CAPT. C. E. DAVIS DEAD

Captain Charles E. Davis, age 81 years, died at the home of his daughter and son-in-law, Mr. and Mrs. Willard E. Dodson, near Worton, on Thursday of this week, February 2nd.

With the exception of the past five years, he spent his entire life in the vicinity of Rock Hall where he was engaged in fishing, oystering and boating. For twenty years he conducted a coal yard at Rock Hall and for the past five years he has made his home with Mr. and Mrs. Dodson near Worton.

He is survived by three sons and one daughter, Messrs. Charles H. and Joseph B. Davis, of Rock Hall, Mr. E. Walter Davis, of Baltimore, and Mrs. Margaret Dodson, of Worton.

Funeral services will be held on Sunday at 1 p. m. at Rock Hall M. E. Church, interment to be made in Wesley Chapel cemetery.

The bearers will be Messrs. B. Trew Durding, Robert Shallcross, William Leary, John R. Dowling, Charles Porter and Clarence Hersch. B. R. Fellows, undertaker.

AMBULANCE OPERATION

In a recently published article, pointing out the activities of the Kent County Chamber of Commerce during the past year, the operation of the Kent County Maryland Ambulance was credited to that organization.

This was an error, as the Chestertown Volunteer Fire Company houses and operates the ambulance and all drivers are active firemen of that organization.

THE SCHOOL TAX

DESCRIBES EQUALIZATION FUND

The following article, which was contributed, explains what is being done at Annapolis about the levies of the counties for school purposes. An explanation of the equalization fund is also contained in the article:

The Governor's Program For State Aid For Schools

Ten per cent (10%) reduction in salaries of public school teachers and officials which will reduce the county school tax rate in counties sharing the Equalization Fund from 67 cents to 40 cents per $100.

State commodity taxes or special sales taxes to provide $4,500,000 annually, one-half to go to Baltimore city to pay off a twelve million dollar bond issue for relief needs and the other half or $2,250,000 to be distributed among the twenty-three counties of the State to reduce the county school tax. That additional amount of State school aid distributed among the 23 counties would make it possible for those counties participating in the Equalization Fund to maintain their schools on the basis of the State minimum program on a school tax rate of thirty cents (30c) per $100.

This would enable Kent County to reduce its school tax rate thirty-seven (37c) per $100. This expressed in dollars on the basis of the present assessment of approximately $16,000,000 would mean a saving of $59,200 to Kent County real estate and personal property owners. In other words, assuming that there will not be much change in the assessable basis before next June, the county appropriation for schools in Kent for the school fiscal year beginning August 1, 1933, would be $50,000 or less as compared with the appropriation for the current year, $108,243.

School Equalization Fund

While those familiar with school affairs in the county are familiar with just what the State School Equalization Fund means, yet the average citizen has only a general idea of it.

Under the present system the State pays two thirds of the salary of the Superintendant of Schools of Kent county and all of the salaries of the Truant Officer and Colored Supervisors. This is independant of the equalization fund. Independant of the above salaries the School Law states that if the counties adopt the State School Standard of Education and levies 67 cents of the assessable value of the county toward the cost of same, the State will pay the deficit if there is one. Last year the expenses of Kent Schools was approximately $164,000. The 67-cent school tax returned a revenue and the State made up the approximate difference of $56,000.

The colored high school pupils who travel in the school bus pay $20 a year for this transportation and the remainder of the cost is paid by the State out of the equalization fund.

At the present time there are 15 counties in the State who share in the equalization fund and are known as the poorer counties in the State. The remaining 8 counties do not share in this fund as the assessed vlauation is sufficiently high that the 67c school tax covers the entire cost of the schools.

Under the present system Kent county pays approximately two-thirds of its school costs. Under the proposed Legislation Kent County will pay approximately one-third of its school costs.
