The Schauber CORN CUTTER

Takes but one man and one horse to operate and cuts 8 to 8½ acres per day.

GUARANTEE:

Taking all into consideration, viz.: Ease of operation, light draft, depositing corn in a straight pile, not knocking off the ears, strength and durability, cost of operating, being able to go anywhere in the field without having to cut first row or turn row, gathering up down corn, and the promptness and excellency of its work, we guarantee this machine to be the best on the market. A trial will convince. Over 2,000 in actual use and giving satisfaction.

Leap's Prolific Wheat.

Most Prolific and Best of Milling Wheats

A report on this wheat from **Delaware** shows a yield of 3,430 bushels on 74 acres, and 881 bushels on 17 acres.

In **Maryland** it leads in popularity; has proven its superiority in all parts of **Virginia**; is the most popular variety in **North Carolina**; heads the list in **South Carolina** for profitable yields; in **Georgia** ranks far above all others; **Tennessee** growers discarding other wheats for this; at the head of beardless wheats in **Kentucky**, and equally well suited to **West Virginia**.

Therefore we are justified in recommending Leap's Prolific Wheat for all sections.

We are the original distributors of Leap's Prolific Wheat. Write for **DESCRIPTIVE FALL CATALOG.**

NEGRO FOUND DEAD

Escapes From Officers Night of Wild West Show—Body Found Near Town by Small Boys.

Three small boys while gunning in Mr. H. Clay Lusby's woods opposite Mr. Walter Wright's home, Chestertown, came upon the body of a dead negro. They returned to town and notified Officer Cooper, who, with Andrew Lavinus, went to the scene and identified the negro as Andrew Johnson, son of Essex Johnson, of Broad Neck. Coroner F. W. Smith was notified, who with State's Attorney Vickers, conducted an investigation.

Johnson, with two other negroes, were suspicioned of crap shooting by Officer Jester and Deputy Perkins Tuesday, the day of the Wild West show, the latter being arrested, the former escaping across the marsh. His body was found with his arm thrown across a tree that was hanging near the water.

A colored witness testified that as the negro ran, Constable Jester fired, the negro exclaiming that he was shot, but investigation of the body failed to substantiate this testimony.

The jury consisting of Messrs. William McKee, Albert Rawleigh, Waiter Bennett, J. S. Vandegrift, Frank Greenwood, Clifton Jarrell, P. M. Brooks, Arthur Bacon, J. C. Loud, A. L. Sparks, Vernon Barnett and Polk T. Bramble gave a verdict that the man came to his death by drowning.

ALFALFA
The Profitable Hay Crop

Yields Four to Six Cuttings a Year of Easily Cured and Most Nutritious Hay Wonderful Increases in Yield Each Successive Year.

ALFALFA "GOLD" BRAND

"Its long, branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense magazine of fertility. As soon as cut, they begin to decay and liberate the vast reservoir of fertilizing matter below the plow, to be drawn upon by other crops for years to come."

Alfalfa seed sown during August or September will yield four to six cuttings next season. Frequent cuttings thicken out the stalk and makes it stool out and grow off better.

Alfalfa ranks higher than Timothy in feeding value. In fact, it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfalfa hay at $20 per ton, as against Timothy hay at $12 per ton. This, with the fact that Alfalfa will easily yield, on good land, 6 to 16 tons of splendid hay pear year, shows what a valuable crop it is. Lands in the Western States that are well set in Alfalfa sell readily at from $100 to $200 per acre. The acreage of Alfalfa is increasing very largely all over the Middle and Southern States; our farmers are fast beginning to realize what a valuable crop it is. Alfalfa will succeed and do well on any good loamy, well-drained soil, but the land must be well and thoroughly prepared for best results.

It should never be used for pasture; it is too valuable as a hay producer to risk injury from stock. A heavy application of lime is of decided benefit—2,000 to 5,000 pounds per acre. Alfalfa is usually sown broadcast at the rate of 20 to 30 pounds to the acre. Our Alfalfa seed is the highest grade, strong germinating seed of the best and cleanest quality possible to procure.

We offer American Dry Land Non-Irrigated Alfalfa Seed, Bolgiano's "Gold" Brand Fancy, 99.78 per cent. pure.

If you want the best field seeds of any kind, always insist on getting Bolgiano's "Gold" Brand Standard Clovers and Grasses, Cow Peas, Winter Vetch, Timothy Seed, Red Clover, Crimson Clover, Alsyke, Red Top or Herds Grass, Orchard Grass, Winter Oats, Tall Mead Oats Grass, Millet, Permanent Pasture Mixture, Dwarf Essex Rape, all varieties of Turnip Seed, including Cow Horn, Southern Seven Top, Yellow Globe, etc.; Cabbage, Kale, Spinach, Winter Radish. If your local merchant does not sell Bolgiano's Big Crop Seeds, drop us a postal and we will tell you where you can get them.
