Entrance Examinations

State Scholarships in Engineering Courses

ENTRANCE EXAMINATIONS for the Department of Engineering, as well as for the College of Arts and Sciences, will be held in the Civil Engineering Building, Homewood, Monday to Saturday, June 21-26, 1920, beignning at 9 a. m. each day under the auspices of the College Entrance Examination Board.

APPLICATIONS FOR SCHOLARSHIPS IN THE DEPARTMENT OF ENGINEERING, established under the provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, a competitive examination must be taken Friday, September 17, beginning at 9 a. m. Appointments will be made soon thereafter.

Each Legislative District of Baltimore City and each county of the State, with the exception of Cecil, Harford, Queen Anne's, Talbot and Worcester counties, will be entitled to one or more scholarships for the year 1920-1921, in addition to those which have already been assigned. In the five counties mentioned above, all the availible scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the Department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition is granted to them. The scholarships entitle the holders to free tuition, free use of text-books and exemption from all regular fees. One of the scholarships in each County and each Legislative District of the City carries also the sum of $200. The expense of attendance for those who do not receive scholarships is not greater that at other Maryland institutions.

Scholars may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College.

One scholarship will awarded "At large."

Applicants should address The Registrar, The Johns Hopkins University, for blank forms of application and catalogue giving information as to examinations, award of scholarships, and courses of instruction. The next session begins Tuesday, September 28, 1920. m22-4t

To Keep American Ships on the Seas

For the first time since the Civil War we have a real merchant marine. It cost us $3,000,000,000 to get it.

The farmer, manufacturer, laborer—every American is interested in holding our position on the seas.

As a first step in this direction it is necessary to modify those articles of existing commercial treaties which have operated to thwart the upbuilding of our merchant marine—

By giving the notice of termination for which the several treaties provide.

This action is directed in the constructive Shipping Bill now before Congress;

Which declares it to be the policy of the United States "to do whatever may be necessary to develop and encourage" a merchant marine.

This policy deserves the support of every American.

Lacking this support the present effort to maintain our merchant marine may suffer the fate of many ineffective attempts of the past.

Send for a copy of "For an American Merchant Marine."

E. L. L'COMPTE GAME WARDEN

E. Lee Le Compte, State Game Warden, under the previous administration, was reappointed to the office Monday at the first meeting of the new Conservation Commission. The new commissioners, Harrison W. Vickers, of Chestertown, E. O. Weant, of Westminster, and Capt. E. J. Plowden, of St. Mary's county, spent more than two hours in conference, after which it was announced that no changes would be made, for the present, in the more important positions within the gift of the commission.

Among those it was decided to retain are Samuel A. Harper, chief clerk; H. H. Johnson, auditor, and Miss G. A. Poehlman, secretary. Mr. White, of Baltimore, was named as deputy game warden in place of Mr. Denmead.

The appointment of Mr. Le Compte as game warden assures the continuance of the extensive game breeding program which the warden has made his hobby during the past year, and which has led to a large development of the State game farm during that period. Pheasants from the West and rabbits now are among the most numerous residents of the farm and will be used to stock Maryland fields and woods at the proper seasons.

The new commission officially took over the offices in the Munsey Building at noon and at once went into session.
