THE CHESTERTOWN Rotary Club will take part next week in the Rotary Observance week which will be celebrated in 65 countries by 5042 Rotary Clubs with a membership of 210,-500 men. International relations is one of the objects of Rotary and its efforts toward peace are based on developing an understanding between the business men of the various countries and as this relationship grows it will develop a barrier against war between countries that are ruled by the people. The Chestertown Rotary Club was organized in 1927 and during its 13 years of existance has done much for Chestertown. Although it has not embarked upon any great enterprises that like a bubble often burst, it is ever conscious of community needs and acts when necessary. Its membership is limited to one classification from each business or profession so as to get a cross section of the community and by weekly dinner meetings has brought about an understanding and business relationship among its members as well as others in the community.

AN ATROCIOUS crime was committed last week near the Eastern Shore town of Stockton in Worcester County when an elderly farmer was murdered and his wife severely wounded by a group of men bent upon robbery. It was another of those rare crimes which arouses a community to violence in an effort to set an example that might prevent the future occurence of such crimes. People living in rural communities, particularly those who have grown older, are protected from such crimes by the fear of the punishment that results because unfortunately there are always heartless brutes that must be kept down. Mob violence is deplored and our civilization sets up courts of law to handle such cases and meet out just punishment. It is easy to condemn a mob for taking law into their own hands when one is far removed from the scene and has no interest in the victims of the crime. While we in no way uphold the acts of the Worcester County mob, yet we cannot help but remember the legal proceedings that followed a similar crime in that county not many years ago. A negro was arrested for an atrocious murder and the evidence unquestionably pointed to his guilt. After much delay and through the influence of outside organizations, who were in no way interested in the accused other than to gain notority which enabled them further to prey upon the negro race, the trial was finally moved off the Shore to Harford County at a tremendous expense to Worcester County. After months the accused was found guilty and sentenced to be hung. While the results should have been satisfactory, the long delay and the far removal of the trial from the scene of the crime probably brought just punishment upon the crimnial but what it probably did not do was set an example that would forever prevent a recurrence. Speedy justice can do more to prevent crime, prevent mob violence and set an example that will at least be remembered by one generation.

Embarrassing

When *Acid Indigestion, Gas on Stomach or Heartburn* make you feel uncomfortable or embarrass you, try Alka-Seltzer, which contains alkalizing buffers and so helps counteract the associated Excess Stomach Acidity.

But the relief of these minor stomach upsets is only a small part of what you can expect Alka-Seltzer to do for you. You will find it effective for Pain Relief in *Headache, Neuralgia, Colds and Muscular Aches and Pains.* It contains an analgesic, (sodium acetyl salicylate), made more prompt and effective in its pain-relieving action by alkaline buffer salts.

When hard work or strenuous exercise make you feel tired and dragged out, enjoy the refreshing effect of a glass of sparkling, tangy Alka-Seltzer.

At Drug Stores in packages and at drug store soda fountains by the glass.

McCormick-Deering Hammer Mill No. 5

● If you're looking for a low-cost, large-capacity hammer mill that will grind all small grains, see the new McCormick-Deering No. 5 at our store. It grinds wheat, oats, barley, shelled corn, etc. With a ½-inch screen, it will grind up to 3,700 pounds of shelled corn or 3,500 pounds of oats an hour.

Come in and look over the No. 5. Let us tell you about its all-welded steel construction; its five-disk rotor and 12 swinging hammers, reversible end for end and side for side, providing four usable grinding faces; and its two-way bagging attachment.

If you're in the market for a larger mill, see the new No. 10 and No. 10-C. These two mills grind a great variety of grains (headed or in bundles) and roughages. Also available: the No. 2 Roughage Mill for big feeding operations and a complete line of McCormick-Deering plate - type Feed Grinders.
