RITCHIE ENTERS FIELD

Attorney - General Announces His Candidacy For Governorship.

Attorney-General Albert C. Ritchie has made formal announcemnt of his candidacy for the Democratic nomination for Governor. In announcing his candidacy Mr. Ritchie also outlined a platform on which he will make the race. Some of its features are:

Increased representation for Baltimore city in the Legislature.

No general assessment of property in the counties of Maryland after the completion of the present one.

Continued work on the State roads system and a permanent source of revenue for the upkeep of the system.

Termination of the system of contract prison labor and the substitution for it of some other plan that offers no competition with free labor.

Increased pay for school teachers and the suggestion that Federal aid for schools, if forthcoming, will eliminate the necessity of increasing the State tax.

Co-ordination of the different State Departments dealing with agricultural questions.

Co-operation with Baltimore city in promoting its commercial and industrial advancement.

Mr. Ritchie said he would enlarge on these issues as the campaign progressed.

His formal announcement is expected to bring early decision as to whether Comptroller McMullen, State Chairman Wade, Congressman Coady and Linthicum and others, who are tentative candidates or have been suggested, will enter the field.

SALIENT POINTS IN MESSAGE

President Wilson, in his message to Congress Tuesday, declared:

That he would return the railroads to their owners at the end of the calendar year.

That the telegraph and telephone lines will be returned to their owners as soon as possible.

That in the case of both the wires and the railroads there should be legislation to develop a more uniform and co-ordinated system of operation.

The wartime prohibition act should be amended or repealed so far as it applies to wines and beers.

There is no occasion for "any general revision" of the present system of import duties, with the exception of the necessary protection for the new dye industry and against possible trade discrimination by foreign powers.

Revision of federal taxes to simplify administration, elimination of minor taxes such as excise upon various manufacturers and taxes upon retail sales and adjustment of incomes, excess profits and estate taxes as the mainstay of revenue sources is necessary.

That a "new organization of industry," with labor participating in its control, is necessary to make operative a community of interests between capital and labor.

The United States Employment Service should be continued and several agencies of conciliation and adjustment co-ordinated by setting up new federal agencies of advice and information, similar to those created for internal counsel and suggestions under the League of Nations.

That undeveloped land should be allotted to returning soldiers.

That woman suffrage should be adopted.
