Entrance Examinations

State Scholarships in Engineering Courses

ENTRANCE EXAMINATIONS for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in the Civil Engineering Building, Homewood, Monday to Saturday, June 21-26, 1920, beignning at 9 a. m. each day under the auspices of the College Entrance Examination Board.

APPLICATIONS FOR SCHOLARSHIPS IN THE DEPARTMENT OF ENGINEERING, established under the provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, a competitive examination must be taken Friday, September 17, beginning at 9 a. m. Appointments will be made soon thereafter.

Each Legislative District of Baltimore City and each county of the State, with the exception of Cecil, Harford, Queen Anne's, Talbot and Worcester counties, will be entitled to one or more scholarships for the year 1920-1921, in addition to those which have already been assigned. In the five counties mentioned above, all the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the Department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition is granted to them. The scholarships entitle the holders to free tuition, free use of text-books and exemption from all regular fees. One of the scholarships in each County and each Legislative District of the City carries also the sum of $200. The expense of attendance for those who do not receive scholarships is not greater that at other Maryland institutions.

Scholars may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College.

One scholarship will awarded "At large."

Applicants should address The Registrar, The Johns Hopkins University, for blank forms of application and catalogue giving information as to examinations, award of scholarships, and courses of instruction. The next session begins Tuesday, September 28, 1920. m22-4t

PIANO TUNER.

My Piano Tuner is here, any one wishing to have him tune their Piano in the near future please book your order with me at once so that he can tune your Piano while in your neighborhood as if he has to make a special call for just one Piano the charges would be greater; then too he might not have time to get yours in

WASHINGTON COLLEGE SUSPENDS 60 PUPILS

Students Are Sent Away For Week Because Of Refusal To Attend Chapel—Athletic Games Canceled.

As announced in the News last week three-fourths of the students of Washington College, numbering about 60, were suspended for a week for refusing to attend chapel exercises in the morning. They have been sent to their homes. Among them were several girls.

The penalty was imposed by the faculty, following what is said to have been concerted action on the part of the students to absent themselves from the chapel exercises.

The first move in the situation that resulted in the wholesale suspension came Monday. The faculty, at its meeting that day, discussed the waning attendance at chapel. It developed, it is said, that there was no very severe penalty prescribed for absences from the exercises, so a regulation was passed imposing the penalty of a week's suspension for all those who absented themselves between then and the end of the college term in June. The faculty members, admitting that they themselves set a poor example to the students by irregular attendance, agreed to be present regularly at the exercises.

Nothing happened until Wednesday, when about three-fourths of the students were absent from the exercises. A special meeting of the faculty was called in the morning, and it was decided to give the students a second chance. They were notified that the penalty would be put into effect on any student absent from a special chapel service at 1.15 that afternoon.

When the special exercise was held, only about one-fourth of the students were present. A few others had presented execuses, which were accepted. All other students were forthwith suspended by the faculty.

Ringleaders Escaped.

It is said that several students who were ringleaders of the concerted "strike" against chapel have not been suspended. These students, it is said, changing their attitude at the last moment, attended the special exercise in the afternoon, leaving those they had led into the "strike" to suffer the penalty.

Classes have been held at the college with the remaining 20 or more students who were still permitted to attend. Athletic games, however, have had to be canceled. A baseball game was to have been played with Western Maryland Friday, and this was called off, together with another game for Thursday.

Dr. Clarence Gould, president of the college, said that the drastic action on the part of the faculty does not indicate any trouble with discipline among the students of any long standing.

"The only trouble we have had of any account during the past few months," he said, "was with the seniors, in connection with their orations. They are reqquired, under the college charter, to deliver these orations at a preliminary to graduation. At the last time for delivery of the orations, several of the students stayed away, but this is the only affair of any consequence we have had to deal with. It has no relation to the action Wednesday. The action is final. It will not be retracted by the faculty."

IN MEMORIAM

In sad but loving remembrance of our daughter, ANNIE LOUISE GALE, who departed this life 4 years ago May 25th, 1916.

Days of sadness still come over us,
Tears of sorrow silently flow,
Fond memory keeps our dear daughter with us
Though Heaven claimed her four years ago.

The depths of our sorrow, tongues cannot tell,
At the loss of one we loved so well,
And while she lies in peaceful sleep,
Her sacred memory we shall always keep.
By her loving Mother and Father.

