Can You Drive a Car?

WHEN YOU were a kid did you always pester to "go along" on every ride? And now, do you get a kick out of handling the wheel like a man?

Women with mechanical ability are needed in the WAC at once. Other skills are needed too. And untrained women can learn skills that will be useful all their lives. 239 types of Army jobs need Wacs to fill them.

Get full details at the nearest U. S. Army Recruiting Station (your local post office will give you the address). Or write The Adjutant General, Room 4415, Munitions Building, Washington, D. C.

NEW DRAFT SETUP REMOVES DOUBT AS TO PHYSICAL

Under the new draft system now operating efficiently in Kent County men who are sent to the Baltimore Center and pass their physical examination are not necessarily in the army. The purpose of this new system is to establish a pool of A-1 classifications for future call. Under the previous system when one passed the physical at the induction center he was immediately sworn into one of the branches of the armed forces. The new plan will definitely let a man know how he stands as to future assignment. If he is 1-A it is just a question of time. If he is 4-F he knows that he is physically unfit for military service and if he is limited service he is still on the fence as to his future.

There will be no more local physical examinations except for those who have visable serious physical defects.
