Kennard & Co.

Gloves - Hosiery - Ribbons - Veilings

These four lines are important ones here, judged by the demand, the supply, the quality.

Gloves—Kid Gloves are coming in now from France for which we placed orders in December, 1916; Trefousse & Co. gloves. This gives you an idea how far below to-day's prices our Kid Gloves are when we are able to quote dependable values at $1.15, $1.50, $1.75, $2.00, $2.25, $2.50 a pair.

Both silk and Filosette Gloves are shown in a wide range of styles and qualities.

Hosiery—It is impossible on account of the unusual conditions existing to be able to judge the future regarding Hosiery values. By every test our hosiery values cannot be excelled. Cotton and lisle, 31c, 39c, 50c, 60c, 75c pair. Outsize, 50c, 65c, 75c pair.

Silk Hose, 65c, $1.00, $1.50, $2.00, $2.50 pair.

Large line of Children's Socks and Hose.

Veilings—Our veiling selections are not made under a "hit and miss plan," but rather by careful choosing to get styles in harmony with those used in recognized fashion centres.

Veils by the yard and separately. Large line of the popular mesh weaves.

Ribbons—The uses for Ribbons seem to be increasing; indications point to a further use this season. Full range of widths in satins, moires, grosgrains and novelties.

Other Suggestions

Our Cotton Goods department is showing unusual lines in white Skirtings

Colored, printed and woven Cotton Fabrics.

New weaves and colorings in Silks of the wanted kinds for dresses, shirts, skirts and trimmings.

Many men are having their shirts made nowadays. Complete showing of white and colored cotton and Silk Fabrics for this purpose.

Serge Dresses at $18.00 and $20.00 each of the kinds shown here speak volumes for quality and price.

Visit our new Yarn department.

We solicit charge accounts from those of established credit and prepay delivery charges on all charges within a reasonable distance.

WHY HE CLOSED POST OFFICE

Ike Wanted to Transfer the Rush in Business to His Other Establishment.

Uncle Ike Ross, a weatherbeaten mountaineer, who presides over a post office among the hills of southern Missouri, peered through the stamp window at two city men who had tramped five miles from their mountain camp to post some business letters. He shook his head.

"There's been a plumb big rush of business at this hyar post office this morning," he drawled, "and I'm all tuckered out. I reckin I won't sell nobody no more stamps till after dinner."

"But," gasped the man nearest the window, "these letters have got to go! They're important, and they've got to catch the stage and get off today."

Uncle Ike was obdurate. "Hit shore don't pay no man to work hisself to death," he said deliberately, and withdrew to a chair, where he tipped back and dropped into a doze.

"Some folks," snapped the city man, "would be too lazy to make a dollar if all the opportunities of the next 50 years came and perched on their doorsteps! Now, where are we going to get dinner?"

His companion pointed silently to a sign, conspicuous on the post office door:

"Fried chicken dinner served to visitors at the Ike Ross restaurant next door. Fifty cents."—Youth's Companion.

WAS A MAGNANIMOUS PAGAN

Saladin, Conquerer of Jerusalem, Did Not Shed Drop of Christian Blood When City Fell.

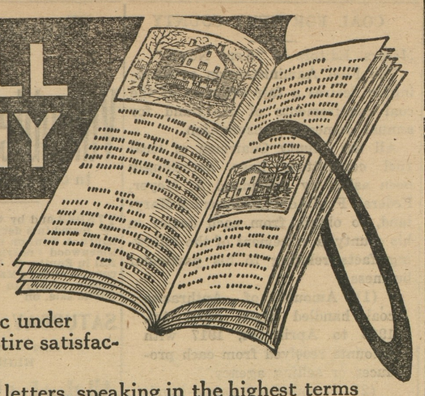
It was in 1193 that Saladin died in Damascus, leaving behind him a reputation for magnanimity unique in that age, and only exceeded by his fame as a warrior.

