomy and soils at the University of Maryland, will serve as one of the judges of the corn show.

Club Girls To Have Exhibit At Chicago

Canned products and clothing, the work of Maryland 4-H club girls, will be exhibited at the National Boys' and Girls' Club Congress to be held at Chicago in connection with the International Livestock Exposition the latter part of November, it is announced by Miss Dorothy Emerson, girls' club agent for the University of Maryland Extension Service.

The articles to be shown by Maryland club girls will be representative of some of the more important features of the home making art which they are taught as members of the 4-H cubs. The exhibit will be composed chiefly of the best displays entered in the club class at the Timonium Fair.

L. C. ROBINSON CHRISTMAS SEAL CHAIRMAN

Announcement has been received from the offices of the Maryland Tuberculosis Association, Inc., at Baltimore, Maryland of the appointment of Mr. Louis C. Robinson, of Chestertown as Seal Sale Chairman for Kent County, for its twentieth annual Tuberculosis Seal Sale campaign which will open on Thanksgiving Day and continue until Christmas.

Mr. Robinson commenting on the coming sale, said, "It is our desire this year to put over a banner Seal Sale so that we may continue our county health work on a larger scale than in the past. Every one will be given an opportunity to purchase Seals, and have a part in the prevention and eradication of Tuberculosis in our county. The work that has been accomplished by the little seal in the past twenty years is stupendous. Twenty years ago there were more than 300,000 deaths in the United States from Tuberculosis. Today this has been cut by more than half. Now is the time, not to let up or relinquish in our efforts, but to increase our health program and Tuberculosis work so that the white plague may finally and for all time be placed in the category of diseases such as Small Pox."

Mr. Robinson has received the Seal Sale posters and advertising material which will be displayed throughout the county in the interest of the sale. This year as in the past 70% of the funds raised in this county will be used to finance county health work. Of the 30% which will be sent to the State office, 5% will go towards financing the National Tuberculosis program. The 25% which will remain at the State office will be used to finance field work, educational program, supplies, and clerical service for this county.

Thirty million Seals weighing more than seven thousand pounds have been supplied for the State of Maryland.

MR. FARMER

Do you know that within the past eighteen months the Maryland-Virginia Joint Stock Land Bank of Baltimore, through Wm. Frazier Russell, Jr., its attorney, has loaned to Kent County Farmers more than $90,000.00?

Do you know that you pay no bonuses or commissions to secure a loan through this bank?

Do you know that when you borrow $1000.00 you get a draft for $1000.00?

Do you know that every time you pay your interest you cut down the principal mortage indebtedness?

Your neighbors are getting "wise." It will cost you nothing to learn.

Write to or call upon,

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not ordered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared t meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.
