SHO'MEN PORTS

With

EDDIE OHLER

Emmitsburg, Maryland, April 3, 1940.—It may be spring up in the Mountains but Coach Art Malloy, Baseball Coach at Mt. St. Mary's isn't too worried about the whole thing. Yesterday out at the Mount, baseball practice hadn"t yet begun and yet the Mounts open their season nex Saturday.

Back this year from last year's starting lineup are: Hurley, catcher, Lawless, pitcher; Leary, pitcher; Mullen, first base; Karpinski, short stop; DuBottis, outfielder; and Flaherty, second base. With this group as a nucleus, Coach Malloy hopes to build another winning Blue and White team. Because of lack of practice, no predictions can yet be made.

Up in the hills its all football these days. Mt. St. Mary's really takes football seriously and has already begun Spring practice. With the coming of Fall, the freshman rule will go in effect up here. The freshmen rule, in plain words, means that no Freshman may participate in any varsity sports but must play on All-Freshmen teams. It is pointed out that this system often develops material for varsity teams. However, for a college to have any such rule, there must be a student body of sufficient numbers to warrant such a plan.

Washiugton opens its 1940 baseball season next Wednesday against Hartwick Colege. Little is known of the strength of the visiting team which is on a southern tour. In any event, the locals will be prepared to meet a tough team. "Lefty" Copple will probably get the call for the pitching assignment in this initial game. With several weeks practice under their belts, the Sho'men are out for another successful season.

Tennis and track will soon be under way and it's only a matter of days until the full spring sports schedule will be in swing. Until next week—we'll see you at the Hartwick game on Wednesday.

ADVANTAGES OF STATE POULTRY LAW CITED

Prevents Wholesale Larceny

Kent poultry producers are interested in the Poultry Transportation Law pased by the 1937 session under the Maryland Legislature. The Law provides that no person other than a producer or retailer of dressed poultry shall engage in the business of buying and selling poultry or deal in poultry on a commission basis or as a broker or in any other manner, unless he has a license therefor from the State Board of Agriculture.

Each vehicle used in transporting poultry, railroad, freight and express cars accepted, shall bear two metal plates which show the owners' license number, and each vehicle used in the business of transporting poultry shall cary a certified copy of such license in wheih such vehicle shall be particularly described.

The Law is explained to mean that all individuals hauling poultry except farmers who raise poultry or the merchant who sells only dressed poultry which he purchased dressed, must take out a license issued by the State Department of Markets.

Some reailers have felt they were exempt even though thy purchased the poultry alive but the Law specifies that the merchant retailing dressed poultry must purchase it already dressed in order to be exempt from the license requirements.

The licenses are renewable each year and expire on March 31st. The fee for the license is $2.00 and the license plates for each vehicle are 50c in addition.

The purpose of the Law is to help control the transportation of stolen poultry. It is suggested that farmers hauling their own birds to market carry identification cards so that if the Police assisting in the enforcement of this Law stop them it may prevent embarrassment.

The identification cards will be issued through the State Department of Markets and can be secured by any producer who has been verified by the County Poultry Association or the County Extension Service as being a bonafide producer of poultry. Producers who are also dealers are required to have the license, and the license rather than the identification card is their assurance of being able to transport poultry as occasion demands.

It is hoped that all dealers will comply with this license requirement as a means of protection to them in their business.

Large Fish Catch Reported

Reports state that sein haulers in Chester River this week made a haul of four tons of rock which brought a price of 8 cents a pound. The catch represented a three day haul.

LIME SUPPLIED TO FARMERS AS ADVANCED PAY

Conservation Payments Serve As Credit

County Agent McVean calls to the attention of Kent Farmers the fact that they can obtain lime without advancing cash to pay for it. Under an arrangement known as a Grant of Aid, the Triple-A will supply the lime now and will deduct the cost of the lime from the earnings made from Soil Building Practices.

Farmers who desire to obtain their lime under these conditions should get in touch with the County Agent's Office and sign up the forms that make possible the delivery of the lime without their advancing money for it.

The County Agent as Secretary of the local Agricultural Conservation Association stresses the fact that this arrangement does not interfere in any way with farmers making other arangements for their lime.

Lime to the extent of 90% of the possible Soil Building earnings may be secured as a Grant of Aid.

A second device which would enable farmers to secure money for any necessity may do so by assigning their ACP earnings to Banks or to Dealers. The money so advanced will be deducted from their final payments which under the shortened season for completing practices should mean the checks will be available before January 1, 1941.

This arrangement makes possible the use of lime at the opportune time when without such a plan it might be difficult to secure the lime or other material such as grass seed, superphosphate or other necessary expenses in connection with the farm operation.

Ice Cream at Sea

Ice cream is manufactured daily aboard United States battleships at sea, a substitute for fresh milk being employed.

Insect Lore

Two scientists have a novel method of picking up beetles, bugs and butterflies at Washkesiu, Saskatchewan summer resort. They paint tree trunks with a mixture of beet and brown sugar. Later in the evening by flashlight they gather a rich harvest of drunken insects.

Colorado Program

Alarmed by a steady decline in the number of hogs on Colorado farms, state agricultural officials have promoted a state-wide financing program to aid farmers in buying hogs.

Real Chopper

Perry Greene, Augusta, Maine, is justifiably proud of his wood-chopping prowess. He recently chopped through an 8 by 8 kiln-dried hard pine timber in 15⅝ seconds. Using a 10-pound ax, he severed the timber with six "clips" on one side and four on the other.

McKinley's Ancestral Home

President McKinley's ancestral home is now on the tourist map of Europe and is found at Conagher, near Derrock in Ireland's Antrim. It is but a cottage of one living room.

CONTRACTS BEING LET BY CANNERY AT KENNEDYVILLE

Seeking 600 Acres

The Kennedyville canning house, owned by F. O. Mitchell & Bros., Perryman, Md., is now contracting for sugar corn. This will be the 12th season this plant has operated under the present ownership. About 600 acres are to be contracted for at $9 per ton.

Mr. Ralph Poore will be manager of the Massey canning house for Mr. Clyde Carroll of Aberdeen, Md. Mr. Poore was formerly manager of this plant for Mr. Frank Baker, of Aberdeen. About 500 acres are to be contracted for at $8 per ton.

I PAY CASH

I will buy stamps on original envelopes as they passed through the mails between 1840 and 1865. Early envelopes are sometimes marked, "Paid 5 or 10 cents and especially during the Civil War. I am very anxious to buy these so marked envelopes. I buy unused United States and Confederate stamps issued before 1865. I pay spot cash by Money Order anywhere without unnecessary delay.
After 40 years in the ministry I am not in business from choice but circumstances. I ask no charity but a chance to do business. Send me your old envelopes for which I pay cash.
REV. JOHN L. SAUNDERS,
P. O. Box 25,
m30-4t.* Philadelphia, Pa.