It was only six years before his death that Saladin defeated Guy de Lusignan, the Christian king of Jerusalem, and obtained possession of the sacred city, which had been captured by the Crusaders 88 years before. The golden cross was pulled down and dragged through the streets of the city, and the Mosque of Omar, which had been consecrated to Christ, was restored to the worship of Mohammed. But not a drop of Christian blood was shed after the capitulation. Instead of butchering thousands of the inhabitants, as the Christians had done after conquering the city, Saladin ordered that none should be harmed. The weeping queen was treated with great consideration, and Saladin was so moved by her misery that he is said to have shed tears of sympathy. Later, during the third crusade, the Christians under Richard Coeur de Lion beheaded in cold blood 5,000 Saracen hostages, and Saladin revenged himself upon Christians in his power. On the whole, however, he was vastly better than most of the rulers of his time.

Frozen Fish Live for Years.

A live fish gradually frozen in a cake of ice does not die; it merely suspends all life processes. When the ice melts, if it does so slowly, the fish takes up its vital activities again as if nothing had happened. This phenomenon, says the University of Washington News Letter, was described by Prof E. Victor Smith of the department of zoology, in discussing a recent announcement that a Swiss naturalist had revived frozen fish. "There is no reason why a fish, if frozen in a cake of ice, should not be revived even at the end of ten years," said Professor Smith. "Cases of frozen cold-blooded animals are not uncommon. Frogs are many times frozen for long periods of time, and turtles will live even under ordinary circumstances for a year without food." The process of freezing fish must be accompanied with the greatest care, he said. The temperature of the water must be reduced slowly in the freezing process and must be gradually raised in the thawing part of the experiment.

A BOOK FULL OF TESTIMONY

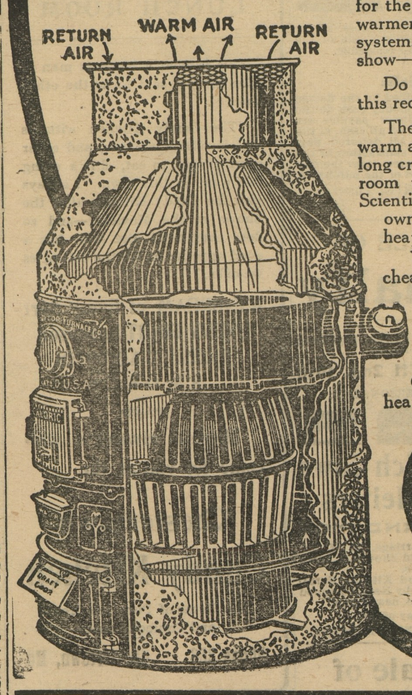


Thousands of Caloric Pipeless Furnaces are owned by as many people—in city, town and country, all over the land.

These owners installed the Caloric under a distinct and definite guarantee of entire satisfaction, or the removal of the furnace.

Hundreds have written voluntary letters, speaking in the highest terms of the Caloric. These letters have been gathered into a quite sizeable book that you may read for yourself if you will call and ask for a copy. This book is

Proof Positive That the Caloric Operates Perfectly and Saves Money



for the operator. In fact, the Caloric **is guaranteed** to make a warmer house on less fuel than any other furnace or heating system. The average amount of fuel saved—as these letters show—is 35%, and the average comfort obtained is 100%.

Do you know of any house-heating system that will beat this record?

The Caloric is a **one register** furnace. It heats by a natural warm air circulation. Its heat isn't cooled down passing through long crooked pipes, but rises freely and without hindrance from room to room till the whole house is delightfully comfortable. Scientists say that circulated heat is most healthful, and Caloric owners find it true—The Caloric is a perfectly healthful home heater.

You can install the Caloric in any home, new or old, and cheaply. In fact, a cellar isn't absolutely necessary—a pit under the house will do.

We have a Caloric set up and will be delighted to point out its many advantages and money-saving qualities.

Come in and read our surprising guarantee—no other heater can or does make one like it.
