Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCH'S WORK AT HOME. A score of items come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the church does not?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

3 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools; and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.

4 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?

5 FOR THE CHURCH'S WORK ABROAD. Influenza came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.

6 PREACHERS' SALARIES. The preacher is called the "forgotten man," and well he may be. Eight out of ten preachers are paid less than $20 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget: examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

United Financial Campaign — April 25th to May 2nd

MERRY-LAND BEACH NEW SHORE RESORT

Twenty Acre Plot Near Sparrows Point To Be Made "The Maryland Coney Island."

Work has been started on construction at Merry-Land Beach, the new amusement park, to occupy a 20-acre tract near Bay Shore, at the terminus of the Baltimore and Eastern Shore Ferry Line. Robert F. Grigor, general manager of the Sandy Beach Amusement Company,is general manager of the company promoting the enterprise. The present plan is to have the opening of the park on Decoration Day, May 30. Contract for the construction work has been pany.

let to a Pittsburg construction com-

Coaster rides, carrousels, midways and other amusement devices will be built after the approved Coney Island pattern. The racing coaster, now being prepared for shipment, is said to be the largest ever made for this State. A "Palace of Fun" is planned, further details of which the management says will be divulged later, and there will be an Old Mill. A feature of the park will be a children's playground, under the supervision of attendants.

A pavilion and a military band will supply the inducements for dancing, while a novel jaunt through space via the apparently somewhat tautologically named "flying aeroplanes" and a mysterious establishment designated as a "bug house" will titillate the senses of those for whom pony rides, skee-ball and bowling alleys, pool and billiards are too tame.

Nor will the more athletic sports be lacking. There will be baseball and bathing and, for moments when even the most strenuous must pause in the pursuit of pleasure to seek reflection there will be a large picnic grove.

According to Mr. Grigor, the automobile road between the city and the park will be put in condition at the earliest possible moment. Approach to the park by boat, will be by the pier which the Baltimore and Eastern Shore Ferry Line is constructing as the Baltimore terminus to the ferry at Rock Hall. The Sandy Beach Amusement Company plans to operate three excursion boats on the bay leaving Baltimore and connecting with the park landings. The park will also be accessible by the United Railways.

To enhance the attractiveness of the buildings, 6,000 "jewels" used to ornament the Jewel Palace at the California world's exposition have been purchased.

It is claimed that the bathing facilities will surpass those of any other beach on the Bay.

FAIR PRICES ON ICE FIXED

Ice must be sold to the family trade at the rate of 60 cents per 100 pounds in lots above 15 pounds, and at the minimum quantity rate of 15 pounds for 10 cents, according to a ruling made Thursday by Fair Price Commissioner William H. Killian and his executive secretary, Walter Bienemann, after a conference with ice manufacturers.

This gives the retail trade ice at the same prices that prevailed last year, according to Mr. Bienemann, when it was anticipated that there would be an increase in prices, owing to the increase in the cost of labor, operation and ammonia. An exception was made, however, of deliveries in the suburban districts, the price there being 65 cents per 100 pounds.

In announcing the fair price schedule, Mr. Bienemann called the attention of manufacturers to the penalty for unfair business practices and the responsibility of the delivery man to give the consumer correct weight.

Another schedule, covering prices to dealers and distributors, was fixed as follows:

Platform Service.

Ton or less than ton load lot.

	Ton.
To independent dealers	$5.50
To ice cream manufacturer	6.00
To all others	8.00

Wholesale Delivery Service.

Ton Lots.

	Ton.
Ice cream manufacturer	$7.00
All others, ton lots	9.00
All others less than ton lots	10.00

The schedule is now in effect. It applies to the entire State.

CECIL WILL CASE SETTLED

A celebrated case in the circuit was before the Caroline court this week. It was removed there from Cecil county. John Leeds Barroll, of Chestnut Hill, Philadelphia; Col. Morris King Barroll, of Fort Niagara, New York, and Hope H. Barroll, of Chestertown, had filed a caveat to the will of S. Ellen Barroll, aunt of the plaintiffs, the caveators, and Laura C. Jarmar, of Cecil, executrix named, was one of the caveatohs and one of the beneficiaries of the estate of Miss Barroll, estimated to be worth $14,000. Other beneficiaries of the will are Victoria Jamar and Henrietta Lamdin. The plaintiffs allege that the paper purporting to be the will is illegal; that the testator was desperately ill and mentally incompetent when it was signed. The document was written with a lead pencil and was a very informal exhibit in the case. Henry R. Lewis, F. R. Owens, J. Kemp Stevens and T. Alan Goldsborough appeared for the plaintiff and W. T. Warburton, H. A. Warburton, Omar D. Crothers and W. Brewster Deen were counsel for the defendants. There were many witnesses and the trial has attracted much attention. A compromise was affected Friday, defendants paying the costs and conceding to the plaintiffs the furniture, a part of the estate of Miss Barroll, and retaining the real estate.

NOTICE TO CREDITORS.

Notice is hereby given that the undersigned has obtained from the Orphans' Court for Kent County letters of Administration on the personal estate of

SAMUEL C. CACY,

late of said county, deceased.

All persons having claims against said deceased's estate are hereby warned to exhibit the same, with the proper vouchers thereof, to the undersigned on or before the 20th day of October, 1920, otherwise they may by law be excluded from all benefit of said deceased's personal estate.

All persons indebted to this estate must settle at once.

Given under my hand this 20th day of April, 1920.

Remember when the first automobile came to town

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.

ROYAL CORD · NOBBY · CHAIN · USCO · PLAIN

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile.

II

The first thing a man wants to know nowadays, when he starts out to buy a car, is *how much it is going to cost him* to keep it running.

It's all very well to take some dealer's word about a tire—if you know *who he is* and his *object* in selling it to you.

Our object in selling U. S. Tires is to have you *come back* for more—and *be glad* that we sold them to you.

III

U. S. Tires have a record behind them.

They are built by the people who perfected the *first* straight side automobile tire, who produced the *first* pneumatic truck tire.

Two of the greatest contributions to *tire* and *motor economy* ever made.

IV

As representatives of the oldest and largest rubber concern in the world, we have a reputation to live up to. We can't afford to substitute "just as good" tires for tires of *standard quality*.
