THE SHORE TRANSIT SYSTEM DOING WELL

The buses of the Shore Transit System recently installed over the ninety-one miles of line between Easton and Elkton with a spur to Rock Hall Pier, are exeeeding expectations, the management announces.

S. G. Durant, Development Manager, explains that the inauguration of new operations are made during the flattest months in the year when there is little or no traffic moving for the sole purpose of being better able to iron out all operating and other difficulties, adjust schedules properly, etc., while the traffic is light so that the new lines will be able to properly handle the traffic as it increases during the spring and summer months.

Mr. Durant states that the buses on the newly opened routes are practically taking care of fixed charges at the present time which he states is an unusually favorable sign of a very satisfactory showing as soon as the full flow of travel is secured which should be gradual as the people become better accustomed to the schedules and the finished character of transportation which the buses render in taking them right from their homes on the highway to where they are going.

For Continuous Service

The Construction Foreman

TELEPHONE construction never stands still. Future needs of telephone subscribers must be anticipated, existing equipment added to, and a steady program of expansion carried out.

THE Construction Foreman's duty is to oversee the Company's great construction projects. Each of these operations must proceed according to previously prepared estimates and specifications. Each job must be efficiently done, and it must be completed within a previously determined length of time. The Construction Foreman is responsible for the strict carrying out of these plans.

THE Construction Gang—the advance guard of the army which provides you with telephone service—builds the pole lines, lays the conduit, and constructs the underground concrete manholes. With man-power aided by the most modern labor-saving machines, the work of construction goes steadily and unceasingly on

BEFORE BABIES WERE BORN

Mrs. Oswald Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Girardville, Pa.—"I took Lydia E. Pinkham's Vegetable Compound before my last two babies came. It keeps me in perfect health and I am on my feet getting meals and doing all my housework until an hour before the baby is born. A friend told me to take it and I have used ten bottles since I heard about it. I recommend the Vegetable Compound whenever I can. Just yesterday a friend was telling me how miserable she felt, and I said, 'If you start taking Lydia E. Pinkham's you will feel fine.' Now she is taking it."—Mrs. P. J. OSWALD, JR., 406 W. Ogden St., Girardville, Pa.

Mrs. Nicola Paluzzi Says

Mishawaka, Indiana.—"I took Lydia E. Pinkham's Vegetable Compound for weakness before my babies were born. I was weak and tired out all the time and it helped me. When I had inward inflammation the doctor treated me, but it did not help me, so I tried Lydia E. Pinkham's Sanative Wash and it helped me right away. I will always have your medicines."—Mrs. NICOLA PALUZZI, 415 E. Broadway, Mishawaka, Indiana.

SEED

Every year presents new crop and market conditions to the Seed trade.

This year we are confronted with short crops of Red Clover due to less acreage last year and a poor yield. We have made a careful study of conditions from Government and Trade Paper reports, and know that we are in a position to sell you Quality Seed as cheap as they can be bought from any source. We have Seed on hand now, and will be glad to show them to you in the bags, so you are sure of what you are to get.

Sweet Clover
Orchard Grass

Permit us to call special attention to the lots of Sweet Clover and Orchard Grass.

This Sweet Clover is 99.19 pure with 94 per cent. growth. As fine a lot as we have ever seen. The Orchard Grass is 90 per cent. pure and 90 per cent. growth—a very fine lot.

Let us talk with you about what Seed you will need this year.

Another Reason Why—

Buick Cushions Are Comfortable On All Roads

The cushions on Buick open cars are supported on double-deck springs. The upper springs, light and easy acting, smooth out slight road irregularities, while the larger and stronger lowers absorb the bumps that cause the ordinary seat to "strike bottom". Two pads of curled hair between springs and French plaited upholstery give that final softness and assure the purchaser a cushion that will stand up.
