The Social Wanderer

Dear Roamer

News of considerable interest will be realized in the announcement we have to-day.

Mrs. Walker B. Spencer, of 3222 Coliseum Street, New Orleans, has announced the engagement and approaching marriage of her daughter, Miss Dorothy Selden Spencer, of New Orleans and Chestertown, Maryland, to Judge Stephen Roberts Collins, of Chestertown, a member of the Court of Appeals of Maryland. The ceremony will be performed in the Trinity Protestant Episcopal Church in New Orleans on Wednesday morning, August 8th, at 11 o'clock, by the Right Reverend John Long Jackson, Bishop of Louisiana, assisted by Dr. Robert Coupland, rector of the church.

Miss Spencer is the daughter of the late Mr. Walker B. Spencer of New Orleans, the well-known jurist, and is a granddaughter of the late Judge William Brainerd Spencer, of the Supreme Court of Louisiana, and a member of Congress, and of the late Mr. William Lobdell Clark, of Clarkland Plantation, West Baton Rouge, Louisiana.

Miss Spencer was educated at Miss Hill's School in Paris, at H. Sophie Newcomb College in New Orleans, and at the Grande Chaumiere in Paris. She is a member of the Junior League, the Colonial Dames, and the Garden Club of America. She made her debut in New Orleans where she was a former Queen of the Mardi Gras in that city's annual carnival.

Judge Collins is a graduate of Washington College and of the University of Maryland Law School and has been a member of the Court of Appeals of Maryland for the past five years. He is the son of the late Mr. and Mrs. R. Harrison Collins, of Chestertown, and the grandson of the late Dr. Stephen C. Roberts, former rector of Emmanuel Protestant Episcopal Church of Chestertown.

Mrs. L. H. Springer Cowles, of Baltimore, is a guest of her uncle and aunt until after Labor Day.

Mrs. A. F. Whitsitt, who has been visiting in Independence, Mo., will return this week-end. During her visit, she was guest of honor at a garden party given by Mrs. John Grinter and Miss Susie Plamer. Adding a note of interest to this affair, was the fact that the First Lady, Mrs. Harry S. Truman, stood next to Mrs. Whitsitt in the receiving line.

Next in line for me, at the moment is how I might tell you this is all for to-day. No rhyme or reason, can I find other than to say,

Yours at road's end,

Women Still Being Recruited For WAVES

Liuet. Commander H. R. Stone, U. S. Navy Recruiting Officer for the State of Maryland, stated today that WAVES are the number one procurement need of the U. S. Navy Recruiting Service at the present time.

Commander Stone added that the Navy's urgent need for WAVES at present is brought about by the ever increasing tempo of the war in the Pacific and the splendid job being done by the WAVES now on duty.

WAVES are doing efficiently more than 250 various, important jobs in the Navy and Commanding Officers of Navy shore establishments throughout the country are continually requesting more WAVES.

Women between the ages of 20 and 36 who have had at least two years high school or business school, are eligible to apply for enlistment, the Recruiting Officer stated. All interested women are urged to apply at once at their nearest Navy Recruiting Station. There is a career for women in the WAVES and at the same time they will be helping their country win the war.

Complete information concerning requirements for enlistment in the WAVES may be obtained at the following U. S. Navy Recruiting Stations in Maryland: Baltimore, Room 312, Post Office Building—Cumberland, Post Office Building—Hagerstown, City Hall Building—Salisbury, Post Office Building.

RETIRES AFTER 54 YEARS AS EMPLOYEE

Dover—Robert P. Robinson, of this city, a can maker at Richardson and Robbins plant for 54 consecutive years, has retired from active service at the plant. His retirement became effective this week.

One of the oldest employes in point of service with the local concern, Mr. Robinson enjoys the unique record of seldom being absent from his place of employment during this lengthy career unless the absence was caused by illness.

Starting his career at a time when all cans used by the concern were made by hand, Mr. Robinson witnessed the numerous evolutions in the production of cans. In recent years when many of the cans used by the concern were made commercially, Mr. Robinson's activities were devoted to the processing of special sized cans.

His term of employment with the concern carried him through three war periods and likewise he served in the plant while it was under the supervision of three generations of the Richardson family.
