Decorating idea

NEW YORK (UPI) — Shade cloth vertical blinds that run from wall to wall work equally well for the old-fashioned window wall and the contemporary one, say interior designers.

For the old-fashioned wall, they will camouflage the fact that the windows are dated or off center; hide poor plaster, and even take the window air conditioner in decorative stride. Since the vanes rotate 180 degrees, they do not interfere with air flow from out of doors, the air conditioner of the radiator.
