CHANGE OF SYSTEM.

Mr. John E. George, of Sudlersville, is one of the progressive men of the State. He believes it is important to break away from old methods in the tenancy system and adopt new ones. He has arrived at the conclusion, after careful consideration, that the correct method of renting a farm is for the landlord and the tenants to share equally in everything raised on the farm, including stock as well as crops. Mr. George figures, taking a $10,000 farm as a basis, that the taxes, insurance and repairs will amount to about $700, and that the cost of labor to run a $10,000farm will about equal this amount. As the landlord gives to the tenant the farm land from which to make a living, it is only fair that the cost of running the farm should be offset by the repairs, insurance and taxes on that farm. The tenant, of course, is to own the implements and is to supply the necessary implements for carrying on the farm.

All the stock is to be owned equally by the landlord and tenant and the increase from this stock is to be divided equally between the landlord and the tenant and the two are to participate equally in everything grown on the farm.

Surely this is a fair proposition and one that should appeal to the thinking man. This move of Mr. George's will be watched with a great deal of care and if it proves a success, it should be adopted by not only the landlord but by the tenant, and willingly by the latter. This method of renting of farms is not an unjust one to the tenant because the land owner gives the tenant the land on which he makes his living and on which the crops are grown that he feeds his stock with. The landlord gets nothing out of this and it is only fair that he should be given an interest in the stock, particularly when he is willing to furnish one-half of it.

J. WATERS RUSSELL, Real Estate broker, as advertised elsewhere in the KENT NEWS will sell a very desirable 10 acre property situated near Chestertown and in Queen Annes county on June 23rd. This property contains 10 acres and there are eight acres adjoining which can be bought if one wants more than 10 acres. This property is new and is a a very splendidly constructed home.

Wood's Seeds

Seed Potatoes

FOR FALL CROP.

The planting of Seed Potatoes in June and July is increasing to a wonderful extent. A great many farmers claim that they give better crops planted at this time than they do when planted in the spring. Potatoes planted in June and July mature in the cool weather of the fall, at a time when they can be harvested to best advantage.

The Seed Potatoes we offer are put in cold storage early in the season, so as to keep in first-class, vigorous condition.

"Wood's Crop Special" giving prices and full information about Late Seed Potatoes and all other Seasonable Seeds, mailed free on request.

Mrs. Sillithing—"I think Jack's mean. I was reading about a man out west who bartered his wife for a horse and I said, 'You wouldn't swap me for a horse, would you, darling?' and he said, 'Of course not, but I'd hate to have any one tempt me with a good motorcar.' Do you suppose he meant it?"

Anty Drudge—"Of course he didn't mean it, and what do you mean with your washing piled around you this way at 3 o'clock in the afternoon, a heavy boiler on the stove and your kitchen all heated up? It's plain to be seen you don't use Fels-Naptha Soap in cool or lukewarm water."

Cool or lukewarm water is the only thing Fels-Naptha Soap needs to do your work for you. It doesn't need your strength nor time; it doesn't need a hot fire, nor hard rubbing. Clothes washed with Fels-Naptha do not have to be boiled. It is the cool-way, every-day, all-kinds-of-work soap that saves you time and trouble.

Better buy it by the carton or box. Follow easy directions on the Red and Green Wrapper.

MAKES RHEUMATISM PROMPTLY DISAPPEAR

Chronic, Crippled-up Sufferers Find Relief After Few Doses of New Remedy are Taken

It is needless to suffer any longer with rheumatism, and be all crippled up, and bent out of shape with its heart-wrenching pains, when you can surely avoid it.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood, the poisonous waste matter and uric acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery and can't possibly cure you.

The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, does this because it neutralizes and dissolves all the poisonous substances and uric acid that lodge in the joints and muscles, so scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped-up, inactive kidneys, so they can filter all the poisons from the blood and drive it on and out of the system.

Croxone is the most wonderful medicine ever made for curing chronic rheumatism, kidney troubles, and bladder disorders. You will find it different from all other remedies. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it into the human system without results. You will find relief from the first few doses, and you will be surprised how quickly all your misery and suffering will end.

An original package of Croxone costs but a trifle at any first-class drug store. All druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is often all that is ever needed to cure the worst backache or overcome urinary disorders.
