DEMOCRATIC TICKET

For President,
ALFRED E. SMITH,
of New York

For Vice-President
JOSEPH ROBINSON
Of Arkansas

For United States Senate
WILLIAM CABEL BRUCE,
of Baltimore, Md.

For Congress from the First Congressional District
T. ALAN GOLDSBOROUGH
of Caroline County.

MR. JOHN N. MACKALL, chairman of the State's Roads Commission is reported as having stated" that it will take him three months in whirh to study and pass upon the Chesapeake Bay Bridge plans before he approved the construction." It is hard to conceive of Mr. Mackall having taken such a position. The Maryland Legislature passed the measure a year and a half ago and publicity has been given this contemplated structure, and several reported statements have come from Mr. Mackall from time to time about the advisability of this bridge across the bay, and it seems to us that Mr. Mackall is a little unreasonable in taking three months in which to consider the advisability of approving or disapproving the construction of this bridge. This is August and three months more would make it about the first of November, entirely too late for any work to begin on the construction this year. There are many people deeply interested in seeing Chesapeake Bay bridged and instead of Mr. Mackall obstructing the enterprise it appears to us and many others that he should use every available means to advance this much talked of and much desired project. The Maryland Legislature has endorsed it, the Engineering Department of the United States Government have endorsed it and we hope Mr. Mackall will give his endorsement in a shorter time than three months.

GOVERNOR SMITH'S CREED

To those who are inclined to cut Governor Smith the Democratic nominee, because of hhis religious belief, should carefully read the following statement made by him. To bolt your party icket because of religious belief in judgement is unjust.

"I believe in the worship of God according to the faith and practice of the Roman Catholic Church. I recognize no power in the institutions of my church to interfere with the operations of the Constitution of the United States or the enforcement of the law of the land. I believe in absolute freedom of conscience for all men and in equality of all churches, all sects and all beliefs before the law as a matter of right and not as a matter of favor. I believe in the absolute separation of Church and State and in the strict enforcement of the provisions of the Constitution that Congress shall make no law respecting or establishing of religion or prohibiting the free exercise thereof.

" I believe that no tribunal of any church has any power to make any decree of any force in the law of the land, other than to establish the status of its own communicants within its own church. I believe in the support of the public school as one of the corner stones of American liberty. I believe in the right of every parent to choose whether his child shall be educated in the public school or in the religious school supported by those of his own faith. I believe in the principal of non-interference by this country in the internal affairs of other nations and that we should stand steadfastly against any such interference by whomsoever it may be urged. And I believe in the common brotherhood of man under the common fatherhood of God.

"In this spirit I join with fellow Americans of all creeds in a fervent prayer that never again in this land will any public servant be challenged because of the faith in which he has tried to walk humbly with his God."
