Notice of Election

And Vote Upon Bonding of the Town of Millington to Build and Construct a Water Supply System and a Sewerage System.

Notice is hereby given that an election will be held at Comegys Hall, in the Town of Millington, on

SATURDAY, MAY 22, 1920

between the hours of 2 p. m. and 5 p m., for the purpose of voting for or against the issuing of Bonds for the building and construction of a Water Supply System and for the building and construction of a Sewerage System, as provided under and by virtue of Chapter of the Acts of the General Assembly of Maryland, passed at its January Session of 1920, the provisions of which Act are as follows:

AN ACT to authorize and empower the Commissioners of Millington, Kent County, Maryland, to build and construct a water supply system, including drilled wells, receiving reservoir, pumping station, elevated tank and tower, mains, connections and fire hydrants for the town of Millington and to build and construct a sewerage system, including a sewerage disposal plant for the town of Millington; to provide for the issuing of Bonds for the purpose of such construction and the levy of taxes, assessments and benefits for the payment of said bonds and the operation, maintenance, regulation and control of said systems and to provide for the right to condemn property.

Section 1. Be it enacted by the General Assembly of Maryland, That the Commissioners of Millington, Kent County, Maryland, be, and they are hereby authorized, empowered and directed to build and construct a Water Supply System for the Town of Millington, Kent County, State of Maryland, including drilled wells, receiving reservoir, pumping station, elevated tank and tower, mains, connections and fire hydrants to be erected in said Town and to build and construct a Sewerage System for the Town of Millington, Kent County, State of Maryland, including a Sewerage Disposal Plant to be erected in said town or in the suburbs thereof; and to run and operate the said Water Supply System and the said Sewerage Disposal Plant for municipal and commercial purposes and for the purpose of acquiring by purchase or condemnation whatever property or right of ways, and for doing whatever work, is necessary, therefor. The said Commissioners of Millington are authorized, empowered and directed to borrow money on the faith and credit of said town, not to exceed in the aggregate the sum of Fifty-five Thousand Dollars ($55,000.00), and to issue Bonds therefore to be known as the Millington Water and Sewerage Bonds. Said Bonds shall be signed by the President of the Commissioners of Millington with the Corporate Seal of said Commissioners affixed and shall be registered by the Clerk of the said Commissioners in a Book kept for that purpose.

Sec. 2. And be it enacted, That the said Bonds shall be issued in sums of One Thousand Dollars ($1,000.00) with coupons attached thereto for the payment of interest thereon semi-annually on first days of July and January, in each and every year until maturity thereof. Said coupons to bear the signature of the President of the Commissioners of Millington printed or written thereon. Said Bonds shall be dated the first day of July, in the year Nineteen Hundred and Twenty, shall bear interest from the date thereof at a rate not to exceed 6 per cent per annum, payable semi-annually and shall be exempt from Municipal and County taxation, provided, that if for any reason the commencement of the work of constructing the Water Supply and Sewerage System, as provided by this Act, shall be delayed beyond July 1, Act, shall be delayed beyond July 1st, 1920, then the said Commissioners of Millington are authorized and directed to date all of said Bonds at such period of any year, in which the work of constructing said Systems shall be started, as may be suitable, and to fix the maturity of said Bonds at 57 years from this date, said Bonds and the Coupons thereon to be payable in the same manner herein provided. Said Bonds shall be numbered consecutively and shall be redeemable in the order in which they are numbered, in the sum of One Thousand Dollars ($1,000) in each year beginning two years from the date said Bonds are issued and one bond shall be paid each year thereafter until all said Bonds shall be paid. When the said Bonds shall be executed as herein prescribed the said Commissioners of Millington shall advertise the same in at least two newspapers published in Kent County, and if they deem it advisible in one newspaper published in the City of Baltimore, inviting sealed proposals for the purchase of said Bonds or any part thereof, with the privilege to said Commissioners of Millington to reject any and all bids. The Commissioners of Millington aforesaid may advertise the said Bonds for such length of time as in their discretion is adequate notice to the public and may offer all of said Bonds for sale at the same time, or may offer them at different intervals in such installments and amounts as they may deem it advantageous to said town in carrying on the work of construction or acquiring the property for which the same are issued. The money arising from the sale of said Bonds shall be kept as a separate fund by the Commissioners of Millington to be exclusively used for the purpose of this Act as herein provided and all taxes, charges and assessments levied and collected as hereinafter provided for the payment of the interest and principal of said Bonds shall be likewise kept as a separate fund by the said Commissioners.

