Maryland Musings

Another market outlet for apple wood has opened, due to the shortage of paper pulp-wood says A. F. Vierheller, specialist in horticulture for the University of Maryland Extension service. He advises growers interested in this outlet for apple wood to write him for information, as wood for such use must be cut to certain specified lengths.

The estimated number of chickens raised on farms in Maryand in 1943 was 121 per cent of the number raised in 1942, 9,465,00 as against 7,822,000. In addition, it is estimated that about 18,000,000 broiers will be produced commercially in Maryland in 1943.

'Geography Book' Duck Egg Attracts County Sightseers

Aberdeen—Edward Banks, a colored man residing near Aberdeen, is the proud owner of a duck which in a small way rivals the famous Donald Duck in her bid for fame. Recently Edward and his wife were astounded to find that the barnyard fowl had laid a freak egg, upon which the outlines of the United States and Africa are said to be clearly distinguishable. To top it off, sightseers declare that there is a visible A and P to mark the Atlantic and Pacific Oceans.

When news of the find spread, sightseers began to pour into the Banks property to view the freak, and it is understood that 175 persons have already gazed upon the egg with amazement. Seeing its possibilities for revenue Edward and his wife began to charge a small fee. Officers from the Proving Ground have suggested that the egg be taken to that Army post and preserved as a curio, but the owners wish to hold on to it for a while.

Reportedly, the duck had previously laid eggs of a most unusual color. Perhaps if given enough time, she will eventually bring forth the proverbial "golden goose egg."

The family says I am a lot easier to live with since I have known about Alka-Seltzer.

Have you tried ALKA-SELTZER? If not, why don't you get a package today? Large package 60¢, Small package 30¢, also by the glass at Soda Fountains.
