Miss Diane Dickerson...

Daughter of Mr. and Mrs. Earl B. Dickerson of Chicago, Illinois, prepares to enter exclusive Mills College, Oakland, California.

Theory, Practice and Result

● THIS IS THE THEORY that has guided the lives of Mr. Earl B. Dickerson and the other officers of the Supreme Liberty Life Insurance Company—that insurance is the key to thrift and economy. They have carried this message to groups and gatherings of all kinds, on all occasions.

THIS IS WHAT HAPPENED IN ACTUAL PRACTICE. Mr. Dickerson backed up his belief in the value of insurance seventeen years ago, when he and Mrs. Dickerson took out an educational endowment policy with Supreme Liberty Life Insurance Company for his daughter, Diane—to mature when she became 18.

THIS WAS THE RESULT. On May 28, 1952, this educational policy matured. Immediately, a check for $1,000.00 was given to Miss Dickerson. This fall Miss Dickerson will enter the famous Mills College in Oakland, California. The foresight of her parents has borne fruit.

Truly, this is an example of THEORY, PRACTICE AND RESULT.

The building and modernization program is estimated to cost $1,200,000. Plans call for a new six-story wing, remodeling of the remaining original structure, and the newest medical equipment.