Sec. 3. And be it enacted, That the proceeds of the sale of Thirty-eight Thousand Dollars ($38,000) of said Bonds, or so much thereof as may be necessary for this purpose, shall by the said Commissioners of Millington be used and applied exclusively to build and construct a Water Supply System and appurtances and hereinbefore set forth in this Act and that the proceeds of the sale of Seventeen Thousand Dollars ($17,000) of said Bonds, or so much thereof as may be necessary for this purpose, shall by the said Commissioners of Millington be used and applied exclusively to build and construct a Sewerage System and appurtenances as herein before provided in this Act.

Sec. 4. That after the construction of the Water Supply System and the Sewerage System as provided for in this Act by the Commissioners of Millington shall have charge of said Water Supply System and Sewerage System so erected and constructed and shall operate the same with authority to employ and pay such engineer, workmen, laborers and employees as may be necessary to carry on and maintain the same and shall have authority to purchase materials and supplies necessary to operate the same and to make repairs and additions thereto as necessity may require; and to fix, charge and collect Water Rates and Water Rents for the use of the water obtained under said System and to adopt and provide rules and regulations therefor and to fix, charge and collect sewerage rents or sewerage rates for the use of said Sewerage System and to adopt and provide rules and regulations therefor.

Sec. 5. And be it enacted, That after repairs, maintenance, running and extension expenses are paid out of or retained out of the Water and Sewerage rents received by the said Commissioners of Millington from the operation of said Systems, all surplus revenue shall be applied by the said Commissioners of Millington towards the payment of interest on said Bonds as said interest shall be due and payable and towards the payment of the redemption of the Bonds as the same mature from time to time, and the said Commissioners of Millington are authorized and directed in each and every year to levy upon the assessable property in the said town of Millington, such sums of money as may be necessary to pay the interest on said Bonds as said interest shall become due and payable and also to levy such sums in addition thereto as may be required to pay or redeem said Bonds as the same mature from time to time until all of said Bonds shall have matured, which tax shall be levied and collected by the said Commissioners of Millington in the same manner as the town taxes now are or may be hereafter collected and have the same priority, rights, bear the same interest and penalties and in every respect be treated the same as said Town taxes for the Town of Millington now are, and shall be in addition to the taxes which are or may hereafter be collected for the said town of Millington.

