A SWEET LITTLE BABY BOY

Makes a Bright Spot in Every Home. A Comfort in Years to Come

Park Rapids, Minnesota.—"I have taken your medicine — Lydia E. Pinkham's Vegetable Compound — when I was a girl for pains and before and after my marriage. I now have a sweet little baby boy and will send you his picture if you wish to publish it. My sisters also take your medicine and find it a great help, and I recommend it to those who suffer before their babies are born." — Mrs. Wm. Johnson, Box 155, Park Rapids, Minn.

To marry and arrive at middle age without children is a great disappointment to many women. Think of the joy and comfort other women have in their children as they grow older.

Lydia E. Pinkham's Vegetable Compound has helped to bring great happiness to many families by restoring women to health. Often the childless home is due to a run down condition of the wife, which may be helped by Lydia E. Pinkham's Vegetable Compound. It brought health and happiness into the home of Mrs. Johnson. Why not to yours?

Railroads Ask Repeal of Burdensome Law

SO-CALLED FULL CREW REGULATION IS COSTLY TO THE PUBLIC

TO THE GENERAL ASSEMBLY OF MARYLAND:

The undersigned Railroad Companies, all operating in the State of Maryland, join in a petition to your honorable body to act favorably on Senate Bill No. 74 introduced by Hon. Walter Mitchell which repeals the so-called full crew law enacted in 1908. This burdensome and wholly unnecessary law requires railroads to man all freight trains of 30 or more cars with crews of six men; viz: 1 Engineer, 1 Fireman, 1 Conductor and 2 Brakemen and 1 Flagman (3 Brakemen). This crew comprises one more Brakeman than the railroads need.

The petitioners respectfully urge the abolition of this extra Brakeman

BECAUSE, the employment of this useless Brakeman is an unnecessary burden on the railroads, and therefore, on the public, which after all "pays the bill." In 1919 the cost was $314,904, in 1920 $496,890, in 1921 (a year of business depression) $367,282, a total, during the past three years, of $1,179,076. During the last ten years this law has cost the Railroads operating in Maryland approximately TWO AND ONE-HALF MILLION DOLLARS, without a single cent in return compensation.

BECAUSE, the extra Brakeman is not needed in the operation of trains. The Federal Government requires automatic couplers and air brakes on all cars and prohibits the use of hand brakes on trains. Two brakemen are sufficient. Then why a third Brakeman?

BECAUSE, the railroads are vitally interested in the safe and economic operation of trains, and are fully qualified to decide upon the size of the crews.

BECAUSE, this law places an unnecessary burden on the railroads and leads to high passenger and freight rates, in which the public is vitally interested. Industry and trade must be revived, which is possible only by removing unnecessary burdens and lessening of overhead charges. The stringency of the times will be partially relieved by the repeal of this law. This repeal does not mean more unemployment; it does mean the transfer of men from useless to useful occupations in other departments, where the money paid them will be more profitably expended in repairing locomotives, cars, tracks, etc.

BECAUSE, Pennsylvania and other states have repealed similar laws. The West Virginia Legislature refused to pass a bill enacting such a law. Virginia and Delaware are without such a law. Therefore, Maryland, alone in this group of States, is hampered by a full crew law.

We, therefore, appeal to your honorable body to repeal this burdensome and unnecessary law.
