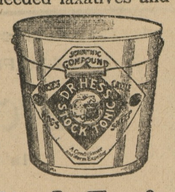
Is Every Animal At Its Best?

Don't let your stock lose their Summer's gain through November neglect. Your animals are now going on dry feed—hay and grain.

It's a big change from the succulent, nutritious grasses of summer pastures which supply the needed laxatives and tonics.



Keep your animals' bowels open and regular—drive out the worms—keep their blood rich and keep their digestion good by feeding regularly

Dr. Hess Stock Tonic

A Conditioner and Worm Expeller

Don't allow your stock to "get off feed" and in a run-down condition.

Condition your cows for calving by feeding Dr. Hess Stock Tonic before freshing. Then feed it regularly to increase the flow of milk. It lengthens the milking period.

Buy Stock Tonic according to the size of your herd. Get from your dealer two pounds for each average hog, five pounds for each horse, cow or steer, to start with, feed as directed and then watch results.

Why Pay the Peddler Twice My Price?

Don't "Follow The Leader"

The "leader" is an ancient article employed by the so-called "economy stores" to create the impression that their prices are low.

They sell an article of standard brand several cents cheaper than it can be bought elsewhere—oftimes cheaper than the dealer himself can buy it.

Now, if these stores carried out this policy on all their goods they would be doing business at an actual loss. Why, then, do they make this sacrifice on some standard article? Because they expect to get it back with good interest on other and unidentified goods which the uninitiated think they are getting cheap because the "leader" was cheap!

Real economy is in dealing where you have absolute confidence in the grocer.

We are in a position to serve you intelligently. We make it our business to test everything we recommend.

When Ryzon was introduced we knew that it was the product of the General Chemical Company, a great Chemical Company, a great Chemical Organization, and must be worth trying. We did, and now we know why they call it "The Perfect Baking Powder." 25c half pound cans.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs.

This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

SWAN POINT BAR BARREN

Swan Point bar has been closed to the oysterman of Kent because of the fearful condition of the oysters there. For years this famous bar has one of the most productive and profitable centers of trade in oysters and thousands of dollars have been made out of its water. For some time past, however, the oysters have been getting less plentiful and inferior in character, and when the season opened in September last, the same condition confronted the oystermen.

The State Geographical Survey was asked to make an investigation of conditions on the bar, with a view to determining the cause of the very condition of the oysters, and found that all the oysters in the bar are either dead, or are in such condition that they will eventually die. When this condition was discovered the bar was immediately ordered closed by the State authorities, and not an oyster has been allowed to be sold or taken from the bar.

Just what is the cause of this extremely heavy blow to the oystermen, neither the State Geographical Survey nor any of the oystermen are able to determine. Federal government agents will be asked to make a thorough investigation of the cause of the condition, and if possible apply the remedy that will restore the former status.

CAUTION.

All persons are warned against trespassing or trapping upon the land and marsh of the undersigned with dog, gun or otherwise as we shall prosecute all offenders.
