After Being Relieved of Organic Trouble by Lydia E. Pinkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me.

"I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTERS, R. R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, brought to Mrs. Alters.

Women everywhere in Mrs. Alters' condition should profit by her recommendation, and if there are any complications write Lydia E. Pinkham's Medicine Co., Lynn, Mass., for advice. The result of their 40 years experience is at your service.

What is the difference between an OCULIST and an OPTOMETRIST?

The Oculist treats diseased eyes and fits glasses according to the laws of optics. The Optometrist uses the same means for detecting any disease, but does not treat, but refers to the Oculist or family Physician. The Optometrist fits glasses according to the laws of optics just the same as the Oculist, but without drugs or drops.

TEN-MINUTE VACATIONS

In farm and Fireside a writer says: "I've been married 26 years and I've never had what you would call a sure-enough vacation. I never get two weeks for a vacation, so I just take ten-minute vacations," she told us. "I mean that at least three times a day, just when I'm apt to get most worked up about all there is to be done, I simply sit down in my rocking chair or lie down, or, if it's nice weather, go outdoors for at least ten minutes. It's a wonderful help. Then I always wear rubber heels, keep my voice low, because there's nothing so wearing as talking in a high voice, and I try to sit and stand in the most restful way. When things go wrong and I'm getting mad or blue, I take a few deep breaths, hold up my head, and practice a grin. It's the best tired-and-cross tonic I know of."

MEN FROM 45 TO 55 MAY ENLIST

To Be Used In Ordnance, Quarter-Master And Medical Corps.

In order that younger men may be released for more active positions, the enlistment of men between the ages of 45 and 55 years has been approved by the War Department for the Ordnance Department, Quartermaster and Medical Corps and for certain branches of the Signal Corps. Instructions to this effect were sent this week to army recruiting units throughout the country.

Minor disabilities which do not interfere with the performance of the military duties of applicants will be waived it was said.

A release signed by present employers will be required with each application from a recruit over 45 years, so that the industrial machinery of the country may not suffer.

SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month. French Pound and Half, Italians One Pound.

GERMAN SUPPLY PLENTIFUL.

All Nations Permit Use of Sweetening for Home Preserving Purposes.

America's new sugar ration of two pounds a month per person is equitable when compared with the sugar ration enforced by rigid governmental order in England, France and Italy, nations with which we are sharing sugar.

Each Allied nation—in the matter of sugar consumption—is sharing on nearest possible equal terms the hardships imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, sugar is now a war time essential. The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month.

In the other countries at war with Germany sugar is one of the scarce articles on every menu—whether in the households of both rich and poor, or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you.

In England it is allowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France many persons carry little saccharine tablets about with them for use in hotels and in England rich and poor must take their sugar with them if they wish to have sweetened tea while visiting friends.

Before the war started France had 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 180,000 acres. Today the French man or woman with a sugar card has no assurance whatever that he or she will be able to actually buy sugar. To buy it, one must first find it.

Italy Has "State Sugar."

Especially drastic regulations govern the use of sugar in Italy. Its manufacture, distribution and sale are closely controlled, and in part actually taken over by the state.

Saccharine is permitted to be sold and used as a substitute for sugar and the government manufactures a mixture of saccharine and sugar called "State Sugar," which is largely used.

German Sugar Ration Adequate.

Germany, before the war, produced a great surplus of sugar and exported large quantities. Today the Germans have virtually gone out of the export business, but have plenty of cheap sugar for home use.

Wholesale prices prevalent in the Allied nations, according to information received by the United States Food Administration are as follows: England, 10 cents a pound; France, 12 cents; Italy, 26 cents.

While these high prices are being paid abroad the American wholesale price is being held at 7½ cents.
