DEMOCRATS' CHOICE WAS BORN ON FARM

Was Printer's Devil, Reporter, Newspaper Owner And Successful in Business.

James Middleton Cox was three times governor of Ohio—an honor enjoyed by only one other Ohian, Rutherford B. Hayes.

Born on a farm, educated in the public schools, a printer's devil, a school teacher, a newspaper reporter, a private secretary to a congressman, owner, manager and proprietor of two newspapers, member of congress three years and three times governor of his state is his record to date.

Business success paralleled his political achievements and through his own efforts Cox has amassed a fortune. Mr. Cox became the leader of the Democratic party in Ohio in 1912 when he was nominated for governor. As one who had brought radical changes in the State constitution, he took the field in its behalf. His first term as governor was devoted chiefly to forwarding the enactment of laws to put the new State constitution into effect.

But Ohio evidently was not prepared to assimilate all the new laws for Cox was defeated for re-election. But his party renominated him in 1916 and was re-elected for a third term in 1918, being the only Democrat to win in Ohio.

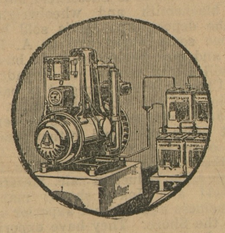
Legislation for which Governor Cox is best known includes a model workmen's compensation law and a child labor law which have been extensively copied by other States. Educators of the country say the Ohio school code, enacted under Governor Cox's direction, will live as a monument to his achievements.

Mr. Cox was born in Butler county, Ohio, in 1870. He attended district school and held this first position as a teacher of the school in which he took his first lessons. He spent evenings and holidays in a printing office. In a few years he received his first assignment on the reportorial staff of the Cincinnatti Enquirer.

After 10 years with the Enquirer, he went to Washington as a private secretary to Congressman Paul Sorg of Ohio. At the close of this service, he purchased the Dayton Daily News, borrowing most of the money to pay for it. Later he purchased the Springfield Daily News. He was first elected to Congress in 1908.

He recently purchased the farm near Jacksonburg upon which he was born, and is making it into a modern farm home where he expects to live on retirement from public office. He married and has four children.

AN ELECTRICAL WORK ROOM



DELCO-LIGHT
"Electricity for every Farm"

Delco-Light enables you to have an electrically equipped work-room by furnishing complete electric service. Bright electric lights for working in the evenings after chores. Electric power for operating lathes, drills, grinders and sharpeners.

f14 ELLICOTT CITY, MD.

PRODUCTION NOT REDUCTION
Is What the World Seeks

PRICES of some things have been temporarily reduced; prices of other commodities remain about as they have been for months past. So long as people leave the farms to flock to the already overcrowded cities, creating an acute shortage of housing facilities, prices for building materials are likely to remain about on the present level.

IF DEMAND continues to exceed supply, you will be able to build as cheaply now as you can later in the year. Whatever your problem may be it will pay you to come in and talk over your plans, to get estimates. Remember that our architectural service is at your disposal entirely free of charge. And we can at least get acquainted.

PRODUCTION is about the only thing that will bring prices of anything down to a permanent lower level. If you can foresee increased production in all industrial lines, you might wait: but if you can't see larger supplies for the future, don't take a chance. Come in today.

CHESTERTOWN BRANCH

How many miles did you march the summer Cleveland was nominated

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

II

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the *people who pay the bills.*

The bills are getting *too big* these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a *moderate-price car.*

III

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it *more than anyone else.* It's part of our job, as we view it, to see *that he gets it.*

Our tire service starts with *good tires*—U. S. Tires. *All sizes* made to a *single standard* of quality—none graded down to the price of the car they will go on.

U. S. perfected the first *straight side automobile tire*—the first *pneumatic truck tire.*

The U. S. guarantee is for the *life of the tire,* and not for a limited mileage.

IV

When we recommend and sell U. S. Tires we do so in the interest of *greater tire economy.* It is our experience that that is the *best way* to build up a sound and sizable business.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.
