A SUPERIOR Drill means *bigger crops*

TODAY, farmers everywhere acknowledge the SUPERIOR to be the best drill made. Their fathers said the same thing. So did their grandfathers. The SUPERIOR has *always* been a *better* drill. Every worthwhile grain drill improvement in the last fifty years has been a SUPERIOR improvement. And now the SUPERIOR is even better than before.

Note these SUPERIOR Features

No other grain drill combines these — and many more — outstanding improvements: Double-run force feed insures precision feeding — perfect timing — even spacing. No seeds cracked or wasted. No skipping or bunching. Made in both plain grain and fertilizer grain models. For team or tractor. Single disc, double disc, or hoe furrow openers. Special design for every type of soil. Hyatt roller bearings and Alemite lubrication prevent wear on moving parts—make drill last longer—provide lighter draft —make it easier to operate.

Come In and See It

These are some of the reasons why the SUPERIOR Drill means bigger crops—why it pays for itself in the extra bushels of grain you get at threshing time. Come in and see the improved SUPERIOR Drill. Do this before you sow your next crop.

WAS THAT LAST 5c CIGAR BITTER?

No More Experience Like That If You Smoke This Ripe Tobacco Cigar

No, they're not all alike. There is a difference in five-cent cigars. Many, we admit, are made from "scraps," "cuttings," *under*-ripe top leaves, *over*-ripe bottom leaves and other low-grade tobacco material. But there's one cigar, men, that's 'way ahead of its price class: *Havana Ribbon*. And the reason is—*It's Ripe Tobacco!* No bitterness; no flatness; no short ends to crumble in your mouth. But all long-filler, fully-ripe middle leaves from choice tobacco plants. Man, that does make a smoke! Cool, sweet, mild, fragrant, flavorful—a cigar that makes your nickel ring like it was a silver dime!

Give *Havana Ribbon* a chance. You'll never stop wondering how a cigar so good can be made for five cents. Also sold in *Practical Pocket Packages* of five cigars.

NO BREAKEAST? YOU'RE WRONG

Many mothers when asked, "does your child eat well?" will reply, "Yes, he eats as much as I give him. This is followed with the question. "What does he eat for Breakfast?" "Oh, he seldom eats any breakfast."

This is one of the very common causes of poor nutrition, and one to which that is seldom given. Every one must take in a certain amount of food in a day in order to hane enough energy for the day's activities. A child especially cannot, or at least, he does not take in enough food in two meals to care for his body needs. It is very important that he form the habit of breakfast eating.

"But Johnny wants no breakfast. He isn't hungry," says mother. After a rest from eating for twelve hours, as is the case from supper to breakfast, it is natural for a child, for any one, to be hungry. Lack of appetite comes from some cause that should be corrected.

It may be from a physical defect as in the case of a certain little six year old boy.

He was found to have enlarged and diseased tonsils. He had no appetite, never could be persuaded to eat breakfast, and had all the resulting troubles to which this leads. The tonsils were later removed and were found to be the one contributing factor to lack of appetite. His appetite improved for meals and certainly for the "break from the long fast," from which term we get our word breakfast. Of course, his disposition also impored.

The amount of rest that one gets also has its effect on appetite, so that "early to bed," is a good motto to follow. Equally true is the rest of the saying, "early to rise." A child who retires late, will naturally rise late, and if going to school, there is not time for eating breakfast as it should be eaten.

The use of tea and coffee inhabits the appetite, and children should not be given either, not even "week with lots of cream." The use of tobacco also impairs the appetite. Our doctors tell us that brushing the teeth in the morning, and giving three of four good brushes to the tongue will help. If the "dark brown" taste is in the mouth, the thought of food is not so appealing.

Drinkng at least two glasses of water upon arising is a good habit. Even one will help. If possible, serve fruit at breakfast. Its acid stimulates appetite and helps prevent constipation. If constipation exists, it results in a lessened appetite. However, it works both ways, for constipation may result, we are told, from going regularly without breakfast.

Breakfast is an important meal. Don't neglect it!

MIRIAM KINCHELOE,
R. R. C. Nutritionist, Kent County.

STILL POND

Mrs. Emma Thompson spent this week with her son. Mr. Carlton Thompson, in Philadelphia.

Mrs. J. W. Andrews, of Cumberland, Md., has been visiting her parents, Mr. and Mrs. J. T. Nicholson.

Mr. S. W. Matthews has returned home after a trip north as far as Canada.

Mr. and Mrs. Thomas Mann were given a shower at the home of Mrs. Wm. Clark on Tuesday evening. A large crowd was present and many useful and pretty gifts were received.

Miss Minnie Medders has returned to Baltmore after spending several days with her brother, Mr. William Medders.

Don't forget the date of the Ladies' Aid play in Bramble's Hall on November 30th.

The Devotional Service of the Epworth League will be lead on Sunday evening by Mrs. Carl Norris.

At the meeting of the tenant farmers and others in Easton on Tuesday of last week a request was made to Dr. Symons, director of the Extension Service, that a permanent man be established on the Eastern Shore to look after the dairy interests. At the present time J. C. Conover takes care of the entire state, but since the Del-Mar-Va Peninsula is doing a milk business equal to one fourth the supply of Philadelphia, and amounting to over five million dollars a year, it was thought there was ample work for a man to be permanently located here.

MR. FARMER

Do you know that within the past eighteen months the Maryland-Virginia Joint Stock Land Bank of Baltimore, through Wm. Frazier Russell, Jr., its attorney, has loaned to Kent County Farmers more than $90,000.00?

Do you know that you pay no bonuses or commissions to secure a loan through this bank?

Do you know that when you borrow $1000.00 you get a draft for $1000.00?

Do you know that every time you pay your interest you cut down the principal mortage indebtedness?

Your neighbors are getting "wise." it will cost you nothing to learn.

Write to or call upon,

WM. FRAZIER RUSSELL, JR., Att'y,

For Ships of the Air—A Lighthouse

AS THE nightbound airmen wing their ways through this evening's darkness and strain their eyes to pick up Baltimore, a new beacon will greet them—a lighthouse of the sky.

Tonight a flare is set for those intrepid nocturnal birds who fly to and over Baltimore. Swinging steadily on its orbit above its neighboring towers of steel and masonry this brilliant beam from the Standard Oil Building will pierce the horizons to guide these flyers. Beside the larger light, a stationary beacon cuts through the darkness, a luminous guiding finger — pointing toward Logan Field.

A new service for the night's air riders.

A new service by an old servant. Many are the years that "Standard" has met the needs of motor boat operators, anticipated the wants of motorists and helped the aviator find his place in the clouds. Road markers, road maps, the best in gasoline, motor oil and personal service have been part of "Standard's" contribution to the motor tourists of the roads. And now the new era brings but a newer service for the motor tourists of the sky.
