WHAT CATARRH IS

Science has shown that nasal catarrh often indicates a general weakness of the body and local treatments in the form of snuffs and vapors only irritate and do little if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from any harmful drugs. It is helping thousands. Try it.

Satisfaction With Every Purchase

is assured to shoppers at Baltimore's Best Store, whether you do such shopping in person or by mail.

¶ If you have never made use of our Mail Shopping Service, we would appreciate your doing so the next time you are in need of merchandise which you cannot obtain at your local dealers.

¶ Simply write to us, enclosing money order or check to cover the amount of your purchase, unless you have a charge account. If you are in doubt as to the cost of the merchandise you wish, write us a letter of inquiry and we will answer in detail, giving you descriptions and prices.

¶ Your orders will be handled by competent shoppers, who take pride in giving satisfaction to the customers for whom they are making selections

¶ If for some reason or other you are not entirely satisfied with your purchase, we will exchange it or return your money, provided the merchandise is returned to us, in good condition, within seven days from the date on which you receive it.

May we number you among our shoppers by mail?

NO USE TO FREE EUROPE AND THEN WITHHOLD FOOD.

The influenza set back by several weeks the new food card which was to have been placed in every American home at the beginning of November. But it has not deferred by an instant fulfillment of America's pledge to her allies to "keep the wolf from the door." That undertaking requires the shipment of foodstuffs on a fifty per cent higher plane during the next twelve months. It means exporting 17½ million tons as against the 11¾ millions which was the total of the last program.

The overseas need for food has increased every day that American troops landed in France and every day that victims of German oppression were at last set free. But the demand will be tremendous after the war when 180,000,000 people—millions of them hungering and half-starved — will clamor to this country for supplies. The position of the U. S. A. in the world's esteem will not be assured until that need is met. The deep abiding gratitude of humanity will be won only if the prowess of America's men-at-arms is backed up to the limit by the self-denying charity of the American people at home.

Those 17½ million tons must be saved and shipped.

But how shall we send half as much again from stocks not materially larger than we have had during the past year?

Hotels and restaurants are following twelve new General Orders all tending to cut down the amount of food consumed—no matter of what kind.

It is no longer a question of saving wheat by eating substitute cereals or meat by eating chicken. To make good on a 17½-million-ton promise, it is necessary to reduce all along the line. In blunt language, **Americans have got to eat less.**

Ninety-five per cent of the country's sustenance is derived from the staple foods, and from these most of the saving must come. By substituting oysters, eggs, rabbits, nuts, and all manner of non-staple foods we can add a little to the total supply. But the amount is so small a fraction of what is needed that there is only one sure and simple solution of the national problem. **Eat Less.** Those two words sum up the message of the Food Administration to the people of Maryland. It is for every individual to interpret them in the terms of his own personal patriotism.

STUFFED CABBAGE.

First of all take off three or four large leaves to cover the hole, then remove the core of cabbage and from the hole started this way continue to hollow out the entire head leaving a thickness of only three or four leaves, or enough to hold together. Then take what has been cut out, chop or cut in small pieces and put it in a pot with some fat and stew until soft, then add to this chopped beef, one egg, two tablespoons of salt, one-half teaspoon of pepper, three-quarter teaspoon mace, one-half loaf bread soaked until soft. Mix well and then pack into the hollowed cabbage head and cover with the leaves, then tie securely with twine. Place in a pan or deep pot, cover and bake in a hot oven for a couple of hours or until tender and brown.

TO SAVE FATS.

Use all the fat you can buy. Save the drippings.

Bake, boil and broil more—fry less. Avoid deep-frying fat.

Serve butter on the table in small pats or pieces; this saves plate waste. Put any left on the plate into a "butter cup" and use it for cooking.

Put no more dressing on salad than will be eaten.

Try reducing the amount of fat in your recipes. If you use pies, make one-crust pies.

Use fruit or other simple desserts in the place of pies, pastries and cake and other dishes rich in fat.

Remember that soap is made from fat, and so is to be used carefully.

THE NUTS THEY NEED.

Remember that only the pits of peaches, prunes, plums, apricots, olives, cherries, dates and the shells of Brazil Nuts, walnuts, butternuts and hickory nuts are wanted by the Government for gas mask material, but they are needed badly. See that the Red Cross gets yours.

TO SAVE CEREALS.

One cereal food at one meal is enough.

If the dessert requires flour or cereal, perhaps vegetables can take the place of bread.

The amount of Victory bread served should be limited.

Don't serve toast as a garnish.

Leftover muffins can be toasted and used.

Cut the bread at the table as needed—a thin slice at a time.

Always use stale bread, but count it as bread and reduce elsewhere.

At best the Allied table will be less than ours, for the Allied peoples are denying themselves more in order to transport soldiers—whether going or coming.

Mix at least 20 per cent of other cereal with all wheat flour used, and above all, mix good sense with whatever you do.

Persons living in hotels or boarding houses cannot legally buy sugar without a written permit from the Food Administrator.

Use now or can any vegetables and fruit left from summer—they help to fill up.

America can ship 50 per cent more food this year if we are all 50 per cent better Americans.

Keep your hand in on cornbread and buckwheat cakes.
