IN THE SPRING TAKE GUDE'S PEPTO-MANGAN

Restores the Quality of Blood. Drives Out Impurities. Builds Up the Red Corpuscles.

IMPROVES THE COMPLEXION

A Standby Among Physicians for 30 Years. In Tablet as Well as Liquid Form.

You notice complexions in the Spring. People who have plenty of rich red blood have lips a deep, rosy red, eyes bright and clear. Good complexions are based on the solid foundation of good blood, with plenty of red corpuscles. When blood becomes clogged with impurities, when the red corpuscles are not absorbing enough oxygen from the lungs and distributing it to the cells throughout the body good complexions fade. Not only that, but you feel tired and exhausted all the time. Your shoulders droop and you lounge around and lean against anything handy. You lack energy because your blood is weak and thin—not enough red corpuscles.

People call it "Spring Fever." Call it what you will, it is bad blood. It weakens powers of resistence.

If you feel that way you should take that exceptionally good blood tonic, Gude's Pepto-Mangan, for a while. It will make rich red blood. For thirty years it has been a standby among physicians. It will help you to build up this Spring. All that comes from having good blood with plenty of red corpuscles will come to you.

When you go to your druggist's be sure to get the genuine Gude's Pepto-Mangan with the name "Gude's Pepto-Mangan" on the package. It is sold in both liquid and tablet form. Advertisement.

NOTICE TO PUBLIC.

Tired

"I was weak and run-down" relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—

CARDUI

The Woman's Tonic

. . . I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

At all druggists.

WASH. COLLEGE ALUMNI ENDOWMENT CAMPAIGN

Committee Organized With John I. Coulbourn, Chairman, And M. Bates Stephens, Executive Secretary.

Letters have just gone out to over a thousand of the alumni of Washing College appealing for support for the Two Hundredth Anniversary Endowment Campaign. For some time there has been talk of such a campaign, but the organization has just been completed.

Mr. John I. Coulbourn, of Philadelphia, a graduate of Washington College in the class of 1897 has been appointed chairman of the Campaign Committee. Other members of the general committee are Dr. W. H. Toulson, of Baltimore; Mr. H. S. Brown, of New York; Senator W. F. Russell, of Chestertown, and Mr. Earl Withgott, of Easton. In addition to these there are advisory committees as follows: Of the Board of Visitors, Judge L. W. Wickes, S. Scott Beck, Esq., and Albert D. Mackey, Esq.; Of the Faculty, Dr. J. S. Wm. Jones and Dr. Clarence P. Gould; and of the student body, W. D. Gould, Jr.

The county has been divided into eighteen districts, in each there is a local chairman. Most of the alumni of Washington College are located in the counties on the Eastern Shore, in Baltimore City, in Philadelphia, and in New York. These regions have been organized into rather small districts, while the whole of the North and West and the whole of the South are made into one district each.

Dr. M. Bates Stephens, recently State Superintendent of Schools, has been selected as Executive Secretary of the campaign.

The present campaign is to be worked mainly among the alumni of this old institution. It is expected that the alumni will raise $60,000 which will about cover the present indebtedness. This sum, it is hoped, will be subscribed before commencement day. After the debt is thus paid, a general campaign for endowment will be begun among all who are interested or ought to be interested in the cause of higher education on the Eastern Shore of Maryland.

Even before the campaign was formally launched meetings had been held in Philadelphia and Wilmington and about $8,000 had been subscribed. Meetings are to be held in most of the eighteen districts during the coming weeks.

This campaign is the result of a movement on the part of the alumni started at the regular annual meeting last June, when it became generally known that during the recent period of high costs the college had become much involved in debt.

Washington College grew out of a school established in Chestertown by the Province of Maryland in 1723. There is a tradition that even before this date a school was already located in the present site. It is thus literally true that the campaign marks the two hundredth anniversary of the institution. A similar campaign was conducted with great success in 1782. Dr. William Smith, who was then president of the school, made a tour on horseback throughout the Eastern Shore of Maryland and Virginia. He raised about $40,000 a very large sum for that day which made it possible to raise the school to college standards and the charter was then obtained from the state legislature. The present campaign is the first general appeal for funds that the college has made since the time of Dr. Smith.

Saturdays beginnig February 26, 1921, steamer leaves Baltimore for Tolchester at 7.00 a. m. and at 2.30 p. m.

Leaves Tolchester for Baltimore at 9 a. m. only.

TOLCHESTER CO.

APRIL FIRST ARBOR DAY

Friday, April 1st, has been designated by Governor Ritchie as Arbor and Bird Day, and he has issued his proclamation, formally calling upon the people of the State, and particularly the school children and teachers, to fittingly observe the day.

LIGHTNING KILLS TWO

Two negroes were killed and a barn destroyed at Woolford Monday, when lightning struck a hay fork in the top of the building. Roland Jones, brother of Edward Jones, Jr., to whom the barn belonged, was in it, but escaped without injury.

The two negroes, James Nichols and Charles Camper, were baling hay under the direction of Roland Jones when the storm arose. Nichols was killed outright, but Camper lived long enough to be carried to his home, about 200 yards distant. So rapidly did the barn burn that it was impossible to remove the body of Nichols, which was almost entirely consumed.

WALTER L. MAIN SHOWS BEING POLISHED UP

Andrew Downie, proprietor of the Walter L. Main Shows, with winter quarters in Havre de Grace, has a big force of men at work "dolling up" the circus paraphernalia, preparatory to opening for the 1921 season on Saturday, April 16.

All the wagons have been newly painted. Mrs. Downie has been in New York for several days purchasing a new wardrobe for the show.

Besides adding many new acts to the show, Mr. Downie this week purchased 22 new horses, six flat cars, three stock cars and one elephant car. He is now in Chicago where he will purchase two new sleeping cars.

The show this year will be the biggest and best ever, and will represent an outlay of several hundred thousand dollars.

What would you do with it?

If constipation were a lighted bomb, would you carry it about with you waiting for someone to put it out? No. You would get rid of it as quickly and effectively as possible.

But constipation, though not so sudden in its effect, is an insidious and grave danger. Leading medical authorities agree that ninety per cent of human illness is caused or aggravated by a clogging of waste in the bowels, and that pills, castor oil, laxative waters and salts only force the bowels and bring greater weakness afterward.

Nujol works on an entirely new principle.

Instead of forcing or irritating the system, *it simply softens the food waste.* This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it.

Nujol is sold by all druggists in sealed bottles only, bearing Nujol trade mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet, "Thirty Feet of Danger".
