SATURDAY, JANUARY 27th, 1940

THE EXTREME winter weather, although handicapping business has given an unusual opportunity for discussing the approaching Democratic primaries at which time a Congressman and United States. Senator will be nominated. Among the Congressional candidates, although Kent County is not directly represented, the candidacy of State Senator Dudley G. Roe offers the nearest to a native son that this county has had for a number of years. Senator Roe, a native of Queen Annes County, lives at Sudlersville, just a few miles from the Kent County border. He is not only a close neighbor but has business dealing with many farmers of this county. He received his college education at Washington College, a Kent County institution and has many relatives and friends here As a young man he interested himself in politics and was elected to the Maryland Legislature when a comparatively young man. Since that time he has had the experience of four terms in the Maryland Senate and during his political career was a strong supporter of former Congressman T. Alan Goldsborough. It is reasonable to believe that the people of this county will be more ably represented by one who is a neighbor and familar with the county and its people than one who lives many miles away and has no direct contact. As to the candidacy for the United States Senate, the Democrats from this county will choose between Mr. Howard Bruce and the present United States Senator George L. Radcliffe. Mr. Bruce is outstanding business men of this State. Starting out as a young engineer, he rose in the business world to great accomplishments in the State of Maryland. His connections with businesses which employ thousands of men and his experience as a banker handling huge sums of money familarizes him with two of the greatest problems now before Congress. Senator Radcliffe, a lawyer and official of a large insurance company is now the junior Senator from Maryland and seeks re-election.

THE MONTH of January will pass out next Wednesday and its going will be without regret. The extreme cold weather accompanied by drifting snow and frozen waterways has rendered a great hardship to the poorer class of people and also on those who make a living in the open. Particular hardship has befallen watermen who, during the entire month, have been unable to carry on their business of oystering which not only affects them but the hundreds of packing house employees and others engaged in handling oysters. A study of weather reports give no indication of an early return of the blue birds but with the coming of February one can at least have the satisfaction of believing that the weather is not likely to be any worse than January. February is, however, dreaded by another class of people, those who are so fortunate as to be annoyed by an income tax. The complications of the State income tax this year together with the usual difficulties of filing the Federal returns promises a month of many complexing problems. Offsetting these complications, February is a month nearer spring and then comes summer.

ONE HEARS much these days of Communism, bunds, etc., in the United States and even of organizations that are directly plotting to overthrow the government of this country. Although some people take this would be alarming propaganda seriously the majority of the people who are busy with their work are grateful of the fact that they live under our present form of government particularly at this time. If one can picture the people of Kent County or any other county in this country living under the dictates of a leader in fear of uttering or even listening to expressions that might be contrary to the wishes of this leader. It is not necessary to use violence in order to rid this country of undesirable leadership. Each four years the wishes of the majority are expressed at the ballot box and in the main the majority is right, if a mistake is made it can be corrected at the next election and every individual has an opportunity to seek public office according to his or her ability and talents. It is true that in every community there are a few converts to any crackpot idea that may be started but they are so few in proportion that their activities may well be considered anything but alarming. Most of the leaders of these various un-American activities are engaged in what can correctly called rackets. Investigations generally reveal that their organizations have misled members who pay dues or the leaders are paid by outside influences. In other words their activities are for financial gain rather than putting across ideas. The justification of exposing these rackets are for the benefit of their misled converts as we believe their chances of growth and influence in America is very small.

FOR CONGRESS

FROM THE FIRST CONGRESSIONAL DISTRICT OF MARYLAND

DUDLEY G. ROE

OF QUEEN ANNE'S COUNTY

Friends of Senator Roe in his home county and throughout the Eastern Shore join in asking you to support him for Congress on his outstanding and successful record as a man sincerely devoted to the best interests of the Eastern Shore and all its people.

A VOTE FOR ROE IS A VOTE TO GET ABLE, FEARLESS AND VIGOROUS REPRESENTATION IN CONGRESS

Subject to the DEMOCRATIC PRIMARIES May 6th, 1940

"AMERICAN" by Fostoria

EXQUISITELY BEAUTIFUL ... MODERATELY PRICED

Many years ago, Fostoria introduced to American women crystal dinnerware perfectly satisfactory for serving all kinds of hot foods and drinks.

Complete service sets became popular; a correct and preferable setting for many occasions. Of many patterns, none proved to be as popular as "American." Durable, beautiful, it is also a supremely useful line, characterized by an abundance of incidental, indispensable table pieces.

The most authentic of all Early American reproductions, Fostoria's "American" fits with any scheme of table furnishing or decoration; particularly colonial, provincial or modern.

You will like "American," its luster, brilliance, and prismatic reflections. It is decidedly inexpensive. An entire luncheon set can be assembled at *very* little cost. There are over 175 separate items for your selection. Some of these are as little as 50c each.

Embarrassing

When *Acid Indigestion, Gas on Stomach or Heartburn* make you feel uncomfortable or embarrass you, try Alka-Seltzer, which contains alkalizing buffers and so helps counteract the associated Excess Stomach Acidity.

But the relief of these minor stomach upsets is only a small part of what you can expect Alka-Seltzer to do for you. You will find it effective for Pain Relief in *Headache, Neuralgia, Colds and Muscular Aches and Pains.* It contains an analgesic, (sodium acetyl salicylate), made more prompt and effective in its pain-relieving action by alkaline buffer salts.

When hard work or strenuous exercise make you feel tired and dragged out, enjoy the refreshing effect of a glass of sparkling, tangy Alka-Seltzer.

At Drug Stores in packages and at drug store soda fountains by the glass.

Alka-Seltzer

THOSE WHO REMAIN

When death visits a home, the first concern is to perform the last service to the loved one in a becoming manner. What ever is done must express all the reverance and affection that is felt at such a time. But in addition to this a further responsibility rests upon the funeral director. It is his privilege and duty to lessen as far as lies with in his power, the burdens laid upon those who remain. By countless little acts of thoughtfulness he can make the way easier for them.

We consider this part of our work as important as any other. Our highest aim is to have our patrons look upon us as trusted friends, ready and anxious to render sympathetic assistance to those who remain behind.

R. R. FELLOWS,
Funeral Director.
