When Johnny Comes Comes Marching Home At New Lyceum

Stardom, coveted goal of all motion picture players, has been attained by three of Universal's most promising 'teenagers—Gloria Jean, Peggy Ryan and Donald O'Connor.

All three have stellar billing in "When Johnny Comes Marching Home," timely romantic musical film which will come to the New Lyceum next Thursday, Friday and Saturday.

Other stars of the picture include Allan Jones, Jane Frazee, the Four Step Brothers and Phil Spitalny and his Hour of Charm All Girl Orchestra.

With the three youngsters reaching the top rung, the Universal production becomes a multi-star feature, for Spitalny himself is a top-rankink figure in show business.

Gloria Jean, a native of Buffalo, N. Y., and resident of Scranton, Pa., in early childhood, made her movie debut at 12 in Universal's "The Under-Pup." Other pictures in which she appeared include "If I Had My Way," "A Little Bit of Heaven," "What's Cookin'," "Get Hep to Love" and "It Comes Up Love."

Peggy Ryan was born in Long Beach, Calif., but lived mostly in San Diego, Where she attended school. Her career as a dancer started at the age of three. At 10 she had a role in Universal's "Top of the Town."

Donald O'Connor, a native of Chicago, comes from an old theatrical family. He made his debut on the screen at 13, in Bing Crosby's "Sing You Sinners."

"When Johnny Comes Marching Home" was directed by Charles Lamont. Bernard W. Burton officiated as associate producer.

Bill Boyd as Hopalong Cassidy in "Hoppy Serves A Writ," will also be shown these three nights as the other half of a big Double Feature Show.

OLD TELEPHONE BOOKS AID NATIONAL OFFENSE

Pages torn from old telephone books purchased by the Wright Aeronautical Corporation, Paterson, N. J.,

play an important role in the casting of magnesium super-charger housings and aluminum cylinder heads for Wright Whirlwind and Cyclone aircraft engines. A Wright craftsman is shown above placing the pages over openings in a mould to keep dirt out. When the molten metal is poured into the mould the intense heat burns the thin paper away instantly and without residue, leaving the casting free from foreign matter.
