DUCKING DAYS ARE BACK

The return to fashion of the cartwheel hat is reminding many an oldtimer of the story about the irate lady on the trolley, who turned indignantly to a male passenger and said:

'Sir, your glass eye has broken my hat pin.'

DRESS AND COAT SCHOOLS NEXT WEEK

WILL BE HELD AT CHESTERTOWN AND KENNEDYVILLE

A 'Better' Dress School will be held in Chestertown, at Court House, on March 5th and 7th, beginning at 9.30 a. m. Miss Helen Shelby, State Clothing Specialist of the University of Maryland, will have charge of the schools.

Any one familiar with sewing is invited to attend. The dresses are to be for grown-ups. Each person will bring her own material and pattern. Be sure you have the right size pattern. If you are using wool material, be sure it has been shrunk. If you are planning to attend it would be well to get in touch with Miss Schellinger, Home Demonstration Agent, to save time for yourself.

The plan of the School is to work under the supervision of Miss Shelby on March 5th; do what is possible at home on March 6th, and return to finish garment on March 7th.

A Coat School is scheduled for March 6th and 8th at Mrs. Judson White's at Cross Roads in Kennedyvile at 9.30 a. m. The same plan is followed in conducting this school working under the supervision of Miss Shelby on March 6th working at home March 7th and finishing coat March 8th. Anyone making a coat must be familiar with clothing construction.

Be sure your material has been shrunk and that you have right size pattern. Ap lain pattern will often be in good style for a number of years, whereas fads are not before the season ends. It will help you a great deal and perhaps save embarrassment if you will get in touch with Miss Schellinger before attending.

SQUADRON LOG

BY THE STOWAWAY

There is something unholy about the glee one feels in another's misfortune. So it was early this week whe na telephone call from Philadelphia told of a sleet and snow storm.

Here in Chestertown the sun was shining and the southern breezes were living up to the reputation given to them by the poets. Spring was in the air. It was a real thrill, when the conversation started with, 'I suppose you are snowed in this morning,' to be able to say, 'No, indeed. It is a real spring day.'

But pride and that glorious feeling of superiority froze next evening when sleet and snow struck Kent County.

The taste of spring in the air began on Sunday and struck the Squadron with all its might.

Early in the afternoon, the treck to the Yacht Club basin began. Ice which had formed in the bilge of the boats had thawed and a wholesale pumping out of boats got under way.

Admirers and friends of the Squadron also infused with the tinge of promptly were enrolled to help in the pumping, although to a casual observer the part they were called upon to fill might not appear to be related to the spring activities of the Squadron.

In fact, the visitors were invited aboard one boat after another to act as ballast. Sometimes they were instructed to huddle in the stern, so that the stern would be depressed and cause the water in the bilge to settle within reach of the pumps. On other craft, a sidewise tilt was desired.

In these days of athletic slimness avoirdupois, for once, was appreciated. A man could not weigh too much to please the boat owners struggling to pump out their boats.

The pet days which started off the week, demonstrated forcibly the superiority of boating as a sport over golf. When snow and ice prevail both boating and golf are out of the question. When thaw sets in, there is always something for the boatmen to do, but the golfer has to wait, or sink ankle deep in the thawing fairway.

It is a pity, too, that this is so, for it is very lovely around the Yacht Club Lake these early warm days. Even the birds are fooled into thinking spring is at hand. Redwings and a robin sang all day and kingfishers were busy fishing in the spots of open water.

'Now, boys,' said the teacher, 'tell me the signs of the zodiac. You first, Thomas.'

'Taurus, the Bull.'

'Right! Now, you, Harold, another one.'

'Cancer, the Crab.'

'Right again. And now it's your turn, Albert.'

The boy looked puzzled, hesitated a moment and then blurted out: 'Mickey, the Mouse.'

Low Cost Power the Whole Year 'Round

on Drawbar, Belt and Power Take-Off. Thre e"Farmall" sizes, Farmall 12, Farmall 20, Farmall 30, each of them ready to plow, plant and cultivate, to run belt machines, and to handle all row crop and general purpose power work. Ask us for catalogue and prices.