Section 6. And be it enacted, That the Commissioners of Millington for the purpose of assessing benefits for the construction of said Water Supply and Sewerage Systems for said town, shall divide all properties binding upon a street, lane, alley or right-of-way, in which a water main or a sewer is to be laid, into four classes. Namely: Agricultural, small acreage, industrial or business, and subdivision property. Immediately upon the commencement of the water supply and sewerage project the Commissioners of Millington are empowered and directed to fix and levy a benefit charge upon all property abutting upon said Water Supply or Sewerage Systems, or both, in accordance with the classification, and shall in writing notify all owners of said properties into which class their respective properties fall and the charges determined upon, naming also in said notice a time and place when and at which said owners will be heard. Such notice may be mailed to the last known address of the owner, or served in person upon any adult occupying the premises, or in the case of a vacant or improved property, posted upon the premises. The classification of and benefit assessed against any property as made by the Commissioners of Millington shall be final, subject only to revision at said hearing. The Commissioners of Millington may charge the classification of properties from time to time, as said properties change in the uses to which they are put. Said benefits shall be levied for said Water Supply or Sewerage construction, or for both, upon the number of front feet abutting upon the street, lane, alley or right-of-way in which the said Water Main or Sewer is placed; provided, however, that no lot shall be assessed on more than one side, that corner losts in this class shall be assessedon that frontage towards which the building does or would naturally face, and that all lots in this class shall be assessed for their full frontage even though a Water Main or a Sewer may not extend along the full length of any boundry, and, provided further, that in the case of irregular shaped lots, and shallow lots fronting on more than one street, the Commissioners of Millington may determine for assessment, and may assess, such length of frontage as they deem reasonable and fair. Front foot benefit charges for Water Supply and Sewer construction shall be uniform for each class of property throughout the town and no benefit charge once levied shall be increased. The amount of the charge per front foot for each class of property for the Water Supply and Sewerage Systems shall be determined from time to time by the Commissioners of Millington as costs and and conditions require. Said benefit charges shall be paid annually beginning the year such construction is begun, by all properties located as above specified, for a period of years coextensive with the period of maturity of the bonds out of the proceeds of which such construction was done, provided, however, that any owner of property in the sub-division, or industrial or business class may, at his option, extinguish at any time said benefit charge by the payment in cash of an amount which if put at interest at 3½ per cent, compounded annually, would yield an annuity equal to the annual assessments for the period for which bonds have, at the time the option is exercised, still to run. The Commissioners of Millington shall at any time permit a connection with a water main or with a sewer by a property owner whose property does not abut on said water main or said sewer and who has not previous thereto paid a benefit for the construction of said Water Supply System or said Sewerage System, provided that the said Commissioners of Millington shall first determine the classification of said property and a front foot charge to be paid by said property owner as though his property abutted on said Water Supply System or on said Sewer System in on said Sewer System and in the event of such connection being made said property owner and said property as to all charges, rates and benefits, shall in every respect stand in the same position as if the property abutted upon said Water Supply System or said Sewer System. The annual benefit charges as above specified shall be a first lien upon the property against which they are assessed subject only to prior State, County and Municipal charges, and shall be enforced by a judgment upon complaint of the Commissioners of Millington, before any Justice of the Peace or by the Circuit Court of Kent County, and usual execution thereon. No such annual benefit charges shall continue as a lien for a period longer than two years from the date from which the same became in default, unless it is reduced to a judgment and duty recorded among the records of the office of the Clerk of Kent County. Said benefit charge shall be payable at the office of the Commissioners of Millington immediately upon being levied, and shall be in default after sixty days from that date; and said levy and any judgment obtained as a result of the default of the payment thereof, shall bear interest at the rate of 6 per cent annum from and after the time said levy is in default.

Section 7. And be it enacted, That before any plumbing or sewer construction is done in any building or upon any private property within the corporate limits of the town of Millington, the person, firm or corporation doing the same shall first obtain a permit from said Commissioners of Millington, and to pay therefor such reasonable sum as the Commissioners of Millington may prescribe. Such work shall be done under and pursuant to such rules, regulations and requirements as the Commissioners of Millington may from time to time formulate, and subject to such inspection as may be necessary. No connection of any kind shall be made with any water or sewer mains constructed by said Commissioners of Millington without a permit and under such conditions as said Commissioners of Millington may authorize. Said Commissioners of Millington shall have the right of entry at reasonable hours to all buildings and premises having any connection with the Water and Sewerage Systems under its jurisdiction and may order and require such changes in all water and sewerage connections as they may deem necessary. No private or semi-public water or sewerage installation intended for the use of two or more buildings or premises shall be constructed in said town of Millington without the person, firm or corporation doing the work having obtained a permit from said Commissioners of Millington and pay a reasonable charge therefor and such plant shall then be installed, maintained and operated under such rules and regulations as said Commissioners of Millington may require or devise. Any violation of any of the provisions of this Section shall be deemed a misdemeanor punishable under Section 12 of this Act.

Sec. 8. And be it enacted, That any employee or agent of the said Commissioners of Millington shall have the right of entry at all reasonable hours upon any private premises and into any buildings in the town of Millington while in the pursuance of his official duties and any restraint or hindrance offered to such entrance by any owner or tenant or agent of said owner or tenant shall be a misdemeanor punishable under Section 12 of this Act.

Sec. 9. And be it enacted, That the Commissioners of Millington may enter upon any State, County or Municipal Street, road or alley or any public highway for the purpose of installing, maintaining and operating the Water and Sewerage Systems provided for under this Act, without the receipt of a permit or payment of a charge, provided that whenever any State, County or Municipal Highway is to be disturbed the proper authorities having control thereof shall be duly notified and provided further that said highway shall be repaired and left by the Commissioners of Millington in the same, or a not inferior condition to that existing before being torn up, and that all costs instant thereto shall be borne by the Commissioners of Millington.

