New Dinner Sets Are Here!

Just arrived in time to serve the Thanksgiving dinner on. These sets are mostly of domestic porcelain and some imported. They were ordered long ago and we consider ourselves fortunate to be able to offer them at these prices. The sets are all of one hundred pieces and in a number of attractive decorations and, better still, at a price range to suit most pocketbooks.

There are, for example, four sets in domestic porcelain from one of the best factories. They come with either a pink of green spray decoration, a pink spray relieved by an unusual black decoration and a blue conventional border. The price of any of these sets, one hundred pieces, is $25.00. An excellent value.

At $35.00 the set there are four other patterns to choose from. One with blue bands and tiny roses, one with red rose border, another with a delicate gray band with roses.

Then there are two patterns—one with a gold band decoration and burnt gold handles at $45.00 the set—the other with a pink and buff border and burnt gold handles at $55.00 for the one hundred pieces.

For those who do not need a complete set there are four patterns in domestic porcelain in open stock. The decorations are conventional and the price for the complete sets, $36.00 and $38.00. Being open stock, however, any number of pieces or combination can be had.

And then there are the beautiful imported china Dinner Sets.

The war stopped the importation of these sets and it was but recently that these long delayed sets arrived. They are truly beautiful, a delight to the housewife who takes pride in her table fittings.

Practically all these sets have burnt gold handles. One conventional design is marked or one hundred pieces, $82.35. A dainty green border decoration is $95.25 the set, and one with a heavy pink border is marked $106.00.

And three other patterns, rich, dignified and exclusive, the kind of set you have long dreamed of seeing on your table, with gold band decorations and gold borders, are marked $135.00, $174.00 and $181.00 the set.

These imported Dinner Sets are open stock, and you can start your set now with as many or as few pieces as you want.

SCHOOL NOTES

Have the patrons and trustees of the county schools ever taken into consideration the importance and necessity of a good, pure water supply on the school grounds?

What opportunity do the children have to wash their hands before eating their lunch?

In this enlightened day we all know that the hands and food are the great germ carriers and sources of disease. We know only too well the danger of the water pail and common drinking cup.

The patrons are most vitally interested in the schools. Why not interest yourselves in seeing that water, preferably running water, is inside the school building and a drinking fount placed in the school which your children attend. There is a way. If the School Board cannot furnish these funds, raise the money in your community. The Junior Red Cross will co-operate with you.

A water survey of some of the Co. Schools, Massey, Pomona, Quaker Neck, Cliff, Lynch, Morgnec, Cherry Lane, Mill Branch, Chesterville, Number Ten, Skinner's Neck, Sassafras, shows they have no water on the grounds.

Janvier has an old pump which has not been cleaned out for four years. Coleman has a pump which is out of order, Rock Hall High School's water is not fit for drinking purposes.

Are you on your grocers pay-roll?

If you are marketing on the Cash-and Carry plan—if you are doing your own selecting, buying and carrying your groceries, you should be on your grocer's pay-roll!

You are doing his work!

Have you ever figured out just what he pas you?

Well, it costs a grocer about $30.00 per week to deliver groceries to 600 customers. In other words, when these customers take the place of a delivery truck and carry their own purchases, the so-called "economy" store can afford to divide just $30 between those 600 customers.

If you are one of those customers, then your share is just 5c. Is it worth it? Is it the valuation you place on your time and labor?

We can cater to people who are too intelligent to be impressed with the "economy store" fallacy. Our customers have confidence in our ability to serve them without their personal supervision.

They have learned that we are expert in our line—we recommend the best things for their use and we do not ask them to be our delivery boys.

We stand back of the goods we sell. Take baking powder for instance. We feature RYZON because we know its value from using it in our own home. RYZON is 40c per pound and worth more—it is dependable and, used with the RYZON Baking Book, you can always count on 100 per cent. results from your baking. Ask for the RYZON Baking Book.
