Hochschild Kohn & Company

Howard and Lexington Streets

Baltimore

THE STORE THAT GETS THE NEW STYLES FIRST

When you come to Baltimore to shop—as you probably do at intervals during the year—you will naturally feel safest in the store whose stocks are always fresh.

It is a matter of pride with us—and a matter of principle as well—not to allow old-style or shopworn merchandise to accumulate.

Periodically, we hold special sales in which this merchandise is disposed of at ridiculously low prices. We would rather give it away than permit it to remain in stock.

As a result, whatever is shown to you as new at Hochschild, Kohn & Co's is new.

The woman who does not keep in close touch with the styles can buy here with perfect safety—and our people will be glad to give helpful advice and assistance to anyone who is in doubt as to what to choose.

Hochschild, Kohn & Co.

Baltimore, Md.

STREETT—WESTCOTT

Miss Ferebe Guion Westcott, daughter of the late Mr. and Mrs. Charles Tilden Westcott, of Baltimore, and Dr. David Corbin Streett, son of the late Dr. David Streett and Mrs. Streett, of 712 Park avenue, were married on Wednesday, at noon, at the home of the bride's brother-in-law and sister, Mr. and Mrs. Raymond S. Williams, in Guilford. The ceremony was performed by the Rev. Thomas Atkinson, canon of the Pro-Cathedral, in the presence of members of the two families only. The bride who was given in marriage by her brother, Capt. Charles Tilden Westcott, United States Marine Corps, was gowned in a costume of white satin combined with tulle. Her veil of tulle was arranged in cap fashion with orange blossoms, and she carried a bouquet of Bride roses and lilies of the valley. Mr. Calvert B. Gill was Dr. Streett's best man. After a wedding journey, Dr. and Mrs. Streett will live at 712 Park avenue, the home of Dr. Streett's mother. The bride is one of the several attrative sisters, the others being Mrs Wilson, of Washington, wife of Lieut. Russell Wilson, United States Navy, and Mrs. Williams. Dr. Streett is a member of the Johns Hopkins Hospital staff. Mr. John G. Westcott, of this county, is a brother of the bride.

MARYLAND STATE HORTICULTURAL SCCIETY

The summer meeting of the Maryland State Horticultural Society will be held at Hancock, Md., August 29-30.

This will afford a splendid opportunity for the members from all parts of the State to see the great progress and development of the fruit industry of that section of Washington county. Within a radius of a few miles around Hancock there are growing about 300,000 fruit trees, both peach and apple, the majority of which are bearing. The principal object of the summer meetings is to permit the members to not only acquaint themselves with the great development of the horticultural industry in various parts of Maryland, but also to study methods practiced by the growers in the culture of trees and handling of the fruit.

The members of the Society, and all others interested in the industry, are invited to assemble in Hancock on the evening of August 29th. A meeting will be held in the town hall, which will be addressed by prominent speakers. On Wednesday, August 30th, at 9 a. m., the visitors will be conducted through the orchards of the vicinity in automobiles, as guests of the citizens and fruit growers of Hancock.

Dinner will be served at 1 p. m., and this will be followed by a general meeting, extending from 2 to 4 p. m. It is hoped to have a demonstration of packing apples and explanation of the new Maryland Apple Grading and Packing Law that went into effect July 1, 1916

A most helpful and pleasant outing is promised all who attend. The committee of citizens and growers of Hancock extend a cordial invitation to all. Hancock will celebrate its Home-Coming Week during that time and great preparations are being made to accommodate the visitors.

Hancock is located upon the Old National Pike, is near Berkeley Springs; the Potomac river and canal pass by the town. Four garages will be available for accommodation of machines.

It is hoped that all fruit growers and others interested will plan to attend this summer meeting of the society. Complete program will be issued shortly.

For further information regarding the meeting, write Secretary T. B. Symons, College Pork, Md.

Special arrangements are in progress for the annual meeting and exhibition of the Horticultural Society, which will be held in the Fifth Regiment Armory, Baltimore, "Maryland Week," November 14-18, 1916.

WEATHER FOR AUGUST

Rev. Irl R. Hicks Makes the Following Forecasts for the Month.

A regular storm period is central on the 1st, extending from July 30th to August the 4th. This Vulcan period is reinforced by the Venus disturbance, near its center, and the Moon passes over the celestial equator on the 2nd, passing to south declination August will come in with general indications of coming storms over central to eastern parts of the country. In western parts the barometer will be low, and threatening clouds, rain, wind and thunder will already be organized and starting on their eastward sweep across the country.

A reactionary storm period is central on the 6th, 7th and 8th. The Moon is at first quarter and at its extreme south point. The opposition of the planet Uranus on the 10th will also extend its disturbing power over this period. The barometer will naturally fall—beginning in the west and passing eastward across the country—on and touching the 6th, 7th and 8th. This falling barometer will be the forerunner of higher temperature, cloudiness and a return of decided rain, wind and thunder storms.

A regular storm period is central on the 12th, embracing Thursday, the 10th, to Tuesday, the 15th. Disturbing causes and things to expect. The Vulcan, Mercury and Venus influences, with probably the oncoming autumnal equinox of Earth all "lock horns" at this period. The Moon is in perigee on the 12th, is in opposition with Sun and Earth on the 13th, and most important of all, is on the celestial equator, coming up from south declination on the 15th. All these astronomic causes combine to make this period an opportunity for a conflict between the perturbing and opposing "storm gods."

A reactionary storm period is central on the 19th, 17th and 19th. Conditions are such that very threatening storms should be no surprise to any of our readers on and about Thursday, the 17th to Sunday the 20th.

A regular storm period is central on the 24th, holding under its influence Tuesday, the 22nd, to Sunday, the 27th. The warring forces of Mercury and Venus, and the increasing force of Earth's autumnal equinox, with the Moon at extreme north on the 22nd, and in apogee on the 24th, all conspire in the disturbances of this period. The conjunction of tha Moon with Saturn on the 24th, and with Neptune on the 25th, will also be possible factors in these disturbances.

A reactionary storm period is central on the last four days of August. The Moon is in conjunction with the Sun and Earth on the 28th, and on the celestial equator on the 29th. Disturbances of the preceding storm period may last into this period; at any rate, storms of renewed and quickened activity will return on and about the 28th and 29th.
