Sterling's Pharmacy

THE REXALL STORE

13 Dollars—13 Cents

When Swift & Company paid, say,—**13 dollars** per hundredweight for live beef cattle last year, the profit was only **13 cents!** In other words, if we had paid $13.13, we would have made **no profit.**

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.
