FLASHES FROM CHESTERTOWN HIGH

By EMORY M. HINES, JR.

One of the most important elections of the year was held in Mr. Hall's room last Wednesday during the activities period with over seventy Juniors taking part in it. The officers who will serve for the entire Senior year were elected. Francis Mead came out victorious as the class president and he will receive the class mantle from Owen Anderson, president of the Senior Class, on Class night. Gerson Bonnett took the votes for vice-president and your writer was made secretary and treasurer. The above officers will begin their term next September upon their return to school from their summer vacation.

Don't forget the boy's and girl's athletic super which will be held in the assembly hall on June 4th.

Just take a look at the calendar and see what's in store for C. H. S. Students beginning June first. Well, from that date on, examinations for the finals of the year will begin, and woe to the person that is not prepared. Most of our subjects will be reviewed first, and a two-day test given afterwards; that is, one-half of the exam on one day, and the remainder on the next. So if you readers find that this column is missing next week, no explanation will be needed as my time will more than likely be taken up with studying.

We're still waiting to see the issuing date of the DRAGON, it being promised to be out sometime near the first of June by the business manager, Bill Waddell. Perhaps we are a little impatient, but with it being in printed form with pictures of each Senior, why wouldn't we?

Two more people in the Commercial class have passed their speed test of over forty words per minute. They are Christine Vansant and Hazel Gozman. The latter girl made 55 words per minute, a very good speed. However, Erma Long, with her 61 still holds first place this year.

Time is drawing closer when the awards that are made to the graduates will be announced. A large number re to be presented this year with some of them following: Miss Susan Roberts will give her English prize for the boy or girl who has qualified best in the subject during the last four years. JTuposed ni-of tory Club, comors,e Hs The History Club, composed of Juniors present the History Metal to the best student in that field. A Short Hand metal, given by Mr. Kreeger, will be awarded to the Senior most efficient in it; while the Home Economics award sponsored by Mr. Fox, should also be nted. The C. W. Thomas Scholarship Metal, given to the student who is best in their studies, will be interesting to follow. The other two awards are the Jenkins and Balford Keys, one gven to a boy and another to a girl.

The Chestertown Nine were unsuccessful in their last game with Beacom College, which they lost 10-13 on last Wednesday. All and all, seven innings were played, and the local boys seemed to be hitting the runs in as often as their opponents, but C. H. S.'s competitions was stronger, and the last inning showed a lose by three runs.

Better luck next time, boys; and may you be more successful in your forthcoming game with Rock Hall on Tuesday.

MASSEY LOSES TWO GAMES

Massey dropped two games over the week end, losing to Townsend Saturday by a one sided score 17 to 0. Poor fielding caused the visitors many runs.

At Massey Sunday Betz and Boyd staged a pitchers duel, Boyd having as edge on Betz, while errors caused all the runs. Boyd and Betz accepted eight chances apiece for fielding honors.

Massey will pay Clayton two games Saturday at Clayton, on Sunday they play at home against Sudlersville.

Frequently some one will ask, 'just what do you mean by a Chiropractic adjustment?' To nany persons a Chiropractic adjustment brings up the picture of rough handling. Others think of the back as such a delicate structure that a little push may distort it.

In order to make perfectly clear just what a Chiropractic adjustment is and does, it is first necessary to say a few things about that back of ours. In the first place it is strong, well protected, accurately shaped and balanced and can support heavy loads as well as severe strains. Like any other mechanical structure, it can be suddenly or accidentally overloaded. Also by being subject to a wrongful posture, kept out of equilibrium for sustained periods, will tebral bones.
result in displacement of its ver-

The exact position with relation to all the vertebrae of the spinal column must be clearly understood to determine the degree of displacement. When determined and due allowance is made for muscular re-action and other counteracting forces, the hands are placed at the particular point where the least pressure is needed to slip the bone back into normal position. This is neither painful nor unnatural. It is not massage er rubbing which may ease sore or tired muscles. It does make a mechanical change in the vertebral relationship thus removing irritation on spinal nerves.
