SATURDAY, OCTOBER 3, 1914.

PEACE.

O Father, from the curse of war
We pray Thee give release,
And speed, O speed the blessed day
Of justice, love and peace.

THE loss of 3,000 men is "worth" three lines in press dispatches of today from Europe, and apparently the incident is no more to a ruler than the loss of a game of checkers in times of peace.

ONLY two more days for registration this fall—Tuesday and Wednesday, October 6 and 7. If you have not already registered and do not take advantage of one of the two remaining days, you can neither vote this fall nor at the primary election next year.

PRESIDENT WILSON has appointed Sunday, Oct. 4th, a national day of prayer for peace in Europe and in many churches in Kent the day will be recognized as "Peace Sunday." His proclamation was published in full in the NEWS a few weeks ago. It is beautiful in sentiment, ornate in language and christian in motive. Let all the people attend church on this day and thus join in this earnest desire for peace.

WHY WAR CONTINUES.

Many people are asking the question now, "Why is war tolerated in this day?" The answer is simple enough. We have war because nations will not submit all difficulties that arise between them to an international court of arbitral justice. Why will they not do this? Because the world still believes that the law of nations should supersede the moral law. Christianity, which these warring countries pretend to profess, is founded on the proposition that God is love, and that through love mankind should live in unity and peace upon this earth. This is not an unpractical religious theory, but a base principle of life, tested by the fire of time. Yet these same "enlightened" nations, who hold that murder, stealing and vandalism are unlawful in time of peace, look upon these things as legitimate when war is declared. Christ never taught a double standard of morals.

If an individual in one of these military empires shot his neighbor, would the State allow the respective families of the two involved to fight it out? No, they would have to go to court and have it settled by law. Yet nations, when serious disputes rise between them they go to war and line up to demolish each other with all the deadly instruments they can use.

As long as the world believes that the law of nations should be placed before the great moral law which individuals dare not transgress we will have war; civilization will suffer and Christianity will be weakened. If, as an outcome of this present war, the kingdoms of the earth agree to establish a great arbitral justice, to which all differences between them must be submitted, humanity will gain something from this awful conflict.

PLAN FOR WORLD PEACE.

Hamilton Holt, editor of the Independent, who delighted an audience at Washington College two years ago, presents an argument for universal peace. He writes:

"In his famous essay, 'Perpetual Peace,' published in 1795, Emmanuel Kant declared that we never can have universal peace until the world is politically organized, and it will never be possible to organize the world politically until the people, not the kings, rule.

"A careful study of the formation of the 13 American colonies from separate States into our present compact Union discloses the fact that the nations today are in the same stage of development that the American colonies were about the time of their first confederation.

"Let the League of Peace be formed on the following five principles:

"First—The nations of the league shall mutually agree to respect the territory and sovereignty of each other.

"Second—All questions that cannot be settled by diplomacy shall be arbitrated.

"Third—The nations of the league shall provide a periodical assembly to make all rules to become law unless vetoed by a nation within a stated period.

"Fourth—The nations shall disarm to the point where the combined forces of the league shall be a certain per cent. higher than those of the most heavily armed nation or alliance outside the league. Detailed rules for this pro rata disarmament shall be formulated by the assembly.

"Fifth—Any member of the league shall have the right to withdraw on due notice, or may be expelled by the unanimous vote of the others."

Mr. Holt concludes with this statement: "It would seem to be the manifest destiny of the United States to lead in the establishment of such a league. When the great war is over and the United States is called upon to lead the nations in reconstructing a new order of civilization, why might not Woodrow Wilson do on a world scale something similar to what George Washington did on a continental scale?"

THE foot-ball season for Washington College begins today when Coach Tom Kibler will journey to Haverford College with Washington's foot-ball squad to play Haverford.

MINISTER OF FINANCE P. Bark of Russia Wednesday received an order to the effect that the prohibition of the sale of vodka shall be continued indefinitely after the end of the war. This order is based on the tremendously improved condition of the country since the Emperor issued the edict prohibiting traffic in this liquor. Visitors arriving from Southern Russia say there is such a change in that region that the country is hardly recognizable. Peasants who before the war had fallen into hopeless indolence and depravity already have emerged into self-respecting citizens

CONTINUED CONFERENCES among the Democrats in both houses give strong indication of the success of the plan for adjournment of Congress by the middle of October. Nearly all majority members of the House, except a few headed by Representative Henry, of Texas, are aligned with the movement undertaken by Democratic Leader Underwood, with the approval of President Wilson, to put off the administration ship purchase bill until after the November elections. The proposal is that the House shall begin recessing three days at a time next week, so most of its members may go to their home districts immediately and that Congress shall adjourn about October 15. The shipping bill would be taken up as soon as Congress reconvenes, either at the regular session in December, or at a special session called for the purpose in November.

4,500 HORSES ORDERED

St. Louis, September 30.—An order for 4,500 cavalry horses and mules was placed with local dealers today by representatives of the French government. This order, which is to be filled within ten days, will cost France approximately $750,000.

Eight representatives of the French government have declared they were authorized to buy 100,000 horses at an expenditure of about $12,000,000.

RUSSIANS TAKE CATTLE

London, September 30.—A dispatch from Petrograd says that among the remarkable war trophies arriving at Smoleask is the entire stock of Emperor William's famous pedigree cattle and stud horses captured by the Russians from the Emperor's estate at Rominton in East Prussia. They were taken to Moscow and presented to the Russian Agricultural Institute for distribution to agricultural breeding asociations.

ONLY two more days for registration this fall—Tuesday and Wednesday, October 6 and 7. If you have not already registered and do not take advantage of one of the two remaining days, you can neither vote this fall nor at the primary election next year.

An Extra Dollar or Two From Each Acre of Wheat

Many Farmers say that Swift's Fertilizers produce 1 to 3 bushels more wheat per acre than any other brand,

Even one bushel more makes Swift's Fertilizers worth $8.00 per ton more to the farmer than another brand.

Here is the way it figures out:

200 lbs. Swift's Fertilizer per acre, Extra Yield 1 bushel . . . $ .80
2000 lbs. Swift's Fertilizers on 10 acres, Extra Yield 10 bus. . $8.00