Sec. 10. And be it enacted, That any individual, firm or corporation having buildings, conduits, pipes, tracts or other physical constructions in, over or under the public roads, streets or alleys of the town of Millington which shall block or impede the progress of the water or sewerage systems of the Commissioners of Millington while in progress of construction and establishment, shall upon reasonable notice from said Commissioners of Millington, promptly so shift, adjust, accommodate or remove the same, at their own cost and expense, as to fully meet the exigencies occasioning the said notice, and should the exigencies of any case involve a taking, in the constitutional sense, of the franchise or right in the exercise of which such obstruction had its origin, the Commissioners of Millington shall be empowered to condemn as easement in said franchise or right. Any violation of the provisions of this Section shall be a misdemeanor punishable under Section 12 of this Act.

Sec. 11. And be it enacted, That the Commissioners of Millington shall have the power to have condemned such quanity of land as they may deem necessary in order to carry out the provisions of this Act under the provisions of Chapter 463 of the Acts of the General Assembly of Maryland, passed at the January Session of 1914.

Sec. 12. And be it enacted, That every act or omission designated as a misdemeanor in this Act, unless otherwise provided, shall be punishable before any Justice of the Peace, or in the Circuit Court for Kent County, and shall be brought by warrant or indictment upon the oath or information of any member of said Commissioners of Millington or any employee thereof, and the offender shall upon conviction be subject to a fine not exceeding One Hundred Dollars or thirty days in the County Jail, or both, in the discretion of the Court, or Justice of the Peace. Where such act or ommission is of a continuous nature, and is persisted in, in violation of the provisions of this Act, or any rule or regulation formulated thereunder, a conviction for one offense shall not be a bar to a conviction for a continuation of such offense subsequent to the first or any succeeding conviction.

Sec. 13. Be it enacted, That all acts and parts of acts inconsistent with the provisions of this Act, be and the same are hereby repealed to the extent of such inconsistency, provided that nothing herein contained shall be taken as affecting Chapter 810 of the Acts of the Maryland Legislature of 1914, nor as restricting any control which the State Board of Health of Maryland is empowered to exercise within the corporate limits of the Town of Millington.

Sec. 14. Be it enacted, That as a preliminary and pre-requisite to the exercise of the power and authority hereby granted and conferred the sense of the voters of the town of Millington who are qualified to vote at any election held in the town of Millington for Commissioners of Millington shall be first taken and had hereto at an election to be held for the purpose in the town of Millington on the 8th day of May, 1920, at some suitable place in said town, selected by said Commissioners of Millington between the hours of 2 p. m. and 5 p. m., the Commissioners of Millington to give at least two weeks' notice of said Election by advertising in one or more newspapers published in Kent County, aforesaid, and any Justice of the Peace selected by said Commissioners of Millington shall preside at said election and if the said Justice of the Peace be not present at the time of the opening of the polls for said Election the Commissioners or a majority of them may hold the same. If anything shall prevent said election from being held on the day so designated, the Commissioners shall appoint another day for holding the same and shall give notice thereof at least five days previous thereto in the manner designated above, when the question shall be submitted to the said voters of Millington as to whether or not said Bonds shall be issued for the building and constructing of the Water Supply and Sewerage Systems in the town of Millington as provided in this Act. And at said election this question shall be summitted on separate ballots prepared for the purpose by the Commissioners of Millington, which said ballots shall have the words "For Millington Water Supply and Sewerage Bonds," and "Against Millington Water Supply and Sewerage Bonds," thereon, and if a majority of the votes cast at said election upon said ballots shall be "For Millington Water Supply and Sewerage Bonds." then and not before the Commissioners of Millington shall proceed to execute the powers and duties imposed upon them by this Act. But if the majority of the votes cast at said election upon said question shall be "Against Millington Water Supply and Sewerage Bonds," then this Act shall be of no effect; provided, however, that the Commissioners of Millington shall have the right to have the same question voted upon in the same manner at any succeeding municipal election when the said Commissioners of Millington may in their discretion submit said question, and when so submitted and favorably passed upon by the voters aforesaid the provisions of this Act shall become immediately effective.

Sec. 15. And be it enacted, That this Act is hereby declared to be an emergency law and necessary for the immediate preservation of the public safety, and being passed upon a yea and nay vote supported by three-fifths of all the members elected to each of the two Houses of the General Assembly, the same shall take effect from the date of its passage.

By order of the Commissioners of Millington,

R. J. TAYLOR, Clerk.
