NEWS GATHERED ON THE PENINSULA

Asks Dredging Of Taylor's Landing

The Board of Worcester County Commissioners, in session at Snow Hill on Tuesday, unanimously approved resolutions urging Congressman David J. Ward, of Maryland, to introduce legislation at Washington, calling for a Federal survey of the harbor and channel at Taylor's Landing, 2 miles from Girdletree, with a view to obtaining appropriations for dredging the harbor and channel for a distance of one mile, as an aid to navigation.

Blind Singer Drops Dead In Choir

Singing lustily in his accustomed bass voice, Frank G. Garey, the blind bass singer of Calvary Methodist choir, Easton, dropped in his tracks in the choir loft last Sunday night as he was standing singing the chorus of the hymn "Savior more than life to me." Previous to the regular Sunday evening service, a song service was rendered, after which the regular services were begun by singing the above hymn. When the chorus was reached Mr. Garey was seen to drop in his seat with his head limp as he sang "Every day, every hour." These were his last words.

Negro Woman Dies At Age Of 112

"Aunt" Rachel Stanley, believed to be Maryland's oldest citizen, is dead at 112. The venerable negro woman, whose age has been authenticated by county authorities, died Sunday at the home of her daughter, Betsy Ann Stanley, herself an octogenarian, at her home near Federalsburg.

Plenty Of Spills At Oxford Races

There were plenty of thrills during the Tred Avon Yacht Club races last Sunday. Three boats in the Scrappy class capsized in the stiff breeze, and only five out of a fleet of ten finished. The Misses Carreau in Salty turned over just after the start. John Wilford and Pole Kitten were next, and Weyman Delahay in Catnip followed.

Lightning Kills Three Cows

Three valuable cows, owned by Medford Timmons, farmer of Campbelltown, Worcester county, were instantly kiled during a thunder storm around 11 o'clock last Saturday morning, when a bolt of lightning struck a tree beneath which the animals were standing.

Fire Destroys Lumber Yard

Fire caused a loss of $25,000 last Saturday at Fruitland, Md., when the large wood-working plant of the long Lumber Company was destroyed. Fifteen fire companies fought the flames and prevented their spread to other property.

Firemen threw a curtain of water into the air to prevent the flames from leaping to the food packing plant of John H. Dulany & Sons and sheds where some of the seasoned lumber of the Long company was stored.

Raid Slot Machines At Ocean City

John Lambros, restaurant owner, at whose Ocean City boardwalk establishment eleven machines, nine of them gambling devices, were seized in a raid last Friday night, was found guilty Saturday on charges of violating the State gambling laws and fined $200 on two charges by Judge Fred A. Culver at Berlin.

Asks Federal Aid For Harford Hospital

An appeal by the executive committee of the Harford Hospital will be made to the Federal Government for a $61,000 grant for use in construction of a new hospital building. The board has already raised $10,000, and the legislature authorized the issue of $50,000 in bond. Architect Ballenger of Philadelphia, who is making the plans has repeatedly called attention to the fire danger in the present building.

Roads Commission To Enforce Truck Law

The State Roads Commission has not enforced a law limiting the weights of trucks using Maryland highways since the summer of 1936, it was revealed for the first time this week to Ezra B. Whitman, chairman of the State Roads Commission.

When he learned that a special staff which had been enforceing the law had been disbanded three years ago, Mr. Whitman immediately asserted:

"I think it is criminal not to enforce the law. This is the zero hour for the truckers. We'll start enforcing the law just as soon as we can organize a road gang."

To Exhibit Grand Champion Steer

Maryland stockmen and members of 4-H livestock clubs will have an opportunity to see the type of steer that is awarded highest honors at the International Livestock Exposition, according to plans for showing the Grand Champion of that Exposition in 1938 at a number of points in this State. The tour of the champion steer in Maryland will be made some time in August and the exact dates and itinerary wil be announced well in advance, it is stated by Joseph M. Vial, extension animal husbandman of the University of Maryland, who is in charge of arrangements.

Especial interest of 4-H club boys and girls attaches to the showing of this steer because of the fact that it was raised as a part of a 4-H club feeding project.

A tentative schedule for Maryland includes showing at College Park, Frederick, Hagerstown, Baltimore and Centreville, and possibly Westminister and Bel Air.

Wheat Crop Reported Short

The Maryland University Crop Reporting Service said today recent dry weather had brought wheat crop prospect to 13 per cent below the average.

The state crop will be about 7,334,000 bushels, compared to the average 8,419,000, the service estimated.

May rainfall was only 36 per cent of normal and canning crops of peas suffered. Present indications point to a better-than-average crop of apples and peaches.

The service said the corn crop in Delaware was making poor growth, the strawberry crop had been cut short and prospects were poor for wheat. The fruit crop was reported better than average.

Large Shoe Factory in Harford Co.

Construction work on the 1st unit of the large factory which the Bat'a Shoe Company, Inc., will establish on a nearly 2,000-acre tract at Belcamp, Harford County is to begin next week. Production of shoes is scheduled to begin this fall.

Arrangements have been made, it was said, with the Federal Department of Labor to permit one hundred skilled workmen to enter this country for a year from the home factory of the concern ,located in the former Czecho-Slo-vakian community of Zlin, now in German territory.

These workmen will assist in setting up the special machinery and in instructing American factory workers in operating it, it was reported.

Work On Dual Highway Started

Preliminary work to the actual construction of the dual highway between Big Elk and the Delaware State line, two miles east of here, is progressing quite rapidly. The grading has about been completed for over a mile. Work of laying concrete will not be started for quite a long time.

We understood that work over part of the route is being held up by landowners. Work on the bridge across Big Elk creek was to have been started in the near future, but has been delayed.

Methodist Camp Near Rising Sun

The Methodist Pioneer Camp, sponsored by the Wilmington M. E. Conference Board of Education, for boys and girls between the ages of 12 to 16, will be held at Camp Horseshoe, two miles north of Rising Sun, from June 2th to July 2nd. There will be 25 teachers and counselors on the faculty, and each faculty member will be directly associated with eight campers.

Manufacture Most Silverware

Providence, R. I., and Newark, N. J., are the chief centers of silverware manufacture in the United States.

STILL POND
