War-Time
TELEPHONE TIPS

Now that telephone materials have gone to war, we must get along with the facilities we have until a happier day. By using these facilities to the best advantage, you can help keep service good for everyone, including yourself. Try following these simple rules:—

1. Be sure you have the right number before placing a call. Consult your directory.
2. Answer all calls as promptly as possible.
3. If you're on a party line, apply the Golden Rule to your use of the line.
4. Don't ask "Information" for numbers that are listed in the directory.
5. Hang up carefully after each call. Don't let a book, or other object, hold the receiver off the hook.
6. Take good care of the telephone instrument and cord in your home and office. They're made of scarce and critical materials.
