The above named ticket represents those men and women who have been selected through a compromise of the two recognized factions of the Democratic Party, which compromise was effected in order to avert a local Democratic primary in Kent County for the purpose of economy and bringing about a harmonious Democratic victory in November. In selecting the ticket the various offices were divided so as to have every District in the County represented and care was taken to select men and women who will ably represent their districts and the County as a whole.

It is of vital interest to the tax payers of the County that the entire ticket named above, both State and County be nominated September 12th and elected in November because, First, harmonious State and County officials lead to efficient and economical management; Second because they are the selection of the only two recognized Democratic factions in Kent County; Third because the tax rate of this county is directly dependant upon the whole hearted cooperation of State officials. In reference to the third reason in 1933 the tax rate of Kent county was reduced from $1.48 to 93 cents, and while economical and efficient management on the part of our present Board of County Commissioners played a prominent part in this reduction, yet the bulk of it was caused by sympathetic laws of the Maryland Legislature and regulations adopted by the various State departments under Governor Ritchie. Through these laws and regulations in which the Kent Legislators and Governor Ritchie played a prominent part, Kent County's entire road burden meaning maintenance and construction of our road system and the payment of the bonds due on our million dollar bond issue together with the interest has been assumed by the State for the past two years. More of the cost of the county's educational system was also assumed by the State during the past two years. We know these facts and appreciate them; they cannot be denied, but with a change of administration we do not know but that this burden might be thrown back on Kent County which would mean a possible tax increase of 45 cents in the 1935 tax rate. None of the opposing candidates have adopted a platform that states their position on these points of Legislation. Furthermore from every possible indication Governor Ritchie will be re-elected and if Kent county is to continue to receive these benefits it is to the interest of every tax payer to see that he is given a substantial majority from this county. This same reasoning applies to the entire county ticket. The county compromise ticket has endorsed the State ticket which will mean cooperation between the State and every department of the county, assuring tax relief and influence toward securing legislation that is of advantage to the people of Kent county. Very little can be gained toward securing desired legislation, whether it be fish, oysters and game, school or road laws unless there is cooperation and influence between Kent County officials and the State Legislature and the State Administration.

These are facts and, regardless of any sentimental prejudices, should be given very careful consideration before going to the polls in September and November.

INTOLERANCE

Sacred history informs us, that the Jewish public were not greatly astonished when the rather disreputable King Saul, suddenly assumed the character of a cynic. With similar attitude the good people of these rural parts, have not at all been greatly astonished at the suddenly Cynical trend of one of our local Chestertown newspapers as displayed, in its 'Purely Persoal Piffle' column of a recent issue. I am refering to the unwarranted attack made upon the probity of the Rev. L. E. Haddaway, pastor of the Methodist Protestant Church of Kennedyville. The article which appeared in last week's issue of the Kent News was indeed a poor piece of grape vine news gathering and the fact that the writer admitted that his story was second hand information, tempered the purpose of its psycological effect, if any, which it might have had, upon an otherwise peaceful community. The writer would have us believe, that Reverend Haddaway was a man who would use his pulpit as an auction block to expound tirade speeches and secret warnings of the encroachment of the Roman heirarchy, together, with the 'rakings and scrapings' of our political melting pot, that so frequently represent the good people of this State at Annapolis, all of which, coming from a newspaper man, who depends upon second hand information is indeed a tremendous strain on our credulity and surely of no vital interest as news. Anyone attending the church festival last Wednesday night, at the Kennedyville schoolhouse and who heard Rev. Haddaway speak, did not feel ill at ease at any remarks he made nor did they feel that he was mixing religion and politics when he invited one of his boyhood frieds, who incidently happened to be a candidate for public office and one of the speakers of the evening. No one who heard Rev. Haddaway could accuse him of taking the proverbial Red Tanteran from the ditch, by referring to the Pope, as encrouching upon American politics, while one of the evenings speakers was of a similar religious faith. Those of us who know the Reverend L. E. Haddaway personally, know that he is a little more broad-minded in his views and that he possesses a better then average viewpoint on religious intolerance to suppose that he would offend any of the non-sectarian audience who had occassion to hear him speak. Reverend Haddaway, being a gifted orater ad like many other brothers of the cloth, who are unjusty criticised for their liberal views and opinions, still can maintain their constitutional rights as American citizens to express public matters if they choose to do so and it is to be hoped that in justice to Reverend Haddaway and in the interest of public opinion that the writer of 'personal piffle' will show sufficient intestinal fortitude to apoligize for his second story ramblings.

JAMES F. EVANS

James F. Evans' forces for the Chief Judgeship of the Second Judicial Circuit which includes Cecil, Kent, Queen Anne's, Caroline and Talbot counties are mobilizing in each county for a concerted drive for that position which will be vacated by Judge Adkins, of Easton, due to retirement.

Sentiment in the counties is crystalizing on the fact Cecil County needs and is entitled to a Judge at this time. Cecil is the largest county on the Shore with a population of over 30,000 people, with considerable business, and an assessment basis of about $40,000,000. The activity of the Cecil Court indicates that its business almost equals the business of the other four Courts.

Cecil County being the Northernmost county of the Circuit at the present set up, places that county about 50 miles away from the nearest Judge which hampers the sped of justice at the expense of the taxpayers and those interested.

The estimate of those who know Mr. Evans is that his qualifications go further than the mere constitutional requirements. That he is a man of high character, with a mental acumen and learning in law, is the stamp and estimate placed on him by those who have come in daily contact with him. Mr. Evans has utmost patience and the judicial temperment and together with his broad knowledge of men and things marks him as the most acceptable candidate and successor of Judge Adkins.
