NEW TELEPHONE BOOKS HAVE NEW LISTING SYSTEM

Exchanges Will Not Be Separated

Important changes in the new Kent & Queen Annes Counties telephone directory that is being delivered, which it is believed will make it more useful and easier to read, have been announced by the manager of the Chestertown office of the Chesapeake and Potomac Telephone Company of Baltimore City.

In the past telephone subscribers were listed under their exchange, but is shown after each name. Thus to find a subscriber's number in any of the eight exchanges in the book it is not necessary to know in what telephone exchange area he is located. One need only look for the subscriber's name in its proper alphabetical position.

In addition, the forthcoming directory has been set in a new type especially designed for Bell System telephone directories which is clearer and easier to read than the type formerly used. These changes are similar to recent improvements in other directories which have been found very satisfactory in actual use.

The new directory of which 4,600 at Centreville, Chestertown, Church Hill, Galena, Millington, Queenstown, Rock Hall, Stevensville and Still Pond.

Subscribers are requested by the manager to be careful and remove personal papers from their directories before discarding them. He also urges that old directories be destroyed when the new book is delivered because there have been many changes in telephone numbers.

JOB DICTIONARY TO BE USED FOR UNEMPLOYED

Mrs. Nell C. Westcott, manager of the Chestertown Office of the Maryland State Employment Service, recently attended a three day meeting in Baltimore where managers of that organization discussed the use of the new Job Dictionary which provides a uniform system of occupational classification for all industries in the United States.

Leading representatives of private industry have enthusiastically welcomed the publication of the new Job Dictionary. The need for uniform system of occupational classification is especially evident at this particular time when a decided pickup in employment in heavy industries is anticipated. The coding system which is a part of the new classification plan will permit employment managers to locate persons of a given skill in one industry for ready transfer to another when the similarity between the two is not readily discernible in the respective titles.

FOUR KENT WOMEN RECEIEVE AWARDS AT SHORT COURSE

Mrs. Anna Jaquette Gets 8-Year Pin

More than 900 women from all sections of Maryland attended the eighteenth annual Rural Women's Short Course, which was held at the University of Maryland from June 17 to 22. On Thursday, Visitor's Day, more than 1,300 were present, which was a record-breaking number for any Short Course, according to Miss Venia M. Kellar, Assistant Director of the Extension Service, who was in charge of the course.

Among the 82 women from 20 counties, who received certificates in recognition of attendance at the Short Course for four years were Mrs. Lloyd Kennedy, Mrs. John D. Rollison, and Mrs. Jane Schellinger, from Kent.

Dr. H. C. Byrd, President of the University of Maryland, presented the certificates and the main address was made by His Excellency, Herbert R. O'Conor, Governor of Maryland.

Twenty-one women received pins in recognition of the fact that they had attended the Short Course eight years, among whom was Mrs. Anna Jaquette, of Kent County.

ENLISTMENTS IN THIRD CORPS AREA INVITED

Strength To Be Increased 2766 Men

In order to continue its defense program, the War Department has recently authorized the enlistment of 2766 men to be accomplished by August 31, 1940, for units stationed in the Third Corps Area, comprising the states of Maryland, Pennsylvania, Virginia and the District of Columbia.

Many vacancies exist for which applicants for enlistment have a wide variety of selections with reference to branch of the service as well as to location of station.

Emphasized is the procurement of men for Coast Artillery at Fort Monroe, Virginia; Medical Department and Signal Corps at Fort George G. Meade, Maryland; Field Artillery at Fort Hoyle, Maryland; Chemical Warfare Service at Edgewood Arsenal, Maryland; and the Quartermaster Corps at large.

In addition to the number required for the Third Corps Area, there are also vacancies existing in Hawaii for assignment to Chemical Warfare Service and Signal Corps. One requirement for these latter assignments is that the applicant have a high school or equivalent education.

Many persons do not realize the wide variety of opportunities offered to young men by the Army. Nearly every branch of the service maintains a school to train specialists. New motorized units are being formed in the Army. Those who are mechanically inclined, who are not now gainfully employed, should give the matter of enlisting in the Army serious thought.

