$12,000 ORCHARD SOLD

The American Fruit Growers, Incorporated, have closed a deal with the owners of the Appalachian apple orchard, in Morgan county, for $125,000. The orchard contains about 400 acres, divided between apples and peaches, and is owned by Governor John J. Cornwell, Frank A. Vanderlip and the Ailes brothers. The company also has options on several other orchards in this county. The holdings of this syndicate now amount to more than 20,000 acres of fruit lands in West Virginia, Maryland, Pennsylvania, Illinois, Oregon, California and Washington. These orchards are practically of the bearing age and the corporation expects to handle at least 50,000 carloads of produce the present season. The incorporators contemplate an expenditure of $100,000,000 before concluding all negotiations, and expect to cover every phase of the fruit industry from production through transportation and distribution to the ultimate consumer. Chester J. Tyson, treasurer and orchard manager for Tyson Bros., large fruit growers will have charge.

C. W. Nash Denies Motor Combine

In answer to the recent unauthentic reports that there was a possibility of a combine of The Nash Motors Company with several other big companies in the motor car industry comes the statement from W. N. Nash, president of the Nash Motor Company, Kenosha, Wisconsin, which eliminates any possibility of a merger such as has been recently reported in the press.

In an interview with Mr. Nash he said "The reports of a consolidation in the motor car industry which includes The Nash Motors Company are not founded on facts. This is no possibility of the Nash Motors Company becoming a subsidiary of any other company in the motor car industry."

"In this connection I might say there are three factors necessary to permanency in the motor car business—good financing, a good factory and a good organization. It follows that a good product would be the result.

Because of Mr. Nash's twenty-seven years experience in manufacturing and because of the record he holds as one of the world's foremost manufacturers, there have been frequent rumors of consolidations. Apparently, however, the latest reports are not well founded for, as Mr. Nash states, "if they were based on fact I would take the public into my confidence and would be the first to make an announcement."
