An Army 2,000,000 Strong

And every one guarding a home — that's the Perfection Heater army. For real preparedness against sudden changes in the weather, get a *Perfection*.

It travels light — you can carry it anywhere. It's clean, good-looking, and durable. Costs little to buy and little to use — the cheapest form of comfort insurance. On the firing line in 2,000,000 homes. Ask any good hardware dealer, furniture or department store.

Use Aladdin Security Oil—for best results.

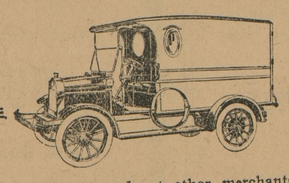
F. O. B. Phila.



Mr. Watson, like thousands of other merchants, is saving moremoney by using a VIM. He writes in part as follows:

"Gentlemen:—I formerly employed a number of horses and wagons, but I am now making my deliveries with one VIM Truck. I should say it will easily do the work of two horse and wagon outfits, and costs about the same as one horse and wagon."
THOMAS WATSON, 324 N. 13th Street.

Mr. Watson is covering more territory, making more sales, developing more new business because he has a VIM.

He has a graceful, "classy" car that is advertising his business.

He has a sturdy, durable, economical car that stands hard work.

And besides he is saving real money. **You can do the same.**

ROAN HAL BRINGS $3,100

Roan Hal, the champion pacing gelding of 1916, brought only $3,100 when sold at auction at the Old Glory horse sale in New York Saturday. This great pacer went to H. T. Grady, of Philadelphia. He is a gelding, nine years old, by Hal de Facto, dam Maud C., both of which had a record of 2 00¼. His best mark was 2.00¾.

Mr. John Mallalieu sold his mare, "Miss Cader" to Mr. Van Loom, of Pennsylvania, Saturday.

Hicks' Forecasts For December

A regular storm period is central on the 5th, extending from the 2nd to the 7th. Owing to the imminence of the Venus period, and the Moon's first quarter, and passage over the celestial equator on the 1st and 2nd, we may expect the preceding reactionary period to hold over into the regular period, hence there will be threatening conditions, with more or less storminess, as December comes in. On and touching the 2nd, expect a decided fall of the barometer, a marked increase of temperature, with south winds, cloudiness and rain, wind and thunder, especially toward the south.

A reactionary storm period is central from the 9th to the 12th. The Moon is in opposition with Earth and Sun on the 9th, being at extreme north declination on the same day. The Moon is also in conjunction with the planet Jupiter on the 5th, and with the planet Saturn on the 12th. As early as the 9th, marked indications of brewing weather changes and storms will be apparent in sections to the westward. The barometer will begin falling, warmer weather will come on, cloudiness will overcast, and rain will set in to westward. During Sunday, Monday and Tuesday, the 10th, 11th and 12th, these changes will push their way eastward across the country followed all the way very promptly by winter rain, turning in due order to sleet and snow, with the regular wind up of rising barometer and change to fair and much colder weather.

A regular storm period is central on the 17th, extending from the 15th to the 20th. The Moon is at its last quarter and on the celestial equator on the 17th. The elements of Earth, air and skies will be in the grip of winter solstice perturbations, while the Venus influence still remains in strong force. Falling barometer will begin to prepare the way for storms in the west as early as the 15th and 16th. By the 17th these storms will be organized and starting on their way eastward, with possibly lightning and thunder accompanying the rain and wind. Rain will soon turn to snow and sleet behind and around the western flanks of the storm centres, and during Sunday, Monday and Tuesday, the 17th, 18th and 19th, this order of things will take up the procession eastward, touching all parts of the country with rain, sleet and snow, followed by rising barometer, high gales from the northward and rapid change to very cold.

A reactionary storm period is central on the 22nd to 25th. This period finds the Moon at its greatest south declination on the 23rd, in conjunction with Earth and Sun, at an eclipse node, on the 24th, and in perigee on the 25th. The Venus influence will not have entirely subsided, winter solstice will be in full force, and a Mercury disturbance will be at its center. The conjunction of the Moon with Venus on the 22nd, and the close conjunction of Mercury and Mars on the 21st, will all conspire to make this period one of violent to dangerous probabilities.

A regular storm period is central on the 28th, extending from the 26th to 31. The December solstice, the Mercury equinox, the "Vulcan" disturbance with the Moon on the celestial equator on the 29th, and at first quarter on the 31st, will all combine to render this, perhaps, the most severe period thus far into the winter. Indeed, the last ten days of December promises a spell of prolonged wintry weather out of the ordinary. On and touching the 29th, rain storms, attended by probable lightning and thunder southward, will turn to general sleet and this in turn will be followed by a genuine and far-reaching blizzard. As December merges into January, 1917, it will be safe to assume that general and very severe cold will prevail.

Children Cry
FOR FLETCHER'S
CASTORIA

Children pull at the heart strings and their slightest illness means anxiety.

For nearly a half century mothers have had Dr. King's New Discovery at hand for croup, congestion, coughs, colds and grippe.

The mildly laxative ingredients expel the cold germs, the choking phlegm is raised, the congested chest is relieved, the cough loosened and a serious illness is averted.

Get a bottle of Dr. King's New Discovery at your druggist to-day.

The old tunes for the old folks

While the old folks enjoy the latest popular music on the Victrola, they have a soft spot in their hearts for some of the old favorites.

And they can hear them too on the Victrola whenever they want, and enjoy them better than ever before—the old-time numbers take on a new charm when sung and played by the Victor group of talented artists.

Come in and hear your favorite music, and let us explain how you can easily secure a Victor or Victrola —$10 to $500.
