"STANDARD"
ETHYL GAS
GENERAL MOTORS PRODUCT

Introducing A New Automobile Fuel

"Standard" Ethyl Gas is a new automobile fuel that increases fuel efficiency, increases power, lessens waste, eliminates fuel knocks and the poor operating conditions that such knocks indicate, and prevents all harmful effects of carbonization.

With "Standard" Ethyl Gas in the tank of your car you can press the accelerator away down without the motor knocking and thus accelerate quicker, handle your car in traffic better and go over the hills with greater power and ease.

For years, in the great General Motors Laboratories, extensive experiments and research work have been carried on and test cars driven hundreds of thousands of miles to develop this more efficient fuel for internal combustion engines.

And now two great industrial organizations offer to the motoring public a new motor fuel—"Standard" Ethyl Gas—made by combining the basic Ethyl Fluid, a product of the General Motors Corporation, with "Standard" Gasoline, a product of the Standard Oil Company (New Jersey).

The only way to realize the benefits of this new fuel is to make an actual trial of it in your car.

Get "Standard" Ethyl Gas at any "Standard" Service Station in this locality.

Proposed Phone Increase Will Be Small Here

The proposed increase in telephone rates, application for which has been made to the Public Service Commission, as they apply to Chestertown and Kent county, are not very great.

In fact the individual residence phones from this station will remain the same, $2.75 a month. The increase is entirely in the business phones.

In the business phones, individual lines the proposed rate is $4.25, an increase of only 25 cents per month In the party lines for business purposes there will be a change from four party business rates to two party business rates, the price being advanced 75 cents a month for this service. The rural business line is changed from $2.50 to $3.00, while the extension station, flat, remains the same at $1.00.

Under individual line message rate, for business or residence, fifty or less local messages per month are allowed, additional local messages at 5 cents each. The allotment of local messages will be also used to pay charges for toll messages within the county, one local message for each 5 cents or part thereof of the toll charge, not including tax.

For auxiliary line three-fourths the individual line rate, present and proposed.

The important thing that interests business and residence users in this section is that the residence monthly charge remains the same and the individual business line is advanced only 25 cents a month.

REMARKABLE RECOVERY OF MRS. SPINK

Gives Lydia E. Pinkham's Vegetable Compound Full Credit

Minn. Junc., Wis.—"I was under treatment, but nothing seemed to help me, and I was run-down and so weak that I had to remain in bed much of the time and was like an invalid. I had pains in my abdomen and in the female organs, and my stomach bothered me. My husband saw Lydia E. Pinkham's Vegetable Compound advertised, thought it must be good, and brought it home to me and advised me to try it. After taking one bottle I was able to eat, and after six bottles I was doing my own work, which I hadn't been able to do for years. I have a new baby who is doing nicely, and I am still taking the Vegetable Compound and feeling better than I have for four years. The medicine is surely wonderful and a good thing to have in the house."—Mrs. GEORGE SPINK, Minnesota Junction, Wisconsin.

A country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound reports 98 per cent. benefited. For sale by druggists everywhere.