Steno's Cosmetic Tax Bill

The National Consumers Tax commission says the average city stenographer pays $7.32 in hidden taxes on her annual cosmetics bill.

Air Traffic

Traffic regulations for aviators are now necessary, due to the fact that flying in clouds has become commonplace.

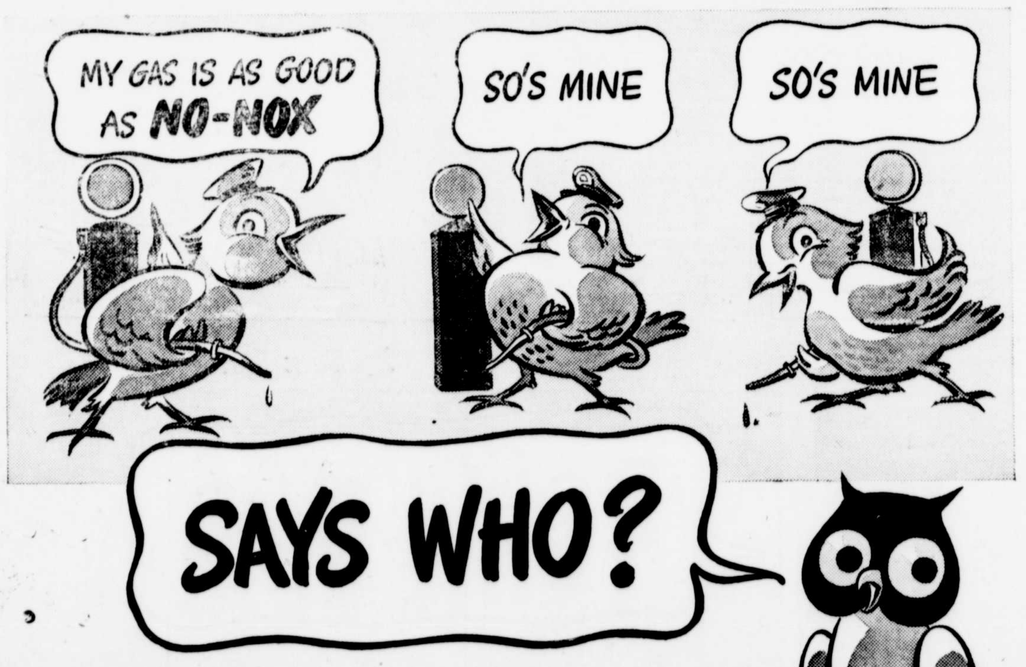
Communicate with Mr. T. Ringgold Jones, Rock Hall, Md., or with S. A. Miller, 95 Brookside Ave., Caldwell, N. J.



CERTAIN OIL COMPANIES are doing everything but *claim outright* that their *regular*-priced gasoline will perform as well as our *premium*-priced gas, Gulf No-Nox.

That isn't even within shouting distance of the facts.

There are three methods most generally used to determine the anti-knock value of a gasoline. These tests are used by us, used by our competitors, and are recognized by everybody in the industry.

On these *tests of quality,* made by an *independent* laboratory, the regular gasoline, which is making the most to-do about being the equal of Gulf No-Nox, RATED 7 FULL POINTS BELOW GULF NO-NOX!

Even 3 points in anti-knock rating is a *noticeable* difference—7 points is a *BIG* difference . . . gives No-Nox a tremendous advantage in the high-compression engines used in the newer cars . . . makes No-Nox well worth the two-cent premium it costs.

You have lived long enough to know *that in everything sold in this world* you get about what you pay for. Gasoline is no exception. So, take it with several grains of salt when *anybody* tells you his regular fuel is as good as Gulf No-Nox.

No-Nox isn't just something that sounds good in *print.* It makes a real difference in your *car.* Try a tankful the next time you need gas and find out—to your *own* satisfaction—whether any regular gas, anywhere, can even be *compared* with No-Nox!