In youth like a bud in its fragrance and bloom,
Death bore her away to the sad, silent tomb,
And left us in sorrow, in grief and in tears,
That cannot be effaced by the passage of years.

For I think I hear Louise singing
With the angels of Jesus there
Where no sorrow can come near her,
And he takes away all care.

Grandma, her lone, sad watch will keep
Near thy resting place
Until the shadows flee away
And I shall behold thy face.

REMARKABLE RECOVERY

Extraordinary Curative Power of Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. You can publish this and I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 1525 N. Alder St., Phila., Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

See Our Complete Line of PIANOS and Player-Pianos

Why this store sells pianos cheaper than any other in this section

WE BUY pianos and player-pianos from one of the greatest manufacturers in the world—the House of Baldwin. This company operates two immense factories at Chicago and Cincinnati. They produce thirty thousand instruments a year. They make every part of every instrument. They have reduced the manufacture of pianos to a science. Big output, complete facilities and systematic economy enable them to produce high-grade pianos at the lowest cost. Their instruments cost us less than any others of supposedly equal grade. We can sell cheaper because we buy cheaper.

WE DEAL directly with the manufacturers. We are, in fact, one of the two thousand representatives that constitute the House of Baldwin. The instruments pass directly from the factory to us. We pay no profits to jobbers or middlemen of any kind. The only amount we pay above the actual cost of making is the manufacturing profit. This is very small because the House of Baldwin prospers through volume of business—not because of exorbitant turnover on each instrument. We can sell cheaper because we do not have to pay several profits.

WE maintain no expensive selling force. Every piano is sold by us. We do not have to pay agents' commissions. We ask you simply one fair profit above the rock-bottom price of the instrument to us. Our personal, simple, individual way of doing business saves many a dollar on every sale, thus enabling us to mark every instrument unusually low.

By coming to this store for piano or player-piano you can be sure of eliminating all extra profits, you can enjoy the many advantages of dealing practically directly with the factory and you can get one of the famous House of Baldwin instruments that are known the world over for artistic excellence, remarkable durability and unequaled all-round value.

Performance in The Hands of Thousands of Owners

has given the Cletrac its leadership in the Tractor field. All—yes, more than Rollins H. White, designer and builder of the Cletrac, claimed fo it, has been done by Cletrac farmers.

When the farmer buys a Tractor he wants a complete hauling and stationary power service, not simply a Tractor that will plow. A Cletrac meets this need in every way. It has only 4¼ pounds of weight per square inch on your fields. The same as your roller or cultipacker, therefore, does not injure your farm by packing the soil too much.

The Cletrac was designed not only to do a good job of plowing, but all kinds of farm work, and all kinds of hauling under all kinds of conditions. It fits the seed bed, as well as it plows; it does the seeding and harvesting; the hay making and threshing; the farm hauling; the wood sawing; silo filling and road building.

When in town stop in and see this wonderful little Tractor work, get a descriptive catalogue and arrange for demonstration, so as to assure prompt delivery, as the factory is back with orders. The Canadian Government has a contract for 1000 Cletracs, at once. We had more Cletracs in the Great War than any other maker of Tractors. See me before you buy.

They used to call a man a "sport" when he bought an automobile

THAT was before the days when pretty nearly everybody owned one—or could, if he wanted to.

There was a lot of waste about motoring in those days. A man spent a lot of money on his car and never thought very much about *what he was getting* in return.

II

When a man buys a tire nowadays he has a *pretty definite idea* of what he expects to get out of it.

The dealer who sells him one that gives him *less* than he expects isn't likely to get any more of his business.

That's one of the reasons why we handle U. S. Tires—and *recommend them* to the motorists of this community.

III

The U. S. reputation for quality is *not* built on *any one* tire.

There is not *one standard* for large U.S. Tires and *another standard* for small ones.

Every tire that bears the name "U. S." is built the *best way* its makers know how to build it. The *oldest* and *largest* rubber concern in the world *cannot afford* to play favorites in seeking its public.

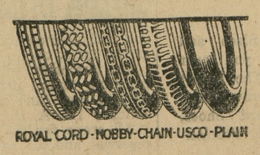
IV

Come in and tell us what you are looking for in tires.

We can probably tell you whether you need a U. S. Nobby, Chain, Usco, Plain, or a Royal Cord.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.



For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.
