Last Sunday, February 27th, was to have been our missionary anniversary at Still Pond Church. Unfortunately the day was stormy and some roads almost impassible. The missionary report had to be postponed; so the classes will make their final reports at Easter. Miss Lillie Dexter Green was present as announced. She gave a very telling address in the morning telling of her first visit to India 26 years ago, and telling us many interesting things about herself and work over there. In the evening she told of her raising money in America nine years ago to found a school for girls in Lahore, India. She told something of her multitude of difficulties in getting her school built on meagre funds and of the wonderful possibilities of a Christian school for the girls of a heathen land. All alone in a great heathen city, where honor among builders seemed entirely unknown she managed to get her school built so substantially that earthquake shocks have left it unharmed. The saints and martyrs of the past have worthy successors today. It must also be said for them that they are diligent and wise in business, making every dollar count in the spread of the gospel. In the afternoon Miss Green and Mrs. L. B. Harper, accompanied the pastor and his wife to Betterton where they formed a new society of the Woman's Foreign Missionary Society.

Miss Elizabeth Reed entertained the Triangle Club Tuesday evening. Several new members were voted upon and the first initiation proved quite interesting. Refreshments were served and enjoyed.

Wallen after which the pastor will preach from the subject "The Living Seed." A Junior Epworth League was organized by the pastor yesterday afternoon. Miss Isabella Wiest has been appointed superintendent; Miss Carrie Wiest will assist with the work. This new organization will meet for their first devotional meeting on Friday afternoon at 3 o'clock. The weekly prayer meeting will be held on Friday evening at 7.30 o'clock.

THE LEROYS IN MUSICAL SPECIALTIES

Fordson

THE Ford Motor Company have just issued a book called "The Fordson at Work." This book is given free. Call in and get one. If you cannot call, write and we will mail you one without charge. It is not what the Ford Motor Company says about the Fordson Tractor but what the army of users have to say. This book voices the hardest kind of practical experience. It shows in illustration the Fordson Tractor at actual work along some ninety different lines of activity. It shows in these illustrations the wonderful versatility and utility of the Fordson Tractor. Shows it to be, beyond all question, the one bit of machinery that is a necessity, not only on the farm but along many lines of commercial business; especially does it show up the Fordson as a valuable servant on the farm. With it the farmer is relieved of the hard work; because he can take advantage of the weather in preparing his seed bed; he can do it at the right time; the same is true when it comes to harvesting. It solves, to a great extent, the problem of scarcity of labor.

With its wonderful, reliable power, it brings to the farm home all the conveniences, in the way of running water in the house, electric lights, operation of the washing machine, churning, separating the cream from the milk; it assumes and takes to itself the drudgery of farm life both in the field and in the house and it is only a matter of a few years until it will be as universal in its service on the farm as is the farmer himself. It will become a part of farm life; a beneficial part; a profitable part. Get order in for there's a rush coming.

Endowment Insurance

Endowment Insurance is a contract to pay a definite sum to the holder at the end of a definite term of years. Ie he does not live until the end of the period the sum is payable at once upon his death to the beneficiary named or to his estate. It combines life insurance with savings. It gives the largest investment coupled with protection. It is a favorite with those whose chief aim is to save a sure fund for old age, but who still wish to increase the family income if death occurs before the endowment matures.
