The following is contributed by Harold Stauffer: The letter "E." Who said "E" was an unfortunate letter? Some one has expressed the opinion that the letter "E" was the most unfortunate letter in the English alphabet because it was always out of cash, forever in debt, never out of danger and in hell all the time. For some reason he overlooked the good fortune of the letter, so we call attention to the fact "E" is never in prison. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no life, no heaven, no sleep and no eats. It is the centre of honesty, makes love perfect and without it there would be no being.
