
Ford

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3½-inch tires front and rear, is a family car of class and comfort, both in summer and in winter. For touring it is a most comfortable car. The large plate glass windows make it an open car when desired, while in case of rain and all inclement weather, it can be made a most delightful closed car in a few minutes. Rain-proof, dust-proof, fine upholstering, broad, roomy seats. Simple in operation. Anybody can safely drive it. While it has all the distinctive and economical merits of the Ford car in operation and maintenance. Won't you come in and look it over?

HAVE YOUR SOIL TESTED

MONDAY, FEB. 2, HAS BEEN SET APART BY COUNTY AGENT DERRICK AS SOIL-TESTING DAY.

Farmers Are Asked To Send In A Sample Of Their Soil For Analysis Free Of Charge.

Our readers will be interested in knowing that our County Agricultural Agent has made arrangements with the Soil Department of the Maryland Experiment Station whereby every farmer in the county may have his soil tested free of charge. This test will not only indicate whether or not lime is needed, but will also tell him the amount of lime that should be used.

From one-half to two-thirds of the farm land in our county requires lime to produce a profitable crop. It is a well known fact that the poor and unproductive land of this section is invariably sour and that many of our good soils would be more productive if lime were used more liberally. The experience of our best farmers has shown that when the soil begins to need lime it is a waste of time, and fertilizers, to continue to cultivate it until this need has been supplied.

With the above in mind County Agent Horace B. Derrick, has set aside Ground Hog Day, Monday, February 2nd, as soil testing day and urges that on that day every farmer in the county take a sample of his soil and bring or send it to his office at the Court House. He wants a sample from every farmer and from every farm a sample from every field that has not received an application of at least one ton of lime per acre during the past two years. All samples received by him during the week of February 2nd, will be tested for lime free of charge if the directions given below are followed:

Directions For Taking Soil Samples.

With a spade or shovel dig a square hole to the depth of about six inches, lay a piece of clean paper in the bottom of the hole and then shave a thin slice from one side of the hole, allowing the soil fall on the paper. Lift the paper and the soil slice from the hole and proceed to another place in the same field and repeat the operation.

If the field is small and fairly uniform two holes will be sufficient to give representative samples, but if the field is large and uneven it will be better to secure samples from at least four different places. The samples thus secured from different places in the same field should then be mixed together and from the mixture a half pint of soil should be taken for the test. This half pint sample should be wrapped in paper or put in a clean bag and numbered or marked on the outside of the package. The sample from each field should be wrapped and numbered separately then all packed together in a box or package for shipment by parcel post. The package may be sent or taken to the County Agricultural Agent or it may be sent by mail or porcel post direct to the Soil Department, Maryland Experiment Station, College Park, Md.

It is desired that all samples be taken on Monday, February 2nd, regardless of the weather. If the ground is frozen at this time the samples may be taken by chopping out small pieces of the soil with an ax or a hatchet and after thawing, mix as directed above.

For the convenience of our readers we are printing below a coupon which should be used in sending the samples. Before the package is wrapped for shipment fill out this slip, tear it off and attach to your sample, keeping a copy for reference. This is important since the result of the test will be reported to you and it will be necessary for you to know the fields corresponding the numbers.

Lime Requirement Soil Tests.

Sloan's Liniment is very effective in allaying external pains, strains, bruises, aches, stiff joints, sore muscles, lumbago, neuritis, sciatica, rheumatic twinges.

Keep a big bottle always on hand for family use. Druggists everywhere. 35c, 70c, $1.40.

Sloan's Liniment Keep it handy

Old Friends are True Friends

The man, who loves a dog and a pipe, has two staunch friends that never fail him in good luck or in bad. They give all and ask nothing in return. Day by day they become nearer and dearer to him. The man who has not a dog and a pipe has missed two of the greatest things this good old world can give.

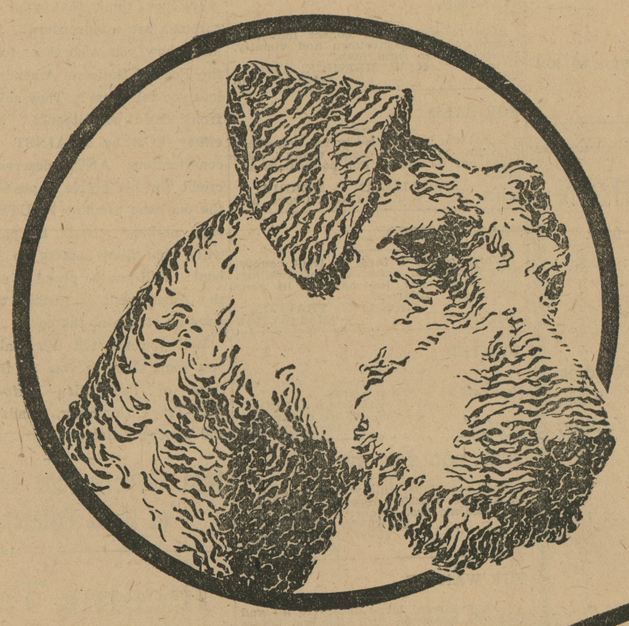
Every man who loves his pipe should know Velvet, the one tobacco that brings out all of a pipe's best and sweetest qualities. Your pipe takes on an added friendliness from Velvet's choice Kentucky leaf aged in the wood to a mellowness that's rich and smooth as cream.

Your pipe takes on a mild sweetness that is Velvet's natural tobacco sweetness. And around you hovers the *real tobacco* fragrance that all good pipe smokers love.

Never did Velvet Joe say a wiser, truer thing than this:

"Folks say you can't buy friendship. You can buy a dog and a pipe and good old Velvet—and I reckon no man ever had three better friends."

Liggett & Myers Tobacco Co.



There's a lot of pipe-loads in every big generous tin of Velvet, and every pipe-load is good tobacco at its best.
