THE CHESTERTOWN TRANSCRIPT

Entered as second-class matter at the Postoffice, Chestertown, Md., in accordance with Act of Congress.

Publishers—R. H. Collins, & Sons.

Published every Saturday at The Transcript Building, Court Street, Chestertown, Maryland.

SATURDAY, OCTOBER 7th, 1939

THE LAST but not least horse show of the season will take place next Thursday when the Middle Kent Show will be held on the Hanson farm near Lynch. The Middle Kent Hunt Club, organized last year, has proved itself to be a real livewire group whose interest in hunting and show horses is not confined to the annual show but hold various private activities throughout the year. Evidence of an outstanding show next Thursday is the fact that at the time of going to press 75 horses had been entered. The show will be an all-day affair and will be of interest to all who are interested in fine horses. The proceeds are for the benefit of the hospital.

WHEN THE Circuit Court for Kent County convenes on October 16th, three Circuit Court Judges will be on the bench which in past sessions has been unusual due to the fact that the Chief Judge is generally at the Court of Appeals when Court is in session here. The third judge who will sit here this week is Judge Evans, of Elkton, recently appointed by Governor O'Conor following the passage of an act of Legislature creating a judgeship from that county. This new appointment should assure at least two judges present at all Court sessions allowing the absence of one due to illness or legal business elsewhere.

IF PLEASANT plans materialize Chestertown will soon be free of unlicensed dogs. The County Commissioners on Tuesday adopted a resolution for the establishing of a dog pound here that promises to remove local garbage cans from the happy hunting ground of stray dogs. In the dog world, only the privileged will survive and strays will do well to attach themselves to some master who is willing to pay $1.00 a year to keep them from an early entry into dog heaven. The Commissioners action is in answer to numerous complaints from town officials and groups of individuals who have protested against the strays being allowed to run at large. The Mayor and Council of Chestertown offered to cooperate with the Commissioners by offering a location for the pound. According to license tags issued this town has a censused dog population of over 300 or one dog to every ten people which is certainly enough without the uncensused or stray dogs.

KENT COUNTY is about to elect a Queen of the Country Fair and the only requirement to vote is the sum of one penny. It will differ from most political elections in the fact that there will be no speeches and one may vote as many times as they wish provided that their wishes and pennies come out even. While the election of the queen is serious business yet the big idea is that every penny spent on votes goes toward the building fund of the Kent and Queen Annes hospital. This fund, while still far short of its goal is being gradually increased by activities such as the Country Fair whereby the individual contributions are small and one receives amusement in return for the money expended. The hospital auxiliary has proved itself to be an efficient, well managed organization and their efforts to maintain and enlarge the hospital certainly deserves the support of the community. Vote often for your favorite for Queen of the Country Fair. It will make a lot of people happy.

THE FACT that the youth of today are taking life more seriously than those of former years, particularly along educational lines, was evidenced last week when Washington College authorities abandoned the plan of establishing a Federal pilot training course due to lack of applicants. The lack of applicants was attributed to the fact that the course interferred with the regular course of studies. When a young man places his studies above the privilege of receiving a $700 airplane pilot course that includes both ground and aerial training and leads to a pilots license free of charge, he is taking his studies seriously and is not going to college just for the fun of it. If education can solve the problems of the world the prospects of the future are certainly bright.

PROBABLY NO profession in the world has so many unsung heroes as the medical profession and developments in recent years have practically stamped out many of the dreaded diseases that have taken the toll of thousand of lives in past years. The particular feature of these developments is the fact that they have been brought to the price where the poor as well as the rich may benefit. A drug by the name of Sulfao-pyridine has recently been discovered for the cure of pneumonia which has proved to be about as effective as the more expensive serum. In fact the small cost of this newly discovered drug has made possible its use by the public health departments of Maryland and in the future will be furnished to pneumonia victims free of cost. Its use thus far has reduced the deaths from pneumonia almost to a minimum yet only a handful of people will ever know the name of the person or persons who discovered it.

THE PRESENT debate in Congress over the neutrality bill proves both the fact that the United States will become involved in the war and that it will not if we are to take seriously the statements of advocates of both sides. The repealers say that the present law will involve us in the war, the anti-repealers say that a repeal of the present law will involve us in the war. The repealers say that a repeal of the law will assure peace and the anti-repealers say the present law will assure peace. This all means that we are going to have both peace and war regardless of what happens so there is not much use of Congress staying in session. Of course somebody must be wrong. We believe that the best way to have peace is stop the war and it is certainly evident, in our opinion, that the repeal of the present neutrality law will help bring this about and in a way that would be very welcomed in America.

THE TRUTH SIMPLY TOLD

Today's popularity of *Doan's Pills*, after many years of world-wide use, surely must be accepted as evidence of *satisfactory* use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend *Doan's Pills* as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use *Doan's Pills*. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. *Ask your neighbor!*

Embarrassing

When *Acid Indigestion, Gas on Stomach or Heartburn* make you feel uncomfortable or embarrass you, try Alka-Seltzer, which contains alkalizing buffers and so helps counteract the associated Excess Stomach Acidity.

But the relief of these minor stomach upsets is only a small part of what you can expect Alka-Seltzer to do for you. You will find it effective for Pain Relief in *Headache, Neuralgia, Colds and Muscular Aches and Pains.* It contains an analgesic, (sodium acetyl salicylate), made more prompt and effective in its pain-relieving action by alkaline buffer salts.

When hard work or strenuous exercise make you feel tired and dragged out, enjoy the refreshing effect of a glass of sparkling, tangy Alka-Seltzer.

At Drug Stores in packages and at drug store soda fountains by the glass.

THOSE WHO REMAIN

When death visits a home, the first concern is to perform the last service to the loved one in a becoming manner. What ever is done must express all the reverance and affection that is felt at such a time. But in addition to this a further responsibility rests upon the funeral director. It is his privilege and duty to lessen as far as lies with in his power, the burdens laid upon those who remain. By countless little acts of thoughtfulness he can make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends, ready and anxious to render sympathetic assistance to those who remain behind.

R. R. FELLOWS,
Funeral Director.
Still Pond, Md.
